Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28471 are due not later than Feb. 17, 1965

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Dear Mr. Draper:

Your letters of July 7 and 10 have been received in regard to the Longhurst water rights.

You requested copies of the permits. We can send you a copy of Permit No. G-28471 in the name of Albert J. Longhurst, the original of which is probably in the office of Harley M. McDowell, P.O. Box 2161, Boise. The fee for a plain copy is \$1.50 and \$2.50 for a certified copy.

We can send you a photo or typed copy of the Water License No. G-23261 in the name of W. Homer Longhurst for a fee of \$1.00. After a license is issued, the water right is transferrable as real estate. The license number should be shown in the deed for ready reference. The permit is of little value after the license has been issued.

Kindly notify this office of which copy you desire and it will be furnished.

You also enquired about obtaining a permit to divert water. Enclosed is a small supply of forms with instructions. The well can be drilled before the application is approved.

Dear Sir,

On June 30th I mailed a letter to the Dept of Reclamation regarding water permits for Albert J. Longhurst. Your letter in reply was recieved a few days later, and in it you stated that Mr. Longhurst had a permit on part of the tract of land I had described.

I checked with Mr. Longhurst and was told that he had purchased the remaining land from his Brother and that the permit was probably taken in the name of the Brother. Will you please check this out for me. The legal description is: N¹/₄NE¹/₄, SE¹/₄NE¹/₄, NE¹/₄SE¹/₄ Section 21, Tp 1 North, Range 35 E.B.M., in Bingham Co. Idaho.

The permit is probably in the name of Homer Longhurst. Please check it out and if the permit is in the name of Homer please send an assignment to be used to assign it from Homer To Albert.

Your help has been appreciated and I will look forward to hearing from you again soon. By the way, it may be necessary to have copies of the permit issued, since no one seems to know where the original permits are on either of the two tract of land. Your advise on this will be helpful.

Dear Sir,

Thanks very much for your prompt reply to my letter giving the details of water rights for Albert J. Longhurst. Mr. Longhurst is unable to find his permit. I understand a copy can be obtained for a fee. Please send a copy and a billing for it, or let me know what the amount is and I will send it prior to your mailing the copy, whichever you prefer.

I will look forward to your reply.

Paul Butt of pingree, Idaho has been approved for a real estate loan to pay for drilling an irrigation well and for the pump and power lines. I find now that he has not applied for a permit to drill a well and appropriate the subterranean waters of the State of Idaho.

Please advise me of the procedure he must go to in order to make application and send any forms necessary. Can he drill the well now while he is making application, or must he wait until it has been approved?

The legal description is NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 10, Tp 4 South, Range 33 EBM. in Bingham County, Idaho. He has title to the property and no mortgage exists as yet. Ours will be of record soon, if the well can be drilled.

Your prompt help will be very much appreciated.

Dear Mr. Thomas,

Your help regarding the Creed Reasor water, May of this year, was greatly appreciated by me and Mr. Reasor. I hope that you will be just as helpful on another matter.

Albert J. Longhurst of Blackfoot has applied to our firm for a real estate loan to pay for sprinkler irrigation. With the application we need the application and permit number to appropriate the subterranean waters of the State of Idaho.

Mr. Longhurst is unable to supply us with the numbers of the permit.

He drilled one well in 1958 to irrigate the following land; NE $\frac{1}{4}$ and the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec 21 TP 1 NO. Range 35 EBM. This land he has the patent to.

He drilled a second well this spring, just being completed now, on the NW $\frac{1}{4}$ and the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sect 21, Tp 1 No. Range 35 EBM.

A third well was drilled just east of this property but will not be on the mortgage.

It will be appreciated if you will furnish us with the numbers, amount of water allocated, and the permits if possible.

I will look forward to your reply and will at once try to answer any questions you might have.

Very Sincerely Yours,
