Dear Mr. Hahn:

We received your letter of March 27th in regard to water rights under Mr. Steinke's permit.

Enclosed is copy of our letter in regard to Permit No. G-29463. At the time of examination, the booster pump was not in operation and the flow was measured as being 4.56 c.f.s. We estimated that the amount would be increased to 6.0 c.f.s. with the booster pump in operation.

The field examiner could not inspect the works under Permit No. G-26610, as the pump had been shut down for the season.
