Dear Mr. Belnap:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27785. The proofs are to be made at 9:00 o'clock P.M., on the 3rd day of March, 1960, before O. Elwood Hammering, Blackfoot, Idaho, Notary Public.

As of this date we have mailed the Notice to the Daily Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

RE: Permit No. G-27785

Mr. Ira G. Belnap
Rt 2
Blackfoot, Idaho

Dear Mr. Belnap:

Enclosed are the two Forms 36, and one Form 11 you submitted.

The point of diversion under 4 must show the 40-acre tract where the well is located. The land irrigated under 5 must show the legal description of the land. If there is any change from the permit, there will have to be an amendment.

Kindly make the additions, make the necessary change in date for making the proofs and return.

Re: Permit G-27785

Dear Mr. Belnap:

Enclosed are forms requested in your letter of January 20th.

Your permit claims 2.16 c.f.s. or 108 miners inches to irrigate 108 acres of land. You can make your proofs at any time.

The works will be inspected by an engineer from this office who will measure the flow of water from the pump and determine the number of acres of land you are actually irrigating. The amount of water shown on the license will not be more than the amount claimed in your permit or more than one miners inch per acre of land actually irrigated. As your land was originally irrigated with canal water you are probably irrigating all of the land and further delay would not give you a chance to increase the acreage.

Very truly yours,

GEO. V. CARTER

Dear Sir:

In regard to my well and pump I have noticed that my final proof date is set up for five years.

If it is possible I would appreciate my final proofs now. I have run my pump and well for a year now and it is working in good condition.

I need to complete my final papers to furnish a more possible picture to my land creditors when I have a contract with.

Will you please send me what information I shall

Dear Mr. Belnap:

We enclose Permit No. G-27785, in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

You will note under question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years, however, you may make the required proofs at any time you are prepared to do so within that time.

We also enclose departmental receipt No. G-3881, which was issued covering payment in the amount of \$5.50, for the filing fee of the above mentioned permit.

Dear Mr. Belnap:

Enclosed is your application for permit with attached \$5.25 check for corrections.

You are claiming 2 cubic feet per second or 100 miners inches of water. On the tabulation you list only 81 acres. The permit cannot be approved for over one inch per acre. According to the map you own land in S¹/₄SW¹/₄, Sec. 29; SE¹/₄SE¹/₄, Sec. 30; NE¹/₄NE¹/₄, Sec. 31, and NW¹/₄NW¹/₄, Sec. 32, Twp. 2 S., Rge. 34 E. B. M. The tabulation list has been changed in pencil to agree with the map. You do not show any acreage in Section 31. That has been penciled in as 30 acres. You may correct as necessary. The amount of water claimed can be one inch per acre. The fee would be \$5.50 for any amount between 100 and 149 inches or 2 c.f.s. to 2.95 c.f.s.

Very truly yours,
