APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 38534
Permit No. G- 30465
District No.

1. Name of Applicant: Ralph Roos
Postoffice address: Blackfoot, Rt. 4 County: Bingham State: Idaho
2. Quantity of water claimed: 1.6 c.f.s.
(a) Rate of withdrawal in cubic feet per second or Idaho
Miners' inches or gallons per minute
(b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean flow, well.
4. Location of point of diversion or well is in the NE 1/4 of the SW 1/4 of Section 21
Twp. 2 S , Rge. 34 E , B.M., County of Bingham
5. Water is to be used for: Irrigation and domestic purposes
6. If for municipal, industrial or recreational purposes, give:
(a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
Rge. , B.M.
(b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
7. Kind of works: Well, pump, and ditches
8. Estimated cost of works: \$ 3,300.00
9. (a) Is reservoir to be used? no
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
II. The financial resources of the applicant are (a) Cash onhand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 70 inches Peoples Canal Water which was delivered by Moreland Pump Assoc. which has been discontinued
(a) 1.6 (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
(b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

S/ RALPH ROOS

Applicant.

Dear Mr. Williams:

We have researched our records for the land you indicated as Mr. Clement's on the map included with your February 26 letter.

Copies of all the licenses and any transfers are enclosed for your use.

From the differences between the existing water right licenses and the way Mr. Clement wishes to operate his project, you can determine what transfers of water rights, if any, are needed.

We hope this has provided you with the desired information.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Williams:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Blackfoot News, all submitted in proof of completion of works and beneficial use on Permit No. G-31465 & Beneficial Use on No. 21027.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Permit No. 9-30465Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Ralph Roos, Route #4, Blackfoot, Idaho; Farmer - P.O. SAME

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G30465; April 9, 1962 4-20-62

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Underground - Northeast quarter, Southwest quarter, Section 21, Township 2 South, Range 34, East Boise Meridian

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. 15 H.P. pump Lane pump 53 feet to water & 77 foot hole. 5½ feet casing 16 inch; ditches hdgts etc. pump delivers 75 inches water - experience with pumps in the area, also knowing the horse power of the pump and the lift, also by irrigating with the water.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation; Northeast quarter Southwest quarter, Northwest quarter Southwest quarter Section 21, Township 2 South, Range 34, East Boise Meridian
Northeast quarter - 40 acres - Beets 9 acres; Potatoes 4 acres; Hay 17 acres; Wheat 10 acres; Northwest quarter - 32 acres - Beets 3 acres; Hay 18 acres; Potatoes 11 acres;

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. C. L. Williams - Route #4, Blackfoot, Idaho

30465

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not appl.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 75 inches

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Not appl.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. During 1962 season May through October 1962 irrigated 72 acres.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other water has been used on the property I described above.

(Sign) *Ralph Root*

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Blackfoot, County of Bingham, State of Idaho, on this 5th day of October, A. PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

DEPOSITION OF WITNESS **and Completion of Works**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. C. L. Williams; 65 years; Route #4, Blackfoot, Idaho; Farmer;
Route #4, Blackfoot, Idaho

Ques. 2. Are you acquainted with Ralph Roos, the holder of Permit No. G 30465? How long have you known him and where does he reside?

Ans. Yes 38 years He lives at Route #4, Blackfoot, Idaho

Ques. 3. Have you read or heard said Permit No. 30465, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Underground - 15 H.P. pump - Ditches - 3/4 miles ditches

Quest. 5 How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed.

Ans. 100 inches - I have seen about 75 inches conveyed

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 75 miners inches - I estimated from experience

30465

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation; The land irrigated is the full 40 in the Northeast quarter and all but about 7 or 8 acres in the Northwest quarter, Section 21, Township 2 South; Range 34, East Boise Meridian. All of the land irrigated is under cultivation and there are diversified crops, ditches, pumps and well and other improvements on the land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Used for irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is clay to lava ash soil and requires a minimum of 1 miners inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent.

Ans. none

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. All during the 1962 farming season from May to the present, I have seen at least 75 inches of water being used on about that many acres in the above described land. All being used ^{on} cropped land.

(Signed) C L Williams

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Blackfoot, County of Bingham, State of Idaho, on this 5th day of October, A. The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. James O. Ockerman, 59 years, Carpenter P.O. Box 9, Moreland,
Idaho.Ques. 2. Are you acquainted with Ralph Roos, the holder of Permit No. G30465? How long have you known him and where does he reside?Ans. Yes, I know Ralph Roos and I have known him for 30 years. He
resides at Route #4, Blackfoot, Idaho.Ques. 3. Have you read or heard said Permit No. G30465, and are you familiar with its provisions and conditions?Ans. Yes, I am familiar with the above numbered permit.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The water comes from under ground. Mr. Roos' well is located
in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 21, Township 2 South, Range 34, E.B.M.
He has a 15 horse power pump which pumps into dirt ditches which divert
the water to 80 acres of ground.

Quest. 5 How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed.

Ans. I think his ditch would carry more than 100 inches of water.
I have seen at least 75 inches of water being conveyed in the ditch.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver at least 75 miners inches of water
I estimated the flow by the amount of ground that could be irrigated with
the stream and also by knowing the horse power of the pump and the number
of feet lift to pump the water.

30465

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ~~The water is used for irrigation; the East 1/2 or 40 acres is all irrigated and cultivated and has crops growing on the full 40 acres. On The West 40 acres there is approx. 8 acres of waste land but on the other 32 acres they are cropped and irrigated. The farm is a diversified crop farm and the improvements consist of the pump ditches, roads, etc.~~

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. The water is used for irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the land is clay or ash and I would estimate that it takes at least 1 miners inch per acre to properly irrigate the land.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent.

Ans. No, I do not have any interest in the works or the land above mentioned.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. In May 1962 I witnessed the water being irrigated on the land and I have observed the water being used to irrigate the land for the full irrigation season of 1962. To my knowledge the pump is still on the water has been used to irrigate about 75 acres of crop land.

(Signed) James Ockerman

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Blackfoot, County of Bingham, State of Idaho, on this 5th day of October, A. NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that on the 11 A.M. on the 5th day of October, 1962, at Blackfoot, County of Bingham, State of Idaho, before me, Drury R. Brown, Notary Public, at 291 North Broadway, Blackfoot, Idaho, proof will be submitted of the completion of works for the diversion of 1.6 cubic feet per second of water from the Boise River, well, to the Boise River, well, for the purpose of irrigation and domestic purposes of the land of Drury R. Brown before is sued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Ralph Roos, Route No. 4, Blackfoot, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.6 cubic feet per second.

3. The use to which said water has been applied is irrigation & domestic purposes, and the amount applied to beneficial use is 1.6 cubic feet per second.

4. The point of diversion of said water is NE 1/4 SW 1/4, Section 21, Township 2 South, Range 34, of Boise Meridian.

5. The place where said water is used is NE 1/4 NW 1/4 of Section 21, Township 2 South, Range 34, East of Boise Meridian.

6. The priority of said user is to establish April 9, 1962.

Re: Permit No. G-30465
Ralph Loos

Blackfoot News
Blackfoot, Idaho

Gentlemen:

We received the Notice of Publication on the above numbered permit, and find the following corrections:

In Line 2, Paragraph 4, the point of diversion should read NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 21, omitting the comma.

In Line 2, Paragraph 5, should be NE $\frac{1}{4}$, NW $\frac{1}{4}$, of the SW $\frac{1}{4}$, comma should be between NE $\frac{1}{4}$ and NW $\frac{1}{4}$.

We would appreciate receiving a tear sheet again, when the corrections have been made, for our files.

Thank you.

Very truly yours,

GEO. N. CARTER

Attention: Dean Williams

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. C-30465, in the name of

Notary Ralph Roos, at 5th day of October, 1962, 1962 at 11:00 o'clock

A.M. 291 N. Broadway,
Blackfoot,

As of this date we have mailed the Notice to the Blackfoot News, Blackfoot, Idaho with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

RE: Application for Permit

Ralph Roos
Rt 4
Blackfoot, Idaho

Dear Mr. Roos:

Your application for permit was returned April 5 for further information. It was received today with only part of the information.

Are you going to use a reservoir?

Do you have any water right for irrigation of the land, the N¹/₄SW¹/₄, Section 21, Township 2 South, Range 34 East, and if so what is the right?

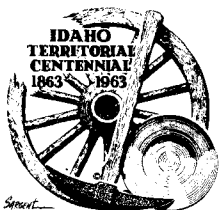

Your application will be processed upon receipt of the information requested.

April 5, 1962

RE: Application for Permit

Ralph Roos
Rt 4
Blackfoot, Idaho

Dear Mr. Roos:

Returned herewith is your application for permit, with attached check for \$5.25 filing fee, for corrections.

You are claiming 2 cubic feet per second of water to irrigate 80 acres of land. The maximum allowable is one miner's inch or 1/50 cubic foot per second for each acre of irrigable land. The amount of land must be increased or the amount of water reduced to 1.6 c.f.s.

The point of diversion must show the 40-acre subdivision as the form shows. The map shows the well in the NE $\frac{1}{4}$ SW $\frac{1}{4}$. Kindly correct.

Answer 9. We have answered 10 with 5 years, the maximum time, however you can make the proofs at any earlier time. Answer 13. Complete the second map.

Complete the application and return for processing.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
