Re: Permit No. 32075/35-2756

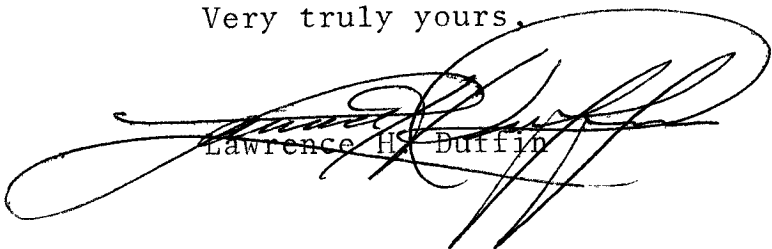

Dear Mr. Fleenor:

Subsequent to your telephone call of July 10, 1973, I again consulted with my client, Mr. Blaine Hansen, regarding the amount of irrigated land covered by the above numbered permit. He informs me that he is absolutely certain that he has a minimum of 158 acres being irrigated by this well. He states that this irrigated land consists of hay, grain, and pasture and that the A.S.C. aerial map will confirm his claim. He further states that in sections 33 and 34 he has eight acres of holding pens, but everything south of his main line is permanent pasture and would leave about two or three acres for corrals and house.

The twenty acres that was subtracted from the A.S.C. aerial photograph is located in the N.E. $\frac{1}{4}$ of the N.W. $\frac{1}{4}$ of section 34 and is covered by Permit No. 35-7099. This 20 acres will be planted to permanent pasture and irrigated beginning next spring.

Your representative, as a result of a field examination, apparently believed Mr. Hansen was not using all of the water for beneficial use on the land described in the permit. Inasmuch as Mr. Hansen does not agree with this finding, perhaps you could advise me as to the particular land that your field examiner believed was being irrigated.

Very truly yours,

Lawrence H. Duffin

Attention: Bobby D. Fleenor, Assistant Director

Dear Sir:

I have been retained by Mr. Blaine Hansen of Moreland, Idaho to represent him in the matter of the license to be issued on the Water Permit No. 3207/35-2756. Mr. Hansen believes that the department has not included all of his irrigable acres and has reduced his water right accordingly. Would you please advise us of the method used to determine that only 134 acres are irrigated. Mr. Hansen believes that he is presently irrigating substantially all of the 160 acres described in his permit.

Very truly yours,

Lawrence H. Duffin

Re: Permit No. G-32075/35-2756

Mr. Blaine Hansen

Dear Mr. Hansen:

We are in receipt of your proof of beneficial use of the water for Permit No. G-32075/35-2756.

It is noted from the proof that you have additional lands and water not covered by your permit. Inasmuch as the State of Idaho has been under a mandatory appropriation system for groundwater since March 25, 1963 (Carl E. Tappan, State Reclamation Engineer vs. Clyde E. Smith and Bonnie Smith in the Supreme Court of the State of Idaho, Case No. 10006, filed July 23, 1968) the only way to irrigate your additional ground is by means of a valid permit. We cannot amend your original permit to include the additional acreage.

We, therefore, suggest that you file an application for permit to cover the additional water and lands that you have entered under your beneficial use proof. We have partially completed this application. Please submit the completed application signed and with the proper fees. A fee schedule for your use in this matter is enclosed.

If you do not wish to file a new application, please advise the Department by return mail as to your intentions.

Re: Permit No. G-32075

Blaine Hansen
Box 46
Moreland, Idaho

Dear Mr. Hansen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,
