RE: Water Right Permit No. 67-02390

Dear Permit Holders:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed. Also enclosed is an Order Reinstating this Permit and Advancing the Date of Priority.

Based on the examiner's report, the following elements were developed differently than described on your permit:

- ☒ **Points of Diversion**
- ☒ **Places of Use**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

Please be advised that the permit holder of record for this right is Arthur A. Fairchild. We understand that he is deceased and you are the current owner of the lands under this permit. We can accept your signature on the licensing amendment and the Snake River Basin Adjudication staff will recommend the right in your name in their recommendation of this right to the SRBA court.

If you have any questions, please call me at 208-287-4953.

Sincerely,

A handwritten signature in black ink that reads "Kay Walker". The signature is fluid and cursive, with a large loop at the end of the word "Walker".

KAY WALKER
Sr. Water Resource Agent
