

MEMORANDUM

Date: June 19, 2006
To: Transfer 72652
From: amerritt
Re: recommendation

RECEIVED

JUN 22 2006

**DEPARTMENT OF
WATER RESOURCES**

This transfer application was processed in parallel with state office staff. The application was advertised without protest. I recommend approval as drafted. On a related note.... a companion amendment of permit 36-8738 was filed and processed at the same time as this transfer. The amendment essentially requests association of the permit with the same points of diversion as the transfer. In light of the potential for enlargement of the permit the FE was completed for licensing of the permit based on the one well it is currently associated with. I discussed this with Shelley and it seems appropriate to add this right into the transfer approval so that the permit which will then be a license is also associated with the same 4 points of diversion as the transfer lists.
