RE: Application for Permit 22-13529

Dear Applicant(s):

The Department of Water Resources is reviewing the application you filed for 0.18 cfs of water to be used for heating and cooling purposes. IDWR is required in Section 42-203A(5), *Idaho Code*, to ensure that new water uses are not contrary to the conservation of water resources in Idaho. In other words, new water uses must meet reasonable standards of efficiency.

In order for IDWR to evaluate your application, we need information describing how you determined the amount of water you have applied to appropriate. Please provide the calculations and system design specifications you used to determine that 0.18 cfs is the necessary diversion rate for your project.

We will hold any action on your application pending receipt of the necessary information. If we do not receive the information within 30 days, IDWR will reject or deny the application and it will not be processed.

If you have any questions, please contact me at (208) 287-4949 or erin.retelles@idwr.idaho.gov.

Sincerely,

ERIN RETELLE
Sr. Water Resource Agent

Cc: IDWR, Eastern Region
