

**NOTICE OF EXISTING
WATER PERMIT**

Notice is hereby given that Elmer D. Watt, Pingree, Idaho, has received an approved permit No. G-32314/35-2772 issued by the Idaho State Reclamation Department authorizing the diversion of 4.8 cubic feet per second of water from a ground-water source, subject to all prior rights. The priority to be established under this permit is April 12, 1965, and the permit was approved April 16, 1965. Water is to be diverted by well and sprinkler from a point within the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34, T. 2 S., R. 32 E., B.M., Bingham County, to be used for irrigation in the S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 34, T. 2 S., R. 32 E., B.M. Proof of the application of the water to beneficial use is to be submitted to the department on or before April 16, 1970. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Dear Mr. Watt:

One of the conditions of the approval of your permit G-32314/35-2772 was that proof of application of the water to beneficial use be submitted to this office on or before April 16, 19 70.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 35-2772 - Elmer D. Watt

Mr. H. William Furchner
178 Judicial Street
Blackfoot, Idaho 83221

Dear Mr. Furchner:

In reference to your letter of January 8, 1970, and the application for amendment for the above referenced permit, please be advised that the original permit was composed of a maximum of 240 acres for irrigation purposes. Therefore, the maximum number of acres that we could consider under an amendment would be 240. We feel that the provisions of Sec. 42-211 of the Idaho Code do not provide authority for expansion of this nature.

If Mr. Watt requires the authority to irrigate this additional ground from a groundwater source, we would require that it be accomplished by filing a new application for permit. We are enclosing an application form and instructions.

If, however, you wish to proceed with the amendment request, please advise us by return mail and we shall process the application. The probable result would be denial of the amendment and the required filing fee of \$5.00 at that time would not be refundable.

Your assistance in clarifying this issue would be greatly appreciated.

Re: Permit No. G-32314 (New No. 35-2772)

Elmer D. Watt
Pingree, Idaho

Dear Mr. Watt:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Dear Mr. Watt:

In checking through our files, we find that we must have clarification as to the point of diversion with regard to the above referenced permit.

The permit states the point of diversion as being located in the Center of the N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 34, T. 2 S, R. 32 E, B. M. However, we must have the point of diversion located to the 40-acre tract within the section.

Thank you.

Dear Mr. Watt:

O
We have received a log on a well drilled for you in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34, T. 2 S., R. 32 E., B.M. which shows that the well is for irrigation purposes. We find no record of a permit for this well.

Idaho Code, 42-229, as amended by the 1963 Session of the Legislature, provides that a permit to divert subterranean water must be obtained from this office in all cases where over 13,000 gallons per day or 9 gallons per minute will be diverted.

P
Idaho Code, 42-237a, provides that the State Reclamation Engineer may commence action to enjoin the illegal opening or excavation of wells, or withdrawal or use of water therefrom.

Y
Form 3, Application for permit to Appropriate Subterranean Water, and instructions, are enclosed. May we hear from you in the matter?

Very truly yours,

RALPH W. THOMAS
Deputy State Reclamation Engineer
