Dear Mr. Hanny:

Thank you for your letter of July 20, 1966 in regard to the above numbered permit.

We were aware that you do have this permit; however the driller indicated on the well log that the well was located in Township 4 South, rather than 4 North, and he did not designate the county. Therefore we assumed that it was in Bingham County.

Thank you for your prompt attention to this matter. We will correct the log.

Dear Sir,

Regarding your letter dated July 14, 1966, stating that I did not have a permit to drill a well, I submit the following information:

On March 8, 1965, I was given a permit number G32264 recorded in book 113, page 32264. I have the official receipt number G-9137 for the amount of \$6.50 for the filing fee for the above mentioned permit.

On June 23, 1965, I received a letter from your office stating that the final proof was to be made on August 16, 1965, and shortly after, I received a letter informing me that the State Engineer would come and check the flow of water.

I hope that this information will bring your records up to date.

Yours truly,

Dear Mr. Hanny:

We have received a log on a well drilled for you in the SE1/4 NW1/4, Sec. 13, T. 4 S., R. 35 E., B.M. by Commons Drilling Company. The log indicates that the water will be used for irrigation purposes.

Idaho Code, 42-229, as amended by the 1963 Session of the Legislature, provides that a permit must be obtained from this office in all cases except where less than 13,000 gallons per day will be diverted for use for domestic purposes. We find no record of a permit for this well.

Idaho Code, 42-237a, provides that the State Reclamation Engineer may commence action to enjoin the illegal opening or excavation of wells, or withdrawal or use of water therefrom.

Form 3, Application for Permit to Appropriate Subterranean Water, and Instructions, are enclosed. May we hear from you?
