Dear Fred:

This is in answer to your inquiry of May 28, 1970, regarding the above referenced permit. Proof of beneficial use has been received on this permit and an order of reinstatement was forwarded to the permit holder on May 26, 1970. You should have received a copy of our May 26th letter.

After the advertising authorization is returned from the permit holder and the advertising completed, the Department will conduct a field examination before licensing the permit. I doubt that the field examination will be completed this irrigation season, however the permit is in good standing and awaiting further action by the Department.

Hope this answers your questions, please advise when we can be of further assistance.

Re: Permit No. G-32307 (New No. 35-2271)

Wright Brothers Company, Inc.
Box 36
Rigby, Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit, ~~and are now submitting proof of beneficial use.~~ Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.
