March 7, 1969

R. Keith Higgenson
State Reclamation Engineer
Statehouse Annex 2
Boise Idaho

Dear Mr. Higgenson,

Mr. Creed M. Reasor of Pingree, Bingham County, Idaho, holder of permit G-31760, came to my office today with some papers and a letter from you dated Jan 2, 1969. Mr Reasor was back East for the better part of January and Feb and was not able to see the contents of your letter until recently. He was not moved to action until he again looked at the papers yesterday and noticed that the date for lapse of his permit was March 6th. As a result he has done nothing regarding the Proof of completion form. Mr. Reasor asked if I would see if he could have an additional 3 weeks to complete the proof. He came to me because a Company I represent has a mortgage on the property and in the past I have written letters to the Dept of Reclamation for him.

Mr. Reasor also wonders if he can have the engineer who figured the pump when it was installed verify the amount of water it pumps, rather than have an actual test made at this time of year?

One other matter, a year ago I had correspondence from Donald McRidowney, water rights clerk, that Mr. Reasors permit #G27551 had been cancelled when he failed to submit proof of completion of works by Sept 4, 1963. He enclosed permit applications at the time. I gave them to Mr. Reasor to have completed. I learn now that he did not follow thru and take care of getting a new permit to replace G27551.

Since completion of beneficial use has been done for several years, even prior to 1963 is it possible to file a "Claim for Water Right" form instead of an application for permit? Please reply, and send me necessary papers to take care of both the above matters. Your help is always appreciated.

Sincerely yours,

Arvel Draper.

Re: Permit No. G-31760

Creed M. Reasor
Pingree, Idaho

Dear Mr. Reasor:

One of the conditions of the approval of your permit
G-31760 was that proof of application of the water to
beneficial use be submitted to this office on or before _____
March 6, 1969.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

R. Keith Higginson

State Reclamation Engineer

RECEIVED
JAN 26 1968
Department of Reclamation

Dear Mr. McEldowney

Your letter of Jan 17th noted that permit #G-27551 was cancelled on Dec 20, 1963 for failure to submit proof of completion of works due Sept, 4, 1963. SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 16, Tp 4 S., R. 33 E.B.M..

What is necessary for Mr. Reasor to do to get the permit again and to get a license? Please advise at once or as soon as convenient.

Your letter also mentioned that Permit #23261 was not on the West half of Sec 15, Tp 4 S., R. 33, but instead was issued to Homer Longurst on SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 21 Tp 1 N., R. 35. We have assumed that the above was the correct permit number for a well on the W $\frac{1}{2}$ Sec 15, Tp 4 S., R. 33. Do you have any way of telling who a permit was issued to on that land? And if a license was given? Please advise as soon as possible. Actually this is the N $\frac{1}{2}$ W $\frac{1}{2}$ Sec 15.

Your letter said that permit # G31370 would have Proof of completion of works and beneficial use of water due on March 6, 1969. That proof had not yet been submitted. We are grateful for this information and the necessary steps will be taken to get the proof. It will be appreciated if you will advise us of the steps needed to furnish this proof. The land is being sprinkled, last year being the first.

We realize submitting the above advise will take some time but will certainly appreciate any help you can give us. I will look forward to hearing from you.

Sincerely yours,

Arvel Draper

LICENSE OF WATER RIGHT

License of Water Right No. 31760/35-2735 Priority April 1, 1964 Amount 2.93 cfs
(late proof)

THIS IS TO CERTIFY, that The Connecticut Mutual Life Insurance Company
of Hartford, Connecticut, has complied with the terms and conditions of Permit
No. 31760/35-2735 issued pursuant to Application for Permit dated March 6, 1964,
and has submitted proof to the Department of Water Administration on April 1, 1969,
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 2.93 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from a ground water source
tributary of _____, is hereby confirmed in the following amounts:

Amount 2.93 cfs for Irrigation from April 1 to Nov. 1 (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Subject, however, to the condition that no more than 2.93 cfs of water be diverted at
any one time, said waters to be diverted within the _____

SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 15, Twp. 4 S, Rge. 33 E, B.M.

in the county of Bingham; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 553 acre feet per year or _____
3.5 acre feet per acre.

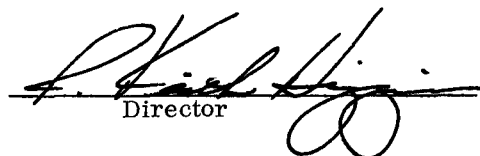

Description and location of place of use:

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 31760/35-2735 and has found the following:

Quantity of water diverted: 2.93 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 2.93 cfs

The maximum quantity diverted shall not exceed 553 acre feet per year.

Beneficial use: Irrigation of 158 acres within the
SW1/4 Sec. 15, Twp. 4 S, Rge. 33 E, B.M.

Point of diversion: SE1/4SW1/4 Sec. 15, Twp. 4 S,
Rge. 33 E, B.M.

Priority date established: April 1, 1964 (late proof)

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

1. Name of applicant Creed M. Reasor, Pingree, Idaho

2. Source of water supply: ground-water

3. Location of point of diversion: Is in the SE 1/4 SW 1/4 of Section 15
T. 4S R. 33 E County of Bingham

4. Describe works as they exist, giving dimensions and capacities of same:

well, pump, sprinkler system

PROOF - 75 HP pump, 16 1/2 x 8 discharge head, 8 x 2 x 1 3/10 column shaft & tube at 40" setting. 1/2 mile stick mainline, 7 - 1300' laterals complete.

100' well Exam: 75 HP Westinghouse motor #4-34V8928 with Johnston pump Serial #JU-3294 8" discharge

5. Water is used for: irrigation

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SW 1/4, Sec. 15, T. 4 S, R. 33 E 160 acres

PROOF - NW 1/4, Sec. 15, T. 4 S, R. 33 E 160 acres

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River

Remarks: Dale Hearbst is buying the land listed on permit. I made exam on and Mr. Hearbst wanted exam on SW 1/4, sec 15, T4S, R33E.

Owner was sprinkling the whole 1/4 sec so I included all of the acres in it.

Motor- 75 HP Westinghouse, Serial # 4-34V8928

Pump- Johnston, Serial # JU-3294

This examination was made on the 11 day of July, 1972

There is another well that runs into
this system which is designed to run
both at the same time. One cannot run
by itself. But next year there will be
a valve installed so that it is possible to
measure one at a time. So contact next
year and ~~complete~~ both exams then.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Dale Herbst runs place - Same phone number as owner.

Gentlemen:

We have received and processed assignments in connection with the above referenced permits. The assignments were executed by Creed M. Reasor, assigning the permits and claims to your corporation.

Inasmuch as you are the owner of the files in question, only your company, or those holding power of attorney, may manipulate the files. Therefore, only the changes that you propose, would be considered by The Department of Water Administration.

We are enclosing copies of these water rights for your future consideration. If we can be of any further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Re: Cancelled Permit No. G-27551, Permit No. G-31760 and Claim to
a Water Right No. 35-4006 Creed M. Reasor

Mr. Arvel Draper
Insurance and Loans
P. O. Box 407
Blackfoot, Idaho

Dear Mr. Draper:

It was a pleasure to talk to you by telephone on Tuesday, the 17th day of June, 1969. I hope we have finally been able to straighten out the many varied water problems pertaining to Mr. Reasor. As indicated in our conversation this letter is a follow-up to our conversation. We hope that this letter will assist in clarifying the issues.

Permit No. G-27551 has been cancelled and you have filed a claim to a water right in connection with the permit. There exists no means by which the Department can issue a license or any other document concerning a water right in connection with this permit G-27551 or the claim to a water right. Any claim submitted in connection with this permit must serve solely as a record of water use. The claim we have been referring to is numbered 35-4006 and has completed processing as far as the Department of Reclamation is concerned. We shall now follow the Statutes and advise Mr. Reasor that the claim has been processed and shall remain on file under the above referenced number. The Statutes contemplate no further action by the Department in connection with evaluation or other such items at this time.

Permit No. G-31760 is in good standing and requires only that a field examination be made by a representative from the Department. We cannot tell just when this examination will be made, but our representative will try to contact you and Mr. Reasor at the time he prepares to make the examination.

You should bear in mind that any development of groundwater taking place since March 25, 1963, and without benefit of a valid permit or license is without priority until such time as an adequate permit is filed. (Carl E.

31760

Page 2

Mr. Arvel Draper

June 18, 1969

Tappan, State Reclamation Engineer versus Clyde E. Smith and Bonnie Smith in the Supreme Court of the State of Idaho, Case No. 10006 filed July 23, 1968). Therefore, if any of the lands under Mr. Reasor's project have been completed since March 25, 1963, a new application for permit should be submitted to the Department to cover these lands. We are enclosing forms for this use.

If we can be of assistance to you in any manner do not hesitate to call upon us.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

RE: Creed Reasor, Bingham County.

Dear Mr. McEldowney,

We have had considerable correspondence regarding Mr. Reasor and his need of clearing up his water rights because a farm loan has been approved and will need to be closed soon. I thought we were making progress but your letters of June 9th have confused me, and perhaps it is my fault. At any rate I should like to go back over the correspondence to see if we can't come to an understanding of what is needed.

There are 3 wells involved. Taking them one at a time might be best. In 1964 Mr. Reasor drilled a well in the S $\frac{1}{2}$ of the W $\frac{1}{2}$ of Sec 15, Tp 4 S., R 33 EBM, Bingham County, Idaho. He put in a pump and sprinkler system on 180 acres at that time, and was issued permit #G31760. He failed to advise the Dept that this was completed and in 1969 he got notice that the permit had cancelled or was about to.

Mr. Reasor came to me because I had worked out farm loans for him and was taking an application for another one. I sent for an extension of time. Your letter of March 18th, ^{sent} forms for the extension of time, at the same time saying it probably would not be approved, but you did send a beneficial use proof form and an authorization of publication, saying that the completion of these would make an evaluation possible.

These were completed and I sent the Affidavit of publication on May 8th, following your letter of April 21st in which you sent an order reinstating the permit and asking for the affidavit of publication. In my letter of May 8th I asked what needed yet to be done. Your letter of the 22nd of May acknowledged receipt of the affidavit of publication. You stated that before a license can be issued a field examiner would look at the farm. You asked that I tell you who should be contacted. My letter of the 27th of May said both myself and or Mr. Reasor should be notified, and that Mr. Reasor would probably be on the farm most of the time.

Arvel Draper INSURANCE & LOANS

FARM, HOME AND COMMERCIAL LOANS
LIFE AND FIRE INSURANCE

P. O. BOX 407

BLACKFOOT, IDAHO 83221

Your letter of June 9th Re: permit No. G.-31760 mentioned the permit had been reinstated. Then, and I quote, "How ver, the Department has accepted the prooff of beneficial use and upon completion of the ad-vertising, we will prepare a field examination to be conducted by this Department." end of quote. Did not the affidavit of publication complete the advertsing?

Your other letter of the 9th, 2nd paragraph refers again to this well drilled in 1964, and you state it cannot be covered by a claim. You sent forms to file for a permit. I'm sure you have this confused with my request ~~to~~ for claim forms on another well in the same section. Please check this and verify, or let me know what yet needs to be done on permit G-31760.

2- Permit G-27551 was cancelled in 1963 when he failed to show proof of beneficial use. I sent a letter regarding what should be done to reinstate that permit. Your letter of March 18th 3rd paragraph told me that he could file a claim to water right, and you enclosed the forms. I was unable to locate the forms in the letter so asked again for them and your letter of April 17th enclosed them. My letter of May 8th returned them with the \$10.00 fee. I asked what needed yet to be done, and if a permit or licensw would be sent. To date I have not had a reply. Please let me know the status of this permit since sending in the claim.

3- My letter of May 8th. (one of 3 on that date). This letter went into detail about the purchasing of the farm in 1952 and at the time a well was on the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 15, Tp 4 S. R 33. A pump was used to irrigate part of the land in the N $\frac{1}{2}$ W $\frac{1}{2}$ Sec 15, as well as some in the S $\frac{1}{2}$ W $\frac{1}{2}$ sec 15. In 1964 Mr. Reasor got permit G31760 to irr~~g~~ate land in Sec 15, specifically the S $\frac{1}{2}$ W $\frac{1}{2}$. (This permit was discussed earlier in this letter). I asked for forms to claim a water right for this N $\frac{1}{2}$ W $\frac{1}{2}$ Sec 15. Your letter of the 9th, first paragraph, acknowldeged my letter regarding this and said that Mr. Reasor should file a claim to a water right, since he had been using the well and pump to irrigate the land ~~for~~ prior to 1963. The forms requested in my letter of May 8th were not sent, but I was told completing the forms was the correct thing to do.

Please send the forms and instructions necesarry to complete a claim to water right for this well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 15, T. 4 S., R. 33 E.B.M..

In summary, I will appreciate your reply as soon as possible, regarding the status of Permit G31760 that has been reinstated and the affidavit of publication recieved in your office.

Also, the status of permit #G27551, cancelled, on which claim for water rights has been sent together with the \$10.00 fee.

Also, forms and instructions are needed for completing a claim for water right on the well in the NW¹/₄NW¹/₄ Sec 15, T. 4 S. R 33 EBM.

A committment for Mr. Reasors loan has been recieved, and it is expected that it will be in aposition to close within two weeks. Your cooperation will be appreciated.

I am grateful for your help on Mr. Reasors case to date, and ask for your help to complete the file.

Sincerely Yours

Arvel Draper

Dear Mr. Draper:

In response to your letter of May 8, 1969, please be advised that permit G-31760 has been REINSTATED and the application for extension of time previously requested has been denied. However, the Department has accepted the proof of beneficial use and upon completion of the advertising, we will prepare a field examination to be conducted by the Department. Following the examination, the Department will propose a license for Permit G-31760.

If we can be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney

Re: Creed Reasor, yours of the 21st April.

Dear Mr. McEldowney,

Thanks for your letter of the above date, and for the reinstating form sent with it.

I enclose the Affidavit of Publication. I understand that the permit has been reinstated. What needs to be done now to furnish completion or proof of completion of works so a license can be issued? The land is under sprinkler system and has been since 1964.

I will look forward to hearing from you at your earliest convenience, and please accept my thanks for your fine cooperation thus far.

Very sincerely yours,

Arvel Draper.

BEFORE THE STATE RECLAMATION ENGINEER
OF THE
STATE OF IDAHO

IN THE MATTER OF REINSTATEMENT OF PERMIT NO.)
G-31760 in the name of CREED M. REASOR

ORDER OF REINSTATEMENT

WHEREAS, Creed M. Reasor applied to the Department of Reclamation on March 6, 1964, for a permit to appropriate the public waters of the State of Idaho, proposing the diversion of 3.2 cubic feet per second of the waters of a ground water source for use in Sec. 15, T. 4 S., R. 33 E., B.M., Bingham County, Idaho; and,

WHEREAS, on March 6, 1964, Permit G-31760 was approved with the condition that one-fifth of the work was to be completed and proof that the water had been applied to beneficial use be submitted on or before March 6, 1965; and,

WHEREAS, on January 2, 1969, the Department of Reclamation forwarded to the permit holder by certified mail an order modifying the requirements for completion of Permit G-31760 as adopted under the Rules of Practice and Procedures on August 1, 1968, notifying the permit holder that he was required to submit proof of the application of the water to beneficial use and was instructed as to the steps to be taken to make that proof; and,

WHEREAS, on April 1, 1969, the Department of Reclamation received the required proof of beneficial use of the water; and,

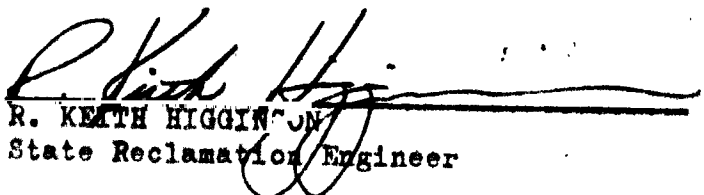

WHEREAS, on April 4, 1969, the permit holder was notified by the Department of Reclamation that the permit had lapsed as proof was not received on or before the required date; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of lapsing; and,

WHEREAS, submission of an affidavit of proof of beneficial use is considered as a reasonable showing as to why the permit should be reinstated;

THEREFORE, IT IS HEREBY ORDERED that Permit G-31760 be REINSTATED and the priority reduced to April 1, 1964.

Dated this 18th day of April, 1969.

RE: Creed M. Reasor, Yours of 3/18/

Dear Sir,

Your letter of the 18th is appreciated and we have tried to complete the forms you sent. The completed forms are enclosed. Please advise if not in order.

The last paragraph of your letter stated, "If the water developed under permit G-27551 (cancelled) was placed to beneficial use prior to March 26, 1963, Mr. Reasor could file a claim to a water right under section 42-225A of the Idaho Code. Enclosed are forms for your use in this matter."

We were unable to find the forms mentioned in the last paragraph. Please send the forms, and we will at once complete them.

Your assistance is very much appreciated.

Sincerely yours,

Arvel Draper

Gentlemen:

Enclosed is a legal notice which we wish to have published for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates, please contact the Department of Reclamation immediately.
Creed M.

The expense of the publication is to be paid by _____

NOTICE OF APPROVED

NOTICE OF APPROVED
APPLICATION FOR WATER

Notice is hereby given that Creed M. Reasor, Pingree, Idaho, has received an approved permit No. G-31760 to divert 3.2 cubic feet per second of water from a groundwater source. The priority to be established under this permit is March 6, 1964. Water will be diverted by well, pump, and sprinkler system within the SE1/4 SW1/4, Sec. 15, T. 4 S., R. 33 E., B.M., Bingham County and is to be used for irrigation in the SW1/4, Sec. 15, T. 4 S., R. 33 E., B.M.

Any protests against the intent of the permit must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

Dear Mr. Higgenson,

Mr. Creed M. Reasor of Pingree, Bingham County, Idaho, holder of permit G-31760, came to my office today with some papers and a letter from you dated Jan 2, 1969. Mr Reasor was back East for the better part of January and Feb and was not able to see the contents of your letter until recently. He was not moved to action until he again looked at the papers yesterday and noticed that the date for lapse of his permit was March 6th. As a result he has done nothing regarding the Proof of completion form. Mr. Reasor asked if I would see if he could have an additional 3 weeks to complete the proof. He came to me because a Company I represent has a mortgage on the property and in the past I have written letters to the Dept of Reclamation for him.

Mr. Reasor also wonders if he can have the engineer who figured the pump when it was installed verify the amount of water it pumps, rather than have an actual test made at this time of year?

One other matter, a year ago I had correspondence from Donald McRidowney, water rights clerk, that Mr. Reasors permit #G27551 had been cancelled when he failed to submit proof of completion of works by Sept 4, 1963. He enclosed permit applications at the time. I gave them to Mr. Reasor to have completed. I learn now that he did not follow thru and take care of getting a new permit to replace G27551.

Since completion of beneficial use has been done for several years, even prior to 1963 is it possible to fill a "Claim for Water Right" form instead of an application for permit? Please reply, and send me necessary papers to take care of both the above matters. Your help is always appreciated.

Sincerely yours,

Arvel Draper.

Creed M. Reasor

Mr. Arvel Draper
Arvel Draper Insurance and Loans
P. O. Box 407
Blackfoot, Idaho

Dear Mr. Draper:

Pursuant to your letter of March 7, 1969, we are forwarding an application for extension of time. As you are probably aware, we cannot consider an application for extension of time request unless it is made on the department's form.

A three week extension would most likely not be approved in this case as Mr. Reasor has means at his disposal to get Permit G-31760 reinstated up to 60 days after the date of the notice of lapsing. In order to have the permit reinstated, Mr. Reasor must show adequate cause why the permit should be reinstated.. This adequate cause could be the department's receipt of the authorization to publish this permit and the beneficial use proof affidavit on the permit in question. We are enclosing an extension form, beneficial use proof form, instructions, and an additional authorization to publish. If Mr. Reasor will get these into the office, we will evaluate them and possibly reinstate his permit.

If the water developed under Permit G-27551 (cancelled) was placed to beneficial use prior to March 26, 1963, Mr. Reasor could file a claim to a water right under Section 42-225a of the Idaho Code. Enclosed are claim forms for your use in this matter.

If we may be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney

RE: Creed Reasor, Claim to Water right.

Dear Mr. McEldowney,

There has been some correspondence with the Dept of Reclamation since 1964 regarding a well permit on the NW1/4 Sec 15, 4 S, R 33E3M, Bingham County, Idaho

Mr. Reasor bought the farm in 1952 from A. K. VanOrden. At the time there was a well on the 40 acres described and a turbine pump was supplying water to some of the 320 acre farm.

When a loan was made to Mr. Reasor in 1964 to put about 180 acres under sprinkler an attempt was made to get the permit copy. It appears that a permit was never applied for. If this is the case, would it be possible for Mr. Reasor to complete a form Claim to Water Right? If so please send the necessary Dept forms. If not please advise what needs to be done.

Mr. Reasor has irrigated from 100 to 120 acres of land on the 320 acre farm since he bought the farm in 1952. In 1964 a sprinkler system was installed by the drilling of a well in the South half of the 320 acres. Mr. Reasor continues to use the well and pump in the NW1/4 to flood irrigate 15 acres of crop land and some patches of pasture. He is now applying for a loan to put the remainder of the 320 under sprinkler, about 130 acres. The present well and pump will be used, and a 50 H.P. centrifugal pump installed to furnish sprinkler pressure to mainline and laterals.

I will look forward to receiving your advise and the forms required to get a water right.

Sincerely yours,

Arvel Draper.

RE: Creed Reasor, claim to a water right.

Dear Mr. McEldowney,

Persuant to your letter of the 18th of March, 1969, we submit a claim to water right on the Dept forms. Also the fee for \$10.00, and a map or drawing of the farm and water works.

If this is approved will the permit be re instated and a license issued, or will something else have to be done to get a license issued?

Your help is appreciated. I will look forward to some word from you at your earliest convenience.

Very sincerely yours,

Arvel Draper.

RE: Creed Reasor, yours of 22nd.

Dear Sir,

I acknowledge receipt of your letter of the 22nd, and the request that I let you know who to contact other than me when the property is to be inspected. Mr. Reasor will be operating the farm and should be there at all times. However, if not I will be glad to accompany the man to the farm if needed. Mr. Reasor has a hired man living in one of the two homes also, who might be able to help.

I enclose copies of two recent letters sent you on other water problems for Mr. Reasor. As soon as you have information relative to them I will appreciate hearing from you. Was the claim to water right form completed satisfactorily? This information will help me to complete another one that is referred to in one of the letters of May 8th. I will appreciate getting some Water right forms to complete on the well referred to in the letter.

Thanks for your help at all times.

Sincerely yours,

Arvel Draper.

Re: Permit No. 31760

Creed M. Reasor
Pingree, Idaho

Dear Mr. Reasor:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Boise, Idaho 83707

Dear Mr. McEldowney

Your letter of Jan 17th noted that permit #G-27551 was cancelled on Dec 20, 1963 for failure to submit proof of completion of works due Sept, 4, 1963. SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 16, Tp 4 S., R. 33 E.B.M..

What is necessary for Mr. Reasor to do to get the permit again and to get a license? Please advise at once or as soon as convenient.

Your letter also mentioned that Permit #23261 was not on the West half of Sec 15, Tp 4 S., R. 33, but instead was issued to Homer Longurst on SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 21 Tp 1 N., R. 35. We have assumed that the above was the correct permit number for a well on the W $\frac{1}{2}$ Sec 15, Tp 4 S., R. 33. Do you have any way of telling who a permit was issued to on that land? And if a license was given? Please advise as soon as possible. Actually this is the N $\frac{1}{2}$ W $\frac{1}{2}$ Sec 15.

Your letter said that permit #G21372 would have Proof of completion of works and beneficial use of water due on March 6, 1969. That proof had not yet been submitted. We are grateful for this information and the necessary steps will be taken to get the proof. It will be appreciated if you will advise us of the steps needed to furnish this proof. The land is being sprinkled, last year being the first.

We realize submitting the above advise will take some time but will certainly appreciate any help you can give us. I will look forward to hearing from you.

Sincerely yours,

Arvel Draper

State Reclamation Engineer
Dear Sir,

Creed M. Reasor of Bingham, Idaho asked that I write your office for some advise and information. He has 3 wells on his property and does not know if he has made proper proof of completion of works and beneficial use of the water. I will list the permit numbers and location of land to be watered on each, and ask if you will please let us know if something needs to be done, or if proof has already been made.

Permit 227551, Sec 16 Tp 4N., R 33 E4E, Bingham County, Idaho.

Permit 223261, Sec 15, 4., R33E4E, Bingham County, Idaho.

Permit 331760, Sec 15, 4E, R33 E3E, Bingham County, Idaho.

Your help will be appreciated.

Sincerely yours,

Arvel Draper
Blackfoot, Idaho

Cc: Creed M. Reasor.

Re: Permit No. G-31760
Creed M. Reasor

Mr. Arvel Draper,
Box 407,
Blackfoot, Idaho.

Dear Mr. Draper:

We enclose Permit No. G-31760 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-8590 which was issued covering payment in the amount of \$ 5.75 for the filing fee of the above mentioned permit.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer
