Dear Mr. Wheeler:

The Department of Reclamation has recently conducted a field examination of the land and works covered by the above referenced permit. This examination shows that an amendment is needed because the permit shows the land in the SW $\frac{1}{4}$ of Section 36 and the field examination shows it in the SE $\frac{1}{4}$ of that same section.

If you agree with the findings of the Department, please sign and return the enclosed application for amendment with a \$5.00 fee. If we also receive a license fee of \$13.00, we can issue the water license under this permit for 2.0 c.f.s. of water for irrigation of 100 acres of land as shown on the application for amendment. The maximum quantity diverted shall not exceed 350 acre feet of water per season. The license would show a priority of December 15, 1964.

We would appreciate receiving the application for amendment and \$18.00 in fees as soon as possible. If you have any questions please be sure to contact this Department.
