Re: Permit No. G-31884

Gentlemen:

On June 20, 1968, and again on July 30, 1968, we made request to your office that you assure Utah Mortgage Loan Corporation and The Connecticut Mutual Life Insurance Company that they will be notified in the event of any proposed State action which would affect their security in connection with State Water Permit No. G-31884, issued to Evan Hardy Stucki. In our letter of June 20, 1968, we explained that Mr. Stucki has mortgaged his land, sprinkling equipment and water permit to these companies and that in order to protect their security they wish to know of any proposed State action in connection with the water permit.

Today we received a reply from your office dated August 21, 1968, informing us that you "must have a specific request from the recorded permit holder authorizing. . ." you to do so. For many years now, at the request of several mortgage lenders, we have asked for this assurance from your office and at no time have been advised that this type of regulation exists. In fact, we have usually received a speedy reply with the necessary assurance from your office. Has this authorization been in effect for some time; or is it a new regulation?

In any case, we have requested of Mr. Stucki that he forward you the required authorization. We would appreciate an early reply recommending the steps we should take in the future to assure us that we can take care of this matter in the fastest possible time and in conformity with the administrative regulations of your office, as applied throughout the State.

Very truly yours,

Michael K. Ferrin

Dear Mr. Ferrin:

In regard to your letters of June 20 and July 30, 1968, in order for this office to advise anyone other than the permit holder of action pending upon a particular permit, we must have a specific request from the recorded permit holder authorizing us to do so. In reviewing the file for permit C-31884, I find that we have no such request from Mr. Stuckl.

In your letter, you refer to License No. G-31884. The particular permit you refer to has not yet been licensed. The permit holder has submitted proof upon the permit, however before licensing occurs, this office must examine the facilities and land being irrigated to determine the maximum rate of diversion, the acre-feet of water, and the acreage of irrigated lands to license. The exam should be accomplished this year.

I am sorry that your first letter was mislaid and not answered. I hope that the above information may be of assistance to you.

Very truly yours,

C. Stephen Allred, Assistant
