Dear Mr. St. Clair:

We wrote to you, dated February 28, 1963, in regard to transfer in holder's name on the permit noted above. No answer has been received.

Your letter of February 25, mentioned that L. B. Holden Farm Company, Inc. bought the property with all water rights. No assignment of the permit was enclosed.

In regard to accepting a deed for the property as assignment of permit, there is one opinion of the Attorney General in our file. A Homestead Entryman had a permit. He passed on before making proofs on the permit and before issuance of the patent. Congress passed a special bill allowing the patent to the widow. The Attorney General ruled that the widow did not own the permit and could not make the necessary proofs.

Kindly give this matter your earliest possible attention.

Dear Mr. St. Clair:

We received your letter of February 25th, with \$54.00 check, amendment to land list and Permit No. G-27603.

Permit No. G-27603 is returned herewith with a small supply of forms for assignment of permit. The check and the amendment will be held pending receipt of an assignment of the permit.

The certificates of water right must be issued to the holder of the permit. We would prefer to receive an assignment of the permit to the new owners of the land by completion of one of the enclosed forms. We can accept a photo copy of the land deed, provided Permit No. G-27603 is mentioned as the water right involved. There is some question of the validity of a transfer of ownership if the deed only shows the usual "and all water appurtenant thereto", or similar wording.

Transfer of ownership is mentioned in Gard vs. Thompson, 21 Idaho 485, 496. We do not have an opinion from the Attorney General in regard to acceptance of the ordinary deed to the property.

Re: Permit No. G-27603

corporation (new owner)

Dear Mrs. Rule:

Please refer to your letter of August 29, 1962, addressed to John I. Ker, Jr. of this city advising him that your department will issue Certificate of Completion of Works and the License and Certificate of Water Works confirming the right with priority of November 3, 1958, to the use of 5.6 second feet of subterranean water with point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 25, for irrigation of 960 acres in the S $\frac{1}{2}$, Sec. 24; Sec. 25; T. 3 N., R. 35 E.B.M., upon filing the enclosed Application for Amendment to the Land List.

Last Thursday, February 21, I closed the matter of the sale of the S $\frac{1}{2}$ of Sec. 24 and all of Sec. 25 above referred to from John I. Ker, Jr. and wife to the L. B. Holden Farm Company, Inc., a Missouri corporation with its registered office in Kansas City, Missouri, and qualified to do business in the State of Idaho and having its principal place of business in Idaho at Idaho Falls, Bonneville County.

The deed of conveyance to this property went of record in the Deed Records of Bonneville County on February 21, 1963, so that the farm company is now the owner of the lands and all water rights appertaining thereto. If you require more evidence of this transfer, I will be glad to forward to you this recorded deed or a photostat thereof, as you desire. At any rate, the new owner wants the final papers to be issued in its corporate name since it is the owner.

We are enclosing check for \$54 to cover the fees of your office to effect the issuance of the final papers and also for the amendment of the Land List to include the additional property described in the application for amendment. We are also enclosing the Water Permit itself which we feel sure you will require for showing the new owner thereon as well as the total acreage to be watered by the license.

We will appreciate very much your acknowledging this letter and advising if everything is in order for the purposes outlined.

Dear Mr. Ker:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-27603 shows the well is (are) capable of conveying 280 miner's inches, or 5.6 c.f.s. of water for the irrigation of 960 acres.

Upon receipt of the statutory fees, totaling \$ 53.00, which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$ 48.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of November 3, 1958 to the use of 5.6 second feet of subterranean water with the point of diversion in the SE 1/4, Sec. 25 for irrigation of 960 acres in the S 1/2, Sec. 24, Sec. 25, T. 3 N., R. 35 E., B.M.

Since your permit does not include the SE 1/4, Sec. 24 and the E 1/2, Sec. 25 it will be necessary to amend the land list on the permit if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included the statutory fees will total \$29.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Dear Mr. Ker:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27603. The proofs are to be made at 9:00 o'clock A.M., on the 9th day of October, 1961, ~~before~~ before S. D. Hatch, c/o Irrigation Service, Inc., Notary Public.
South Yellowstone Highway, Idaho Falls, Idaho

As of this date we have mailed the Notice to the Post Register with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Gentlemen:

We would like you to forward us forms in order that we may accomplish final proof on the beneficial use of water on our form description below:

Northeast quarter of the Northwest quarter of section 25, township 3 North, and range 35 EBM of the Boise meridian.

I am not absolutely certain of the exact location of the well. It may be in the Southeast quarter of the Northwest quarter of section 25, township 3 North, or in the Northwest quarter of section 25, or in the Southwest quarter of the Northeast quarter of section 25.

In any case, we would like the forms for final proof of beneficial use of the well.
