Dear Mr. Ashment:

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until March 26, 1970; however, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the Post Register, Idaho Falls, Idaho, and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

Dear Mr. Ashment

One of the conditions of the approval of your permit G-32292/35-2870 was that proof of application of the water to beneficial use be submitted to this office on or before March 26, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-32292 (New No. 35-2770)

Ivan Ashment
Ucon, Idaho

Dear Mr. Ashment:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit, ~~and are now submitting proof of beneficial use.~~ Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Dear Mr. Ashment:

Former letters gave you information about the
priority date and nothing further can be done.

This office is administrative and it requires
judicial authority to allow priority prior to date of receipt
of an application for permit.

Very truly yours,

Attention Ralph W. Thomas.

Dear Mr. Thomas:

Thank you for your letter of April 22, 1965, clarifying the date of priority for Permit No. G-32292.

You state that in case of action in the District Court, the priority allowed would be the date of first use of the water, as proved in court. Would it be possible to establish this date of first use of water as the priority date now, and avoid a costly and time consuming court action at some future date? Would affidavits from the Well Drilling Co., the Company who installed the irrigation system, and the owner of the farm at the time of first use of water under this permit furnish evidence for setting the priority date as March 20, 1962? If there is any way to establish the priority date for this permit as of the first use of water I am anxious to do so at this time, and would very much appreciate any help you can give me.

Thank you.

Yours truly

Dear Mrs. Prater:

My letter of April 13th was in error showing that the application of Mr. Ashment to divert water from a well in Section 11, T. 3 N., R. 36 E. was received March 20, 1962. The application was received March 22, 1965, and that is the date of priority.

In case of action in the District Court, the priority allowed would be the date of first use of the water as proved in court.

Department of Reclamation

Attention Ralph W. Thomas.

Dear Mr. Thomas:

Today I received the forms for Notice of Proof of Completion of Works for Permit No. G-32292. Thank you.

The well for which this permit was issued, was drilled by Commons and King Drilling Co., of Rupert, Idaho, for Richard Woods of Roberts, Idaho. As per the Well Log the well was completed on March 29, 1962, and was used for irrigation purposes that summer.

I am buying this portion of Sec. 11, Twp 3 N., R. 36 EBM., on which the well is located, from the Farm Development Corp., P.O. Box 1201, Boise, Idaho. I asked them for water permit for the well. In reply I received Permit No. G-32292, stamped as received by the Department of Reclamation on March 22, 1965.

On April 22, 1965, I wrote to the Department of Reclamation asking whether the priority date should be March 22, 1965, as that was the date on the permit; or March 29, 1962, the date the well was completed. In answer I received a letter from the Department of Reclamation, signed Ralph W. Thomas, stating that the priority under this permit was March 20, 1962. Today I received a letter dated April 19, 1965, signed by Ralph W. Thomas, stating the the priority dated for this permit was March 22, 1965.

I do not understand why the letter of April 13, 1965 gives the priority date as March 20, 1962, and the letter of April 19, 1965 sets the priority date as March 22, 1965. Could it be possible that a permit was issued to Richard Woods when the well was completed on March 22, 1962, and another permit was issued at the request of the Farm Development Corp. under date of March 22, 1965? I believe the correct priority date should be March, 1962. What should I do to clear up this discrepancy, and establish the correct priority date?

Thank you.

Yours truly

Gentlemen:

The well on sec. 11, T. 3N., R. 36 E., permit no G-32292, was completed and put into service in the Spring of 1962. At what time should I start proof of completion of works in order to get the License and Certificate of Water Rights?

Also I would appreciate it if you would inform me whether the date of priority of water right is determined from the date of the application, or from the date of the permit.

Thank you.

Dear Mr. Ashment:

March 20, 1962, was the date this office received the acceptable application to divert water from the well in SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 11, T. 3 N., R. 36 E. and is the priority under the permit.

We have not received a log of the well. A letter is being sent to the driller.

Dear Sir:

SENE II

Today I received from the Farm Development Corp of Twin Falls, Idaho, water permit No. G-32292, made out in my name for well on Sec. 11, Twp 3N. R. 36 EBM. Also I received from your Department notice that a well log should be filed with The Department of Reclamation for this well. Thank you.

I purchased this property this spring, so I have no record of whether a well log was filed with the Department of Reclamation at the completion of the well. However, I have in my possession a copy of well log for this well, sent to me by the Commons and King Drilling Co., of Rupert, Idaho. This log states that the well was commenced on November 6, 1961, and completed on March 20, 1962. Will you please inform me whether this log was properly filed with your department.

I do not have information whether application for water permit was made at the time of completion of the well. However since the well log states that the well was completed on March 20, 1962, should the date on the application be March 26, 1965?

I will appreciate any help you can give me to get this properly set up.
Thank you
