Dear Mr. Lake:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. **G-30444** shows the well is ~~(200)~~ capable of conveying ~~242~~ miner's inches, or **4.84** c.f.s. of water for the irrigation of **320** acres.

Upon receipt of the statutory fees, totaling \$ **21.00**, which consists of a Completion of Works fee of \$ **5.00** and License and Certificate of Water Right fee of \$ **16.00** - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of **April 10, 1962** to the use of **4.84** second feet of subterranean water with the point of diversion in the **NE 1/4, Sec. 12** for irrigation of **320 acres** in the **S 1/2, Sec. 12, T. 3 N., R. 36 E., B.M.**

Since your permit shows the point of diversion to be in the **SE 1/4, Sec. 12**, it will be necessary to amend the point of diversion. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued.
