Dear Mr. Farnam:

We have received your letter of January 5th concerning change of ownership of Licenses G-31920/35-2741 and G-32248/35-2761. Both of these documents are licenses and we have no procedure for changing the ownership of a license with every change in ownership of the land. The Idaho Attorney General's office has indicated that a water right license is appurtenant to the land described in the license. Therefore, the owner of the property would also become the owner of the water right license. If the property is divided according to the descriptions contained in the licenses, the division would automatically occur. Your letter will be entered into the files as information regarding ownership, but the licenses cannot be changed.

You also mentioned Permit No. G-32248 which, as noted above, has been renumbered to 35-2761. A license was issued on this permit on November 30, 1970, and, therefore, nothing further is required.

If you have any further questions regarding the above matters, please contact us.

Re: Avon Wilde and Elmer G. Wilde, d/b/a Wilde Brothers,
a co-partnership, Water Licenses No. G 31920 and
35-2761

Dear Mr. Higginson:

We are writing as attorneys for Elmer G. Wilde and Avon Wilde who have been in operation as a partnership. The Wildes have decided to divide the partnership lands and operate individually. They currently hold the above mentioned Water Licenses. Water License G 31920 apparently still remains in the name of Reid R. Parkinson. The Wilde Brothers' partnership purchased the property and Water License from Mr. Parkinson. Enclosed is a copy of the Deed and Bill of Sale setting forth this transfer. Apparently, your records do show the License in the Wilde brother's names since they have received communications in that regard.

As part of the division of the partnership lands, it is the desire of the Wildes that Water License No. G 31920 now stand solely in the names of Elmer G. Wilde and Deanna Wilde, his wife. It is also the desire of the parties that License No. 35-2761 now stand solely in the names of Avon Wilde and Cloy Wilde, his wife.

If it is necessary for the Wildes to fill out any departmental forms to accomplish this purpose, we would appreciate it if you could forward them to us. If this can be

35 2741

accomplished by letter, please set forth the appropriate change in your records. In addition, please let us know if you wish copies of the Deeds setting forth these conveyances of land together with the respective Water Licenses.

The Wilde Brothers currently are involved with one other application involving Permit No. G 32248. Apparently the proof of application of beneficial use and subsequent issuance of the License on this property will take place during 1972. We presume that it would be easier to make the License on this Permit in the name of the partnership. This would especially seem logical in view of the fact that the contract to this property is now in escrow with the Deed to be received by the partners also during 1972. After the Deed comes out of escrow in the name of the partnership and after the License is received, both in the partnership's name, we could proceed to division of the water right into each brother's share. Please let us know if you feel this would be the appropriate manner of handling this particular situation.

Thank you for your assistance in this matter.

Yours very truly,

Robert E. Farnam

Dear Mr. Lee:

We are in receipt of your letter of December 5, 1969, concerning the above referenced water license.

Please be advised that we do not have a procedure under the statutes, or administratively, to record the change in ownerships of water licenses. We find from a practical standpoint, that it would be impossible to keep a chain of titles in connection with the ownership of the property. We, therefore, have not made a practice of administratively recording any change in the ownership from the original indication of license. The Idaho Attorney General's office indicates that any appurtenancy of a water right is vested with the property as would be so indicated in real property. We, therefore, have in the past been unable to comply with similar requests.

We will place your letter of December 5, 1969, in the file so any interested party will be able to see, that at one time, the Wilde Brothers has been interested in the property.

If we can be of any further assistance please contact us.

Very truly yours,

Reference is made to water license G-31920 with date of priority of June 2, 1964, granted for 4.0 c.f.s. in the name of Reid R. Parkinson on the 18th day of March, 1968.

Mr. Parkinson and his wife have now affected a sale of these premises to Wilde Brothers. Other than the owners of the license, no other change would be made in this water license.

Re: Permit Number G31920, Reid R. Parkinson

Dear Mrs. Rule:

I am enclosing herewith two copies of the Notice of Proof of Completion of Works regarding the above-numbered permit. I am also enclosing two copies of the authorization to publish the notice.

I note from the application that the property is located in Jefferson and Bonneville Counties. If possible, we would like to have the notice published in the Rigby Star in Jefferson County, rather than the Post-Register in Bonneville County. I have left this in blank and would appreciate it if you would determine in which newspaper it should be published, and let me know.

Kindest regards,

Mary Smith
