Gentlemen:

This acknowledges receipt of the notice of intent to make proof of completion of works and application of water to beneficial use for permit G-30617.

We have mailed the notice to the Blackfoot-Idaho News to be published once a week for four consecutive weeks prior to December 15, 1967, which is the hearing date when the permit holder R. Clair Miles and Royal A. Miles and two disinterested witnesses must appear before J. Elaine Anderson, notary public, to complete the enclosed depositions. The witnesses must be familiar with the works and permit.

After the hearing, the depositions and an affidavit of publication must be submitted to this office. The affidavit may be obtained from the newspaper when the advertising bill is paid by R. Clair Miles. Be sure all the forms have the notary's seal and are signed.

Please feel free to contact us if we may be of any assistance.

Gentlemen:

It appearing to the State Reclamation Engineer that the terms and conditions of Permit G-30617 to appropriate the public waters of the State of Idaho, have not been complied with as to failure to submit proof of completion of works and beneficial use due August 21, 1967, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the State Reclamation Engineer on or before November 6, 1967 why said permit should not be cancelled.

Permit G-30617 claims the use of 3.2 cubic feet per second of water. The point of diversion was to be located NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 25, T. 3 S, R. 32 E, B.M., Bingham County, and the permit was approved August 17, 1962.

Re: Permit No. G - 30617

R. Clair Miles & Royal A. Miles
Pingree, Idaho 83262

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30617 are due not later than Aug. 21, 1967

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Clair Miles,
Pingree, Idaho.

Dear Mr. Miles:

We enclose Permit No. **G-30617** in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

~~Enclosed~~ Departmental Receipt No. **G-7268** which was issued covering payment in the amount of \$ **5.75** for the filing fee of the above mentioned permit was ~~handed to you~~ mailed to you with our letter of August 17, 1962.

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
