Dear Sirs:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28137 shows the well is (~~are~~) capable of conveying 200 miner's inches, or 4.0 c.f.s. of water for the irrigation of 350 acres.

Upon receipt of the statutory fees, totaling $ 25.00, which consists of a Completion of Works fee of $ ---- and License and Certificate of Water Right fee of $------ - based at the rate of $2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of September 1, 1959 to the use of 4.0 second feet of subterranean water with the point of diversion in the $SW\frac{1}{4}SE\frac{1}{4}$, Sec. 16 for irrigation of 350 acres in the $NW\frac{1}{4}SW\frac{1}{4}$, Sec. 15; $SW\frac{1}{4}NW\frac{1}{4}$, $S\frac{1}{2}$, Sec. 16, T. 1 N., R. 35 E.,B.M.

Dear Sir:

The permit you inquired about was approved for 200" of water The priority date is September 1, 1959.

We would like to point out that proof of completion of works and beneficial use has not been made. These proofs are due September 11, 1964.

After proofs are made a field examination is made by this department. The actual quantity of water allowed under the permit will be determined from the examination. One inch to the acre of land actually being irrigated is the maximum allowed normally.

Very truly yours,

Dear Mr Nakamura:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the The Blackfoot News G-28137, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Nakamura:

Returned herewith are the three depositions and the affidavit of publication in connection with the noted permit. Also enclosed are two Forms 36.

There is an error in your deposition in Question 6, where you show NW¼, Sec. 15, where you probably mean NW¼SW¼, Sec. 15, and your witnesses show the same error.

The affidavit of publication shows that "5" of the notice, describing place of use of the water is not complete.

The Attorney General has ruled that there must be four successive weekly publications of a correct legal notice. As the affidavit of publication shows incorrect notice, we must have it re-published.

Complete the top lines of both Forms 36 and return to this office at your earliest convenience, after you have checked to be sure it is correct. It would be preferrable to show the same notary public but not necessary.

You and your two witnesses must appear before the Notary Public at the time shown in the notice where you sign your respective depositions below the Notary Public signature and the Notary Public can show new date signature and seal below your name.

Application for Amendment

OCT 2 1959

To Permit to Appropriate the Public Waters of the Department of Reclamation of the State of Idaho, No.....

Comes now Nakamura Brothers, and represents to the State Reclamation Engineer of the State of Idaho.

That ~~he is~~ they are the owners and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. 0-28137, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

Our Permit No. 0-28137 allows us to irrigate the S½, Section 16, Township 1 N., Range 35 East B. M. We would like this Permit amended to include the NW¼ SW¼ Section 15, Township 1 N., Range 35 East B. M. containing approximately 20 acres.

....., making a total of approximately 372 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Blackfoot, Idaho, this first day of October, 1959

Permit G-28137

Department of Reclamation
State of Idaho
Boise, Idaho

Gentlemen:

We wish to have our application for a permit to receive an appropriation for the use of subterranean waters of the State of Idaho, dated July 11, 1959, amended to include 20 additional acres of farmable land. The additional 20 acres lies adjacent to the 360 acres for which appropriation of subterranean water rights has been applied.

The description of the 20 acres is as follows: NW¼ SW¼ and SW¼ NW¼, Section 15, Township 1 N., Range 35, E. B. M., County of Bingham.

If the appropriation for water can be amended to include the 20 acres described above, please send two copies of the amended permit to the following office:

U. S. Department of Interior
Bureau of Land Management
BLM Land Office
P. O. Box 2237
Boise, Idaho

Please let us know the charges for the amended permits, and we shall send the amount due. Also, if there is additional information or application forms which we should complete, we should appreciate your informing us.

Sincerely yours,

Tugi Nakamura

Re: Permit No. G-28137

Mr. T. J. Nakamura,
Nakamura Bros.,
Route #1,
Blackfoot, Idaho.

Dear Mr. Nakamura:

We enclose Permit No. G-28137 in which we direct your attention to the limitations and conditions as given on the fourth page under Approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-4321 which was issued covering payment in the amount of $5.75 for the filing fee of the above mentioned permit.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

Very truly yours,

RE: Application for Permit

Tugi, Jack and T.J. Nakamura
Rt 1
Blackfoot, Idaho

Dear Sirs:

We are returning your check for $5.75 and your application for water permit which seems to be in good order with the exception of the location of the point of diversion. Under item 4 on the application you state the location as being in the NW¼SE¼ of Section 16, Township 1 North, Range 35 East Boise Meridian, but on the sketch map you show the location as being in the SW¼SE¼, same section.

Please correct the application and maps to show the exact site of point of diversion and return all the papers promptly.

Very truly yours,

GEO. N. CARTER
