Farming.

Ques. 2 Are you acquainted with Doyle W. Warnock, the holder of
Permit No. G-29710 ? How long have you known him and where does he reside?

15 or 16 years and he resides at Route #5, Idaho Falls, Idaho.

Ques. 3. Have you read or heard said Permit No. G-29710 read, and are you familiar
with its provisions and conditions: Yes X No.

Ques. 4. State source of water supply: Subterranean water

Give location of place of diversion, showing subdivision, section, township and range
SE 1/4 NE 1/4 of Section 33, Township 4 North, Range 36, East of Boise Meridian,
Jefferson County, Idaho.

Describe works for conveying water to place of use: 350 h. p. pump with 40 h.p. booster,
with 14" and 8" mains.

Ques. 5. How many second feet of water do you estimate said works will safely conduct
to place of use: at least 400" (8 c.f.s.) How much water have you seen being so
conveyed? 15 lines in full use with at least 400" or 8 c.f.s.

Ques. 6 If for irrigation, show number of acres irrigated in each subdivision, giving
full legal description:

- a. NE 1/4 SE 1/4 and S 1/2 SE 1/4 of Section 28, 100 of 120 acres actually irrigated.

Dear Mr. Warnock:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Bigby Star all submitted in proof of completion of works and beneficial use on Permit No. G-29710.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Moss:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29710, in the name of Doyle W. Warnock. Final Proof is to be made before you, as Notary on the 4th day of May, 1966, at XXXXXX o'clock XXXX, at Idaho Falls, Idaho, Idaho.

As of this date, we have mailed the Notice to the Rigby Star, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Re: Permit No. G-29710 - Doyle W. Warnock

Gentlemen:

This office represents Mr. Warnock on the above mentioned permit number who is the assignee of the above permit number from G. T. Newcomb, Inc., by virtue of a purchase of the land from G. T. Newcomb, Inc.

Mr. Warnock is ready to submit proof at this time; however, I wanted to check on two questions before we submit the documents necessary:

1. Has the Department of Reclamation been appropriately notified of the assignment of the lands and permit from G. T. Newcomb, Inc., to Doyle Warnock? Or should we supply information relative to the contract of purchase of the land and the water rights?
2. Mr. Warnock advises that when application was originally made by G. T. Newcomb, Inc., the application covered 240 acres in Section Thirty-four (34) (the South Half of the Northwest Quarter, the Southwest Quarter of the Northeast Quarter, the North Half of the Southwest Quarter and the Northwest Quarter of the Southeast Quarter), along with the other lands described in the application. Because of complications in watering the Section Thirty-four lands, however, the water from the well in question has subsequently been applied only to the Section Thirty-three and Section Twenty-eight properties described in the application, with the addition of the South Half of the Southeast Quarter of Section

Thirty-three, this latter property not having been described in the original permit.

Mr. Warnock desires to include the South Half of the Southeast Quarter of Section Thirty-three in the final permit when it is granted, if this can be done. In consequence, would you please advise as to whether or not he can make an amendment to his application at this time and have that amendment approved within the deadline date of May 19, 1966.

Also, Mr. Warnock has not received his forms 36 and 11, so it would be appreciated if you could furnish those by return mail.

As I recall there is a procedure for amending the application, and then letting the amendment stand for the final proofs. If this can be done it will be much appreciated.

Thank you for your immediate response.

Very truly yours,

PETERSEN, MOSS & OLSEN

Dear Mr. Newcomb;

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29710 are due not later than **May 19, 1956**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER
