RE: Notice of Amended King Creek Grazing Transfer 71551

During the review of this application, it became apparent that there was an error made in the original application. The original application had the wrong location assigned for the King Creek Pipeline point of diversion. It was listed in the SWSESE of Section 33 T6S R38E, but should have been placed in the NWSWSE of Section 33 T6S R38E. King Creek Grazing was made aware of this error and has since amended their application for transfer reflecting the corrected point of diversion. Please see the enclosed copy of the front page of the amended application for transfer showing the corrected point of diversion.
