Dear Mr. Loofbourrow:

Your letter of December 27th in regard to inspection of works under above numbered permit has been received.

The field engineer from our office did not make the inspection of the works. The inspection mentioned was possibly made by the U. S. G. S. Ground Water Branch who have been checking wells in that area.

We will try to check this well along with the other wells belonging to Mr. Funk in the early part of the coming irrigation season.
