Dear Mr. Furchner:

Thank you for your letter of April 17, 1969.

Our letter of April 9, 1969, to Mr. Furniss was the result of a well log received August 2, 1968, for Jack Cushman, well driller. We are enclosing a copy of the well log which initially raised the questions. If you can assist the Department in identifying the well in question it will be greatly appreciated.

In reference to Permit No. C-32254, the permit has not yet been modified. The Department will undertake this project at this time. We are enclosing proof forms and instructions. Please complete the proof form and return it so that we may proceed with the licensing of the permit. You will also be required to publish a notice for two consecutive weeks concerning the approval of the permit. The authorization for this advertising is also enclosed. Please have Mr. Furniss sign the form and return it for processing.

Permit No. C-30188 is at this time pending a field examination by the Department of Reclamation. It is hoped that the examination can be completed during the 1969 irrigation season.

If we can assist you in any manner, please contact us.

Very truly yours,

Re: Ralph Furniss

Dear Mr. McEldowney:

Mr. Ralph Furniss has brought me your letter of April 9, 1969, relating to a purported well drilled by him in the Southeast Quarter of the Southeast Quarter of Section 1, Township 2 South, Range 32 E.B.M. You are advised that your report concerning his drilling of such well at that location is erroneous. The above location is approximately six miles North of the lands owned and farmed by him.

However, Ralph Furniss does own lands in Section 1, Township 3 South, Range 32 E.B.M. and holds Permit No. G-32254 for 6.4 cubic feet per second of water for irrigation purposes taken from wells 1 and 2 in the West Half of said section.

Mr. Furniss is now prepared to make proof of completion of works and application of water to beneficial use on this permit and we would appreciate your sending to us the appropriate forms and directions for this proof.

We would also like to know if your records show completion of proof and issuance of license for a third well covered by Permit No. G-30188, which is located in the Northeast Quarter of the Northeast Quarter of Section 1, Township 3 South, Range 32 E.B.M. for which we submitted proof to your office September 14, 1966.

Dear Mr. Furchner:

Returned herewith are the depositions and the affidavit of publication in connection with the above referenced permit. All three depositions state the point of diversion as being in the center NW $\frac{1}{4}$ section 1, while the legal notice and the permit state NE $\frac{1}{4}$ NE $\frac{1}{4}$, section 1. Also the place of use is listed as the NW $\frac{1}{4}$, Sec. 1 and the permit and publication notice state NE $\frac{1}{4}$, Section 1. If the depositions are correct and the permit and the legal notice are in error, we will require amendments to the point of diversion and the place of use. We are enclosing the forms for making the amendments if required. The fee for each amendment is \$1.00. Also if the depositions are correct the permit will have to be re-advertised and new proofs taken.

Please make the necessary correction to the depositions or amendments and return promptly.

Dear Mr. Furniss:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-30188 are due not later than **Sept. 19, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
