Dear Mr. Ricks:

Your well pumping with an open pump would pump about 240 miners inches of water, but by pumping into a sprinkling system you double the head on your pump. Our field engineer report shows the amount of water used through five lines of sprinklers to be 114 miners inches, based on actual use of your system when checked. Therefore, that would be the amount of water put to beneficial use.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27424, in the name of Ariel Ricks, as Notary on the 15th day of May, 19 63, at 10:00 o'clock A.M., at 291 North Bldg., Blackfoot, Idaho.

As of this date we have mailed the Notice to the Blackfoot News, Blackfoot, Ida. with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.
