Dear Mr. St. Clair:

We have received the assignments of Blaine L. Larsen to International Livestock Development Corp. in connection with the above referenced water right licenses.

We wish to advise you that the Department has no procedure for changing the records of ownership once a permit has been licensed. When a license is issued, it becomes appurtenant to the land and ownership is automatically conveyed with the land unless specifically withheld in the sale transaction.

We will, however, place the assignments in our files for future reference as to present ownership. The copy of the Sale Agreement is herewith being returned.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Dear Mr. Harris:

Returned herewith is the assignment of a portion of the noted permit.

When the holder of a permit proves completion of works, the permit is considered as being completed as far as construction works is concerned. It is possible that beneficial use of only part of the water has been completed and later make proof of the balance of the water, up to the amount of water shown on the permit.

The assignment could have been accepted if received before the proof was made.

The application for permit which accompanied the assignment is being processed.
