37-4187	NO	YES	YES	YES	NO	NO

Describe the reason for the proposed changes

These rights are for waste water, the supply of which is becoming less and less. To use the water more efficiently, it will be comingled with our canal shares in a sprinkler system (some gated pipe). The upper point of diversion is being moved downstream to facilitate this process. The stockwater portion of the rights is being removed, as there will no longer be any pasture on this farm.

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

B. Describe the effects on other water uses resulting from the proposed change
