Re: Water Permit G29528- & G22454
Sec 29, 3N. Range 37 E.B.M.

George N. Carter
State Reclamation Engineer
State House
Boise, Idaho

Dear Mr. Carter:

When I bought section 29, 3N. Range 37 E.B.M. from the Hays Estate, they had permit No. G-22454 for a fraction of an inch of water on this section. This has been transferred, by the Hays Estate, from section 29 to section 20.

I am in the process of getting a loan from the John Hancock Insurance Co. on this ground. In order to complete this loan it is necessary for me to have the permit show that I have a full miners inch of water per acre. Will you please correct my permit to show this full miners inch.

The location of the wells on the enclosed permit should be changed to show that they are located as follows:

- 1 well in the center of the $\frac{1}{2}$ of section 29, Twp. 3N. Range 37 E.B.M.
- 1 Well in the center of the $\frac{1}{2}$ of section 29, twp 3 N. Range 37 E.B.M.

Thank you.

Yours truly

Attn: John L. Bloom

Dear Mr. Bloom:

The information in your letter of April 6, 1961, in regard to Permit G-22454 checks our records.

The water decreed to the West Labell Irrigation Company is probably represented by shares in the company and the place of use is under the regulation of the company. A transfer of water right is only necessary if the water is to be delivered through a different canal system.

License No. 17423, issued to Hays Land Company is for 2.22 c.f.s. from an unnamed stream, priority of February 9, 1931, point of diversion in SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 29, T. 3 N., R. 37 E., B.M. to irrigate 111 acres in NE $\frac{1}{4}$ SE $\frac{1}{4}$, S $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 29; NE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 32, T. 3 N., R. 37 E. The water does not have to be transferred unless so desired. The subterranean water can be for a supplemental water right.

We hope this answers your questions. If we can be of assistance do not hesitate to write.

Very truly yours,

Permit No. G-29528
Howard F. Taylor

MR. GEO. N. CARTER
State Reclamation Engineer
Boise, Idaho

Attention: Mrs. Edna P. Rule
Chief Clerk

Dear Sir:

We are preparing an application to transfer the waters under Permit No. G-22454 from Sections 29, 30, and 32, Twp. 3 N.R. 37 E.B.M., all to be used on Section 20, same township and range.

After this transfer is made, Howard F. Taylor can proceed with his development under Permit No. G-29528.

According to our files, you issued a Certificate of Completion of Works and License and Certificate of Water Right issued to J. R. Hays and The Idaho First National Bank, Trustees of the Estate of J. W. Hays, Deceased, and O. O. Hays, under Permit G-22454, on July 26, 1957, with a priority of October 12, 1951, to use 4.5 cfs for the irrigation of 421 acres in NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 29, SE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 20, NE $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 32.

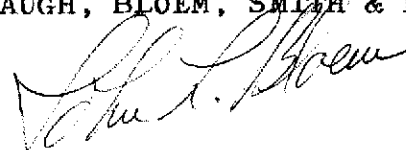

I notice, however, in application No. G-30153 (Permit G-22454), that other waters for this land are: 3.7 feet decreed to West Labelle Irrigation Co. with date of priority of June 1, 1885; and 2.22 feet under State license 17423, with priority of February 9, 1931. Will you please advise us to what lands this additional water is appurtenant, so we will know whether or not it should be included in the transfer?

Re: Permit No. G-29528

Rigby, Idaho

Dear Mr. Taylor:

Enclosed is a form, Application for Transfer of Water Right.

The permit was approved for the full inch per acre, however there must be a transfer of the water right under License No. G-22454 or any amount of water licensed under your permit plus the prior license will not exceed one miner's inch per acre.

The transfer of the water right can be made by the owner of that right by completion of the enclosed form, answering all questions, signature on page 2 before a Notary Public, and showing the lands where the water is appurtenant and the proposed place of use on the map, page 4 of the form.

Upon receipt of the application in this office, a notice will be sent to a county paper where the land is situated, to be published in two weekly issues, cost of publication to be paid by the applicant. This procedure is according to Idaho Code 42-222. There is a fee of \$1.00 for the transfer.

Very truly yours,

Department of Reclamation
Room 107 State House
Boise, Idaho

Gentlemen:

I received a copy of your letter of March 16, 1961 to the Farmers Pump and Supply Company., Inc. of Idaho Falls, Idaho, with regard to my water permit No. G-29528 for Section 29.

The last paragraph of this letter states that section 29 is partially irrigated under Water License No G-22454. Also that the amount of water license cannot exceed one miner inch per acre of irrigated land. Therefor license G-29528 cannot be issued for the full miners inch as G-22454 will be considered a porportionate share.

The previous owner of section 29 withheld Water License no. G-22454 from sale with Section 29. This water is to be used on land other than section 29.

Will you please issue permit No. G-29528 for one miners inch per acre of irrigated land in section 29.

Thank you.

Yours truly
