Gentlemen:

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until June 28, 1970; however, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the Rigby Star 134 West Main, Rigby, Idaho and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

Dear Mr. Adams:

We have been advised, by Mr. Paul C. Holm, on January 28, 1970, that you hold a power of attorney in connection with his water permit No. 35-2785. Therefore, you should be advised that proof of beneficial use for this permit is required to be submitted to this department, on or before June 28, 1970. Also there is a requirement for advertising public notice of this permit. The advertising authorization and instructions for advertising was sent to Holm & Groberg, Roberts, Idaho, on January 23, 1970. The affidavit of publication must be submitted at the same time as proof of beneficial use.

We are sending you a beneficial use affidavit, a set of instructions for filling out this affidavit, a copy of the above referenced permit, and a power of attorney form. Please submit these documents, on or before, June 28, 1970, in order for the department to consider the proof. You may submit a copy of your own present power of attorney, as long as it references all personal property or the permit by number; otherwise, complete the enclosed power of attorney and have it notarized.

If we can assist you further, please contact us.

Re: Permit No. G-32417/35-2785

Holm & Groberg
Roberts, Idaho 83444

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.
