We have researched our records for the land you indicated as Mr. Clement's on the map included with your February 26 letter.

Copies of all the licenses and any transfers are enclosed for your use.

From the differences between the existing water right licenses and the way Mr. Clement wishes to operate his project, you can determine what transfers of water rights, if any, are needed.

We hope this has provided you with the desired information.

RE: Larry Clement - Water Permit

ATTENTION: Bobby D. Fleenor
Assistant Director

Dear Mr. Fleenor:

On the 2th of June, 1972, you wrote a letter to me regarding wells and permits for Larry Clement. It appears there may be some corrections that need to be made on your record with regard to Mr. Clement's wells and permits. I am therefore enclosing a sketch showing where Mr. Clement's wells are located. Altogether there are seven wells.

1. No. 1 and 2 in Section 21, Township 2 South, Range 34 EBM.
2. No. 3 and 4 in Section 20, Township 2 South, Range 34 EBM.
3. No. 5 and 6 in Section 30, Township 2 South, Range 34 EBM.
4. No. 7 is in Section 14, Township 2 South, Range 34 EBM.

According to information in my file Pump No. 3^{ok} is permit No. 35-7016. Pump No. 7 is permit No. 35-7193.^{ok}

Can you give me the permit No. for Pump No. 1 located in the Northwest quarter of Section 21, Township 2 South, Range 34 E.

Also the information you have on Pump No. 2 which may be on a license or permit issued to Ralph Roos.

In Section 20 in Township 2 South, Range 34 E. you have ^wto licenses No. 20890 and 30582. The water from these two licenses should be transferred to Pump No. 4. If this has not been done please advise me and send me the necessary transfer applications.

You may have a license or permit issued in the name of Mike Goden in Section 30, Township 2 South, Range 34 E. If so the water in that license should be transferred equally to Pumps 5 and 6. If there has been no permit issued for pump 5 and 6 in Section 30, Township 2 South, Range 34 E. in Larry Clement's name please advise me and send me the necessary per-

35 2716

mit forms so this matter can be taken care of.

I am also wondering if there has been a permit issued for pump No. 1 located in the Northwest Quarter of Section 21.

May I hear from you promptly concerning these items.

Thank you,

Dear Mr. Williams:

In answer to your inquiry of June 9th, concerning the wells of Larry Clements, I can find a permit for only one well in the vicinity of the land described in the contract. The permit number is 35-7016 for that well which is described as being in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 20, Twp. 2 S, Rge. 34 E, B.M.

A search of our records indicates that License 20890/35-2133 was issued for 0.395 cfs on December 22, 1950, and License 30582/35-2716 was issued for 0.81 cfs on March 11, 1964. Transfer of these water right licenses to other points of diversion may be requested by completing the enclosed transfer application forms. Copies of the above mentioned licenses have been enclosed for your reference in completing the transfer applications.

No information concerning the division of a water right between C.L. & Jenny Williams and Richard L. Jensen has been found.

If you have any further questions, please let us know.

RE: Transfer - Water certificate and permit
Certificate #20890
Permit #G-30582

Dear Sirs:

Larry Clement of Route #5, Blackfoot, Idaho, has employed this firm to accomplish the transfer of certain water rights into wells which he has recently drilled, relocating the point of diversion of underground waters.

I am enclosing a photocopy of the Real Estate Agreement wherein, Larry Clement acquired the ownership of the water in question. I have underlined in red the paragraph referring to the water rights which Mr. Clement desires to have transferred to a new location.

Mr. Clement has drilled two wells on the property described in the Contract. It is his desire to have the water rights that have been established on this property transferred equally (one-half to each well) into the two new wells.

Will you please send me the necessary applications for transfer of water rights and also the permit numbers for the two new wells and any information you have on the two-fifths interest of a C. L. and Jenny Williams and Richard L. Jensen, Water permit.

Your help and cooperation is appreciated.

Thank you,

KERR AND WILLIAMS

Gentlemen:

Thank you for your letter of March 4, 1964. It would appear that the payment of \$7.00 in fees is all that is required for the Certificate of Water Right in this case, so I enclose herewith our trust check payable to your order in that amount.

Will you please mail directly to me the Certificate of Water Right for the .81 c.f.s. for the irrigation of land in the S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 20, T. 2 S., R. 34 E.B.M.

Gentlemen:

In September of 1962 we sent you the proof of completion of works and application of water to beneficial use in connection with the above permit.

Inquiry has now been made about the license under this permit and I do not find anything in my file to show that the field examination has been made nor the license issued. Perhaps this correspondence went directly to Mr. Richard L. Jensen whose address is now 309 South Cleveland, Blackfoot, Idaho. I would appreciate your advising me what your file shows regarding the issuing of this license and the cost of getting a certified copy as apparently we are unable to find the original.

Yours very truly,

Dear Mr. Jensen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Blackfoot News, all submitted in proof of completion of works and beneficial use on Permit No. G-30582.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Gentlemen:

Pursuant to instructions, we have completed the Proof of Completion of Works and Application of Water to Beneficial Use under the above Permit #G30582 in the name of Richard L. Jensen, and enclose herewith the following:

Affidavit of Publication of Notice
in "The Blackfoot News" for four
issues, commencing August 10, 1962
and ending August 31, 1962.
Deposition of holder, Richard L.
Jensen.
Deposition of witness, Mont A. Ander-

Deposition of witness, Ross W. Ander-
son.

I understand now that an inspection and measure-
ment of the discharge will have to be made by a represent-
ative of your office before a license can issue. The ir-
rigation season is about over and the wells will soon be
shut down. It would surely be appreciated if this measure-
ment could be made right away, before the power is turned
off for the season.

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Richard L. Jensen, residing at 710 Curtis St., Blackfoot, Idaho,
Occupation, farmer; P. O. Box 710 Curtis, Blackfoot, Idaho, also
receive mail at #4, Blackfoot, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not applicable

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G. 30582, Dated July 19, 1962, date on permit is 8:30 A.M. July 19, 1962; date of use about May 15, 1960.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean with well in NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 20, Twp 2 S., R. 34 EBM.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well about 125 feet; casing is 16" and 6 feet deep; depth to water is 55 feet; discharge is about 200 inches determined from design of pump and motor and personal estimate. Conveyed in unnamed ditches from pump to places of use. Total length of ditches is about 3 miles, and will carry 200 inches. Replaced old 25 HP pump and motor with new 40 HP motor and pump to increase old rated capacity and discharge.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of cultivated land. 36 acres on SW $\frac{1}{4}$ SW $\frac{1}{4}$ and 36 acres in SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 20, Twp 2 South, Range 34 EBM have actually been irrigated, and produced crops of grain, hay, potatoes. Other improvements consist of ditches, land levelling, levees, fences.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. C. L. Williams, Route #4, Blackfoot, Idaho drilled this well in about 1947 or 1948.

30582

R1

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Not applicable

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Not applicable

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Use commenced about May 15, 1960 on this increased capacity. It has been used every irrigation season since including the year 1962, to the amount of about 200 inches for irrigating crops on this and other land covered by other permits from this same well. The increased capacity of over 60 inches is claimed under this permit.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 0.395 c.f.s. under License No. 20890 has been mingled with this water from the same well and used together.

Attention: Robert M. Kerr, Jr.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30582, in the name of Richard L. Jensen. Final Proof is to be made before you, as Notary on the 13th day of September, 1962, at 10:00 o'clock A.M., at 291 N. Broadway, Idaho.

Blackfoot,

As of this date we have mailed the Notice to the Blackfoot News, Blackfoot, Idaho with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Attention: Robert M. Kerr, Jr.

Dear Sirs:

We enclose Permit No. G-30582 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-7183 which was issued covering payment in the amount of \$ 5.25 for the filing fee of the above mentioned permit. ~~as per departmental receipt~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,
