Re: Application No. G-37020

Clinton V. Murdock
Route #2

Dear Mr. Murdock:

Returned herewith is your application for permit with attached receipt No. G-5227 for filing fees.

Your license No. 21171 for your existing well shows 190 miner's inches of water for 190 acres of land. This application must be changed to show 70 miners inches of water to irrigate 70 acres of land not included in the license and has been so changed. State Statutes prohibits over one miner's inch per acre and the change shows the land not covered by the license.

If you can not irrigate the land shown, from your proposed well, you can apply for a change in place of use of the water under License 21171 to cover your farm except for the North 70 acres in the E $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 34. The application is to be made on a form furnished by this office. A notice will be prepared in this office for publication in two weekly issues of a paper published in your county, cost of which you must pay, plus a fee of \$1.00 to this office for the Transfer of Water Right.

Kindly return the application and approve it for irrigation of fractions of NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34 and E $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 3 or note you want to make the transfer of place of use of water under License No. 21171
