

Application for Amendment

POINT OF DIVERSION

Permit No. G-28833

Comes now Kenneth M. Carlson and represents to the State Reclamation Engineer of the State of Idaho:

That he is (~~was~~) the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-28833.

That the point of diversion is described in said Permit as being located:

SW1/4 Sec. 22, T 1 N, R 36 EEM, County of Bingham, Idaho

That he now requests that the point of diversion be changed to a point located: NE1/4 of Sec. 22, T 1 N, R 36 EEM, County of Bingham, Idaho.

That the reason for desiring to make such change is as follows:

The point of diversion as determined by actual measurement, and should conform with the point of diversion as stated in the proof filed herein.

That no one will be injured by such change, and that such change will be made at Permit holder's own risk.

Signed at Shelley, Idaho, this 21st day of November, 1963.

POINT OF DIVERSION

Permit No. G-28833

Comes now Kenneth M. Carlson and represents to the State Reclamation Engineer of the State of Idaho

That he is (~~was~~) the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-28833.

That the point of diversion is described in said Permit as being located:

SW 1/4 Sec. 22, T 1 N, R 36 EPM, County of Bingham, Idaho

That he now requests that the point of diversion be changed to a point located: NE 1/4 of Sec. 22, T 1 N, R 36 EPM, County of Bingham, Idaho.

That the reason for desiring to make such change is as follows:

point of diversion as determined by actual measurement, and should conform with the point of diversion as stated in the proof filed herein.

That no one will be injured by such change, and that such change will be made at Permit holder's own risk.

Re: Permit No. G-28833

Dear Mr. Thomas:

I truly appreciated receiving your letter of October 28, 1963, and the instruction therein concerning a much shortened method of placing descriptions on the forms used by your office.

I want to call attention to my letter of October 2, 1963, wherein I explained the reason for Mr. Carlson's Application for Amendment to change the Point of Diversion on Permit No. G-28833. At that time I filed with your office an Application for Amendment of Point of Diversion which requested the point of diversion be changed to a point located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 22, T 1 N., R. 36 EBM Idaho. This was done to satisfy the Bureau of Land Management. We subsequently have determined by tape measurement that Mrs. Carlson's application as amended by their application for amendment of the point of diversion filed in Book 102 of Permits, Page 29702 on June 13, 1962, is correct, and that the point of diversion is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 22, T 1 N., R. 36 EBM in Idaho. This is the same point that was put in our Proof and is the point of diversion of said well. We have confirmed this point with the Bureau of Land Management so that the Desert Entry Application can be granted.

How does this affect our application for amendment of point of diversion filed in your office in Book 101 of Permits, Page 28833 on October 14, 1963? This last application for amendment is in error. Do I have to file a new application putting the point of diversion back to where it was before?

Yours truly,

Alva A. Harris

Dear Mr. Harris:

Returned herewith are the two Forms 36 and one Form 11 received, also a blank set of forms 36.

The description of place of use is probably legally correct except it is long and not according to general descriptions in use. Why not show NE $\frac{1}{4}$, SE $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 22? The last part of the description, NW $\frac{1}{4}$, Sec. 22, is not on the permit, however, that part of Section 23 is included in the permit. We must have an amendment to the land list, if the land is in the NW $\frac{1}{4}$, Sec. 22.

Legal notices must agree with the permit record and no further amendments can be approved without a new legal notice and depositions.

Don't forget there is a \$1.00 fee for recording amendments.

Comes now Kenneth M. Carlson and represents to the State Reclamation Engineer of the State of Idaho:

That he is (are) the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-28833.

~~***NOTE: Bottom of Page.~~

That he now requests that the point of diversion be changed to a point located: The SW1NW1 of Sec. 22, T. 1 N., R. 36, EBM, County of Bingham, Idaho

That the reason for desiring to make such change is as follows: Applicant was notified by letter dated September 27 1963, from the Bureau of Land Management to the effect that their field examiner's report indicated the well is actually located in the SW1NW1 of Sec. 22. It seems that it must be right close to the corner so that the difference of 10 or 15 feet would account for the change in point of diversion.

Re: Kenneth M. Carlson and
Lael S. Carlson
Permit No. G-28833

Dear Mr. Thomas:

Enclosed is an Application for Amendment to change Point of Diversion on Permit No. G-28833. The field examiner for the final proof of desert land entries of the Bureau of Land Management in desert land entry Idaho 011766 determined that the well located on the property of Lael S. Carlson and Kenneth M. Carlson was not located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 22, T. 1 N., R. 36 EBM, County of Bingham, State of Idaho, as amended on said permit No. G-28833, but is actually located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 22, same Township. The Bureau of Land Management through Michael T. Solan, its land office manager, said it would be necessary for Mr. and Mrs. Carlson to file an Amendment of the point of diversion, and obtain the approval of the State Reclamation Engineer before the land patent to Mrs. Lael S. Carlson could be issued.

Mr. Carlson informs me that if the well was moved 15 feet in any direction that it could easily change from the SE $\frac{1}{4}$ NW $\frac{1}{4}$ to the SW $\frac{1}{4}$ NW $\frac{1}{4}$ to the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 22. He believes that the error came in because the original owner of the property retained a 25 foot roadway, and that when he commenced to drill they must have moved over further than they thought and moved into the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 22.

How does this effect our proof that we have submitted? Will it be necessary to file a notice in the paper again and take new depositions of holders and of witnesses, or will the approval of the application for amendment correct the defect

in the proof?

Enclosed you will find my check in the sum of \$1.00 to cover the cost of recording the amendment of point of diversion. If you have any questions please contact me.

Gentlemen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Shelley Pioneer, all submitted in proof of completion of works and beneficial use on Permit No. G-28833.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Mr. Alva A. Harris,
Attorney at Law,
210 South State St.,
Shelley, Idaho,

Dear Mr. Harris:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. Q-28833, in the name of Kenneth M. Carlson & Leol Carlson. Final Proof is to be made before you, as Notary on the 29th day of July, 19 63, at 8:00 o'clock A.M., at 210 S. State Street, Shelley, Idaho.

As of this date we have mailed the Notice to the Shelley Pioneer Shelley, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Comes now Kenneth M Carlson and
represent to the State Reclamation Engineer of the State of Idaho:

That he is (are) the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G 28833.

That the point of diversion is described in said Permit as being located:

S.E. 1/4 of the N.W. 1/4 of Section 22 TWP. 1 N. Rge. 36 E. B.M. County of Bingham

That ne now requests that the point of diversion be changed to a point
located: N.E. 1/4 of the S.W. 1/4 of Section 22 TWP. 1 N. Rge. 36 E.
B.M. County of Bingham

That the reason for desiring to make such change is as follows:

my attorney made an error in applying for permit
and gave wrong location

That no one will be injured by such change, and that such change will be made
at Permit Holder's own risk.

Dear Mr. Carter,

On checking the location of my irrigation well, permit no. G.28833, I found, to my disappointment, that the attorney I had hired at the time gave you the wrong location of my well. He gave you the location as the S.E. $\frac{1}{4}$ of the N.W. $\frac{1}{4}$ of Section 22, Twp. 1 N., Rge. 36 E., B.M. County of Bingham, which should be changed to the N.E. $\frac{1}{4}$ of the S.W. $\frac{1}{4}$ of Section 22.

If you would send me a form to amend this mistake, it would be greatly appreciated. Thank you very much.
