Dear Mr. Berrett:

Here are the copies of the well logs, we have on file, that you requested in your June 15 letter. As you can see, we only have logs on wells 2, 3, 4, and 5. Perhaps some of these wells were drilled prior to the 1953 date when well logs were required to be submitted, or perhaps the drillers neglected to submit them.

We also researched our water right files and have found the following rights on the wells you are concerned with:

- Well # 1 was covered by Permit No. 35-7069, which lapsed and is no longer in effect.
- Well # 2 is under Permit 35-7162, and the proof of beneficial use is due on March 1, 1976.
- Well # 3 is under Permit No. 35-7161, with proof due also on March 1, 1976.
- Well # 4 has a Licensed Right No. 35-2493.
- Well # 5 is covered by Permit No. 35-2722, which is ready for licensing upon the payment of \$15.00 licensing fee. We have been unable to contact the permit holder, Mr. Leo J. Behrend, as yet. Another, Permit No. 35-7095, has been issued for this well and proof of beneficial use is due before December 1, 1974.
- Well #10 appears to be licensed under License No. 35-2651.
- Well #11 appears to be licensed under License No. 35-2651.
- Well #12 was covered by Permit No. 35-7007, which has lapsed and is no longer in effect.
- Well #13 is covered by License No. 35-2568.
- Well #16 has no recorded water right.
- Well #19 is covered by License No. 35-2552.

35 2552

New applications must be filed on the wells that have no recorded rights and those on which the permits have lapsed, if they were drilled after March 25, 1963. Use of these wells without a valid permit is prohibited by Section 42-229 Idaho Code.

If you have further questions about the permits, licenses, or logs of specific wells, please let us know.

Sincerely,

Dear Mr. McDowell:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 27643 are due not later Dec. 9, 1963. than

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.
