That the point of diversion is described in said Permit as being located: SW¹/₄SW¹/₄, Sec. 30, T. 4 S., R. 31 E.

That they now request that the point of diversion be changed to a point located near SW corner NW¹/₄SW¹/₄, Sec. 30, T. 4 S., R. 31 E., B. M.

That the reason for desiring to make such change is as follows: Higher elevation as shown on final survey.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Blackfoot, Route 2, Idaho, this 11 day of May, 1963.

Dear Mr. Stewart:

Enclosed is a copy of each water right requested in your correspondence dated March 1, and March 10, 1988.

In another matter, the Department needs to be advised of what action you have decided to take concerning Application for Transfer of Water Right 35-2540 and Permit Application #35-8626. Based on the decision by Farm Home Administration, the transfer application cannot be approved in its present form. You need to either amend or withdraw it. Similar action is also needed for Application 35-8626.

To assure you understand all the options, I strongly recommend we make an appointment to review the matter. I am available March 30, 31, and April 1 thru April 8. Your cooperation in clearing up this matter is appreciated.

Dear Mr. and Mrs. Stewart:

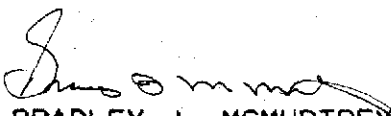

This letter is in response to your letter of February 22, 1988, with regards to your water right transfer.

With regards to your first question, FmHA presently, has an acceptable lien on 120 acres where water is to be transferred to. However, this only represents 100 acres of the 137 acres you plan to irrigate. The additional permit for 37 acres is located in the Township 4 S. Range 3 E.B.M., Section 31: NE 1/4 NW 1/4, which FmHA presently, has no lien against.

With regards to your second question, permit #35-7920 for 3.66 C.F.S. for 183 acres. It would appear this permit will not be in any jeopardy provided you prove up on the permit. As far as the steps you need to follow with regards to preserving this permit and its priority date can better be answered by correspondence with the Department of Water Resources.

I discussed the process with Mr. Ernest Carlsen of the State Department of Water Resources, and he felt that by withdrawing your transfer request and amending your application for permit #35-8626 that you could also preserve a potential water right on the 137 acres you are now working on. I would suggest you contact him as soon as possible to discuss this further.

Sincerely,

RE: Reid G. Stewart, Application for Transfer of Water Right
No. 35-2540, Permit No. 35-7920, Application for Permit
No. 35-8626

In response to Mr. McMurtrey's letter of February 2, 1988, Mr. Stewart has asked him for an explanation of what should be done with regard to the above captioned water rights to ensure that none of them are lost. To answer this inquiry, Mr. McMurtrey called to ensure that he clearly understood what actions need to be taken by Mr. Stewart. In discussing the matter with him, I pointed out that the most reasonable approach would be for Mr. Stewart to withdraw Application for Transfer 35-2540 or amend it to consolidate it on lands in Sections 25 and 30, T. 4S, R. 31E. If he elects to withdraw the transfer application, then he can amend Application 35-8626 to cover the lands he would like to irrigate in Sec. 31, T. 4S, R. 31E that would have been the new place of use under the proposed transfer application. It will also be necessary to take some action with regards to Permit 35-7920. Either some action will have to be taken to void the amendment which Mr. Stewart had filed so that the permitted place of use will return to those lands not originally covered under License 35-2540 or, if License 35-2540 is consolidated onto 137 acres in Sections 30 & 25, Mr. Stewart could re-amend Permit 35-7920 to cover the remaining 183 acres that he is presently irrigating.

Mr. McMurtrey said he would send us a copy of his correspondence to Mr. Stewart. Once that letter has arrived, we should contact Mr. Stewart ourselves to make an appointment for him to come in and make a decision on how he wants to approach changing these water rights so that we can get this matter finalized.

Dear Mr. Carlson:

In reviewing your letter of January 15, 1988, it has been determined that the transfer of water as proposed would not be in Farmers Home Administration's (FmHA) best interest. We, therefore, are unable to sign the affidavit submitted with your letter.

I have notified Mr. Stewart of the above decision and given him the option of allowing FmHA a lien on the 160 acres of ground that water is to be transferred to. If we were able to obtain a comparable security position on this ground we could then reconsider Mr. Stewart's request.

If you should have any questions concerning the above decision or desire additional information, I would be glad to discuss this with you.

RE: Application for Transfer of Water Right 35-2540

Dear Mr. Allen:

Prior to issuing a decision on the above captioned application, the Department needs documentation stating your agency's position concerning the requested change. The needed documentation must be in affidavit form and can be either a letter or one of the enclosed forms.

Traditionally, this right has been used in conjunction with permit 35-7920 to irrigate 320 acres in the E1/2SE1/4, Sec. 25, T. 4S, R. 30E, and the SW1/4, W1/2SE1/4, Sec. 30, T. 4S, R. 31E.

It is our understanding that Mr. Stewart has used this land as collateral for mortgage he has obtained thru the Farm Home Administration. Because of this encumbrance, the Department must insure that the interests of Farm Home Administration will not be adversely by granting the proposed change. Thus it is necessary for you to furnish an affidavit stating the position of Farm Home Administration.

Concurrently with filing the enclosed application for transfer, Mr. Stewart also submitted an application to amend permit 35-7920 and filed application for permit No. 35-8626. A copy of each document is enclosed for your review. The Department did approve the amendment of permit 35-7920. However, because of the Swan Falls suit, there has been no administrative action on application 35-8626. It will be acted on once the criteria for evaluating new applications has been established. This application is intended to provide a water right for the land being dewatered as a result of the amendment of permit 35-7920 and the change in place of use for license 35-2540 and the transfer application.

RE: Application for Transfer of Water 35-2540, REID G. STEWART

DATE: 5 March 1987

On 23 February 1987, Reid Stewart came to this office to explain the difficulties he has been experiencing in trying to obtain consent from the Farm Home Administration for initiating the above captioned application. Mr. Stewart stated he had made several visits with the county supervisor of the Blackfoot Office. However, that gentleman was in the process of being transferred to another office and, consequently, reluctant to take any action concerning Mr. Stewart's application.

Following our visit, Mr. Stewart called on the 3rd of March and indicated he had again been to the Farm Home Administration Office in Blackfoot and talked with the new county supervisor. It was his opinion that the new supervisor concurred with the change Mr. Stewart has proposed concerning License 35-2540 and would likely prepare a written statement consenting to the change in the new future.

RE: Application for Transfer, Water Right No. 35-2540

Dear Mr. Stewart:

NOTICE OF PENDING ORDER TO DENY APPLICATION

Our file on the above application reveals final administrative action has been deferred pending receipt of verification that the lien or mortgage holder for the land under license 35-2540 is agreeable to transferring the water to other property. This documentation was requested in February of 1986 when the application was filed and again by telephone conversation with Mrs. Stewart in March 1986. Though the transfer cannot be granted without the above information, neither can the Department continue suspending administrative action on the application indefinitely because the information has not been provided. If you fail to provide this information within 30 days of the date of this letter or have not informed us of the date when it will be submitted the Department will proceed with issuing a decision to deny the application. The application will be denied on the grounds that a water right as security for a lien, deed of trust, mortgage, or contract cannot be altered through administrative action by the Department of Water Resources without the expressed written consent in affidavit form of the entity holding said lien, deed of trust, mortgage, or contract.

Re: Application for Transfer No. 35-2540

Dear Transfer Applicant:

The Department of Water Resources acknowledges receipt of your application for transfer. The transfer identification no. is 35-2540. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the transfer in The Blackfoot News. The transfer will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the transfer is protested, you will be sent a copy of the protest. The protest must be resolved before the transfer is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the transfer is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the transfer and will notify you of the outcome of this review. When the transfer is approved, you will be sent a copy. A typical processing time for an unprotested transfer is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Dear Sir:- In reply to the enclosed letter from the Bureau of Land Management.

I did receive a letter from your office requesting that I send in about \$5- for final permit on irrigation well.

The reason for change in location, was when the engineer surveyed the well, we found the high ground to be in the NW $\frac{1}{4}$ & SW $\frac{1}{4}$ of Sec 30 T. 45, R 31 E.

Will you please excuse my neglect and furnish this business for final proof.

Dear Mr. and Mrs. Hatch:

Returned herewith are the two forms 36 and form 11 we received. Also enclosed are amendment forms.

The permit shows the well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 30 instead of NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 30 shown on form 36. The land list is W $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 30 and form 36 shows additional land. The amount claimed on the permit is 3.2073 and that amount cannot be exceeded under this permit.

Kindly correct the form 36 or, if the well location was changed and you want to include extra land, complete the amendment forms and return with the enclosed forms and the fee of \$1 for recording each amendment.

Dear Mrs. Hatch:

We received your letter of April 3rd in regard to complete date under Permit No. G-27412.

Enclosed is a precancellation notice in regard to Permit No. G-26386, which should have been sent to you in 1958.

Permit No. G-27412, was received in this office June 5, 1958. Your Desert Land Entry No. 011471 was filed March 30, 1960, and allowed July 6, 1962. As the application for permit was not filed in connection with the Desert Entry noted above your request for extension of time cannot be allowed.

Permit No. G-28574 was filed March 30, 1960, and extension of time to July 6, 1967 can be allowed for completion of works, if you desire.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Dear Mr. Hatch:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27412 are due not later than **June 20, 1963**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

State Reclamation Engineer

Mr. Jerry Hatch
Rt. # 1
Blackfoot, Idaho

Dear Mr. Hatch:

We enclose Permit No. G-27412, in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the Deputy State Reclamation Engineer.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

By this same mail, we have sent to the Bureau of Land Management, two copies of the above mentioned permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

We also enclose departmental receipt No. G-3361, which was issued covering payment in the amount of \$7.75, which includes \$5.75 for the filing fee and \$2.00 for the copies sent to the Bureau of Land Management.

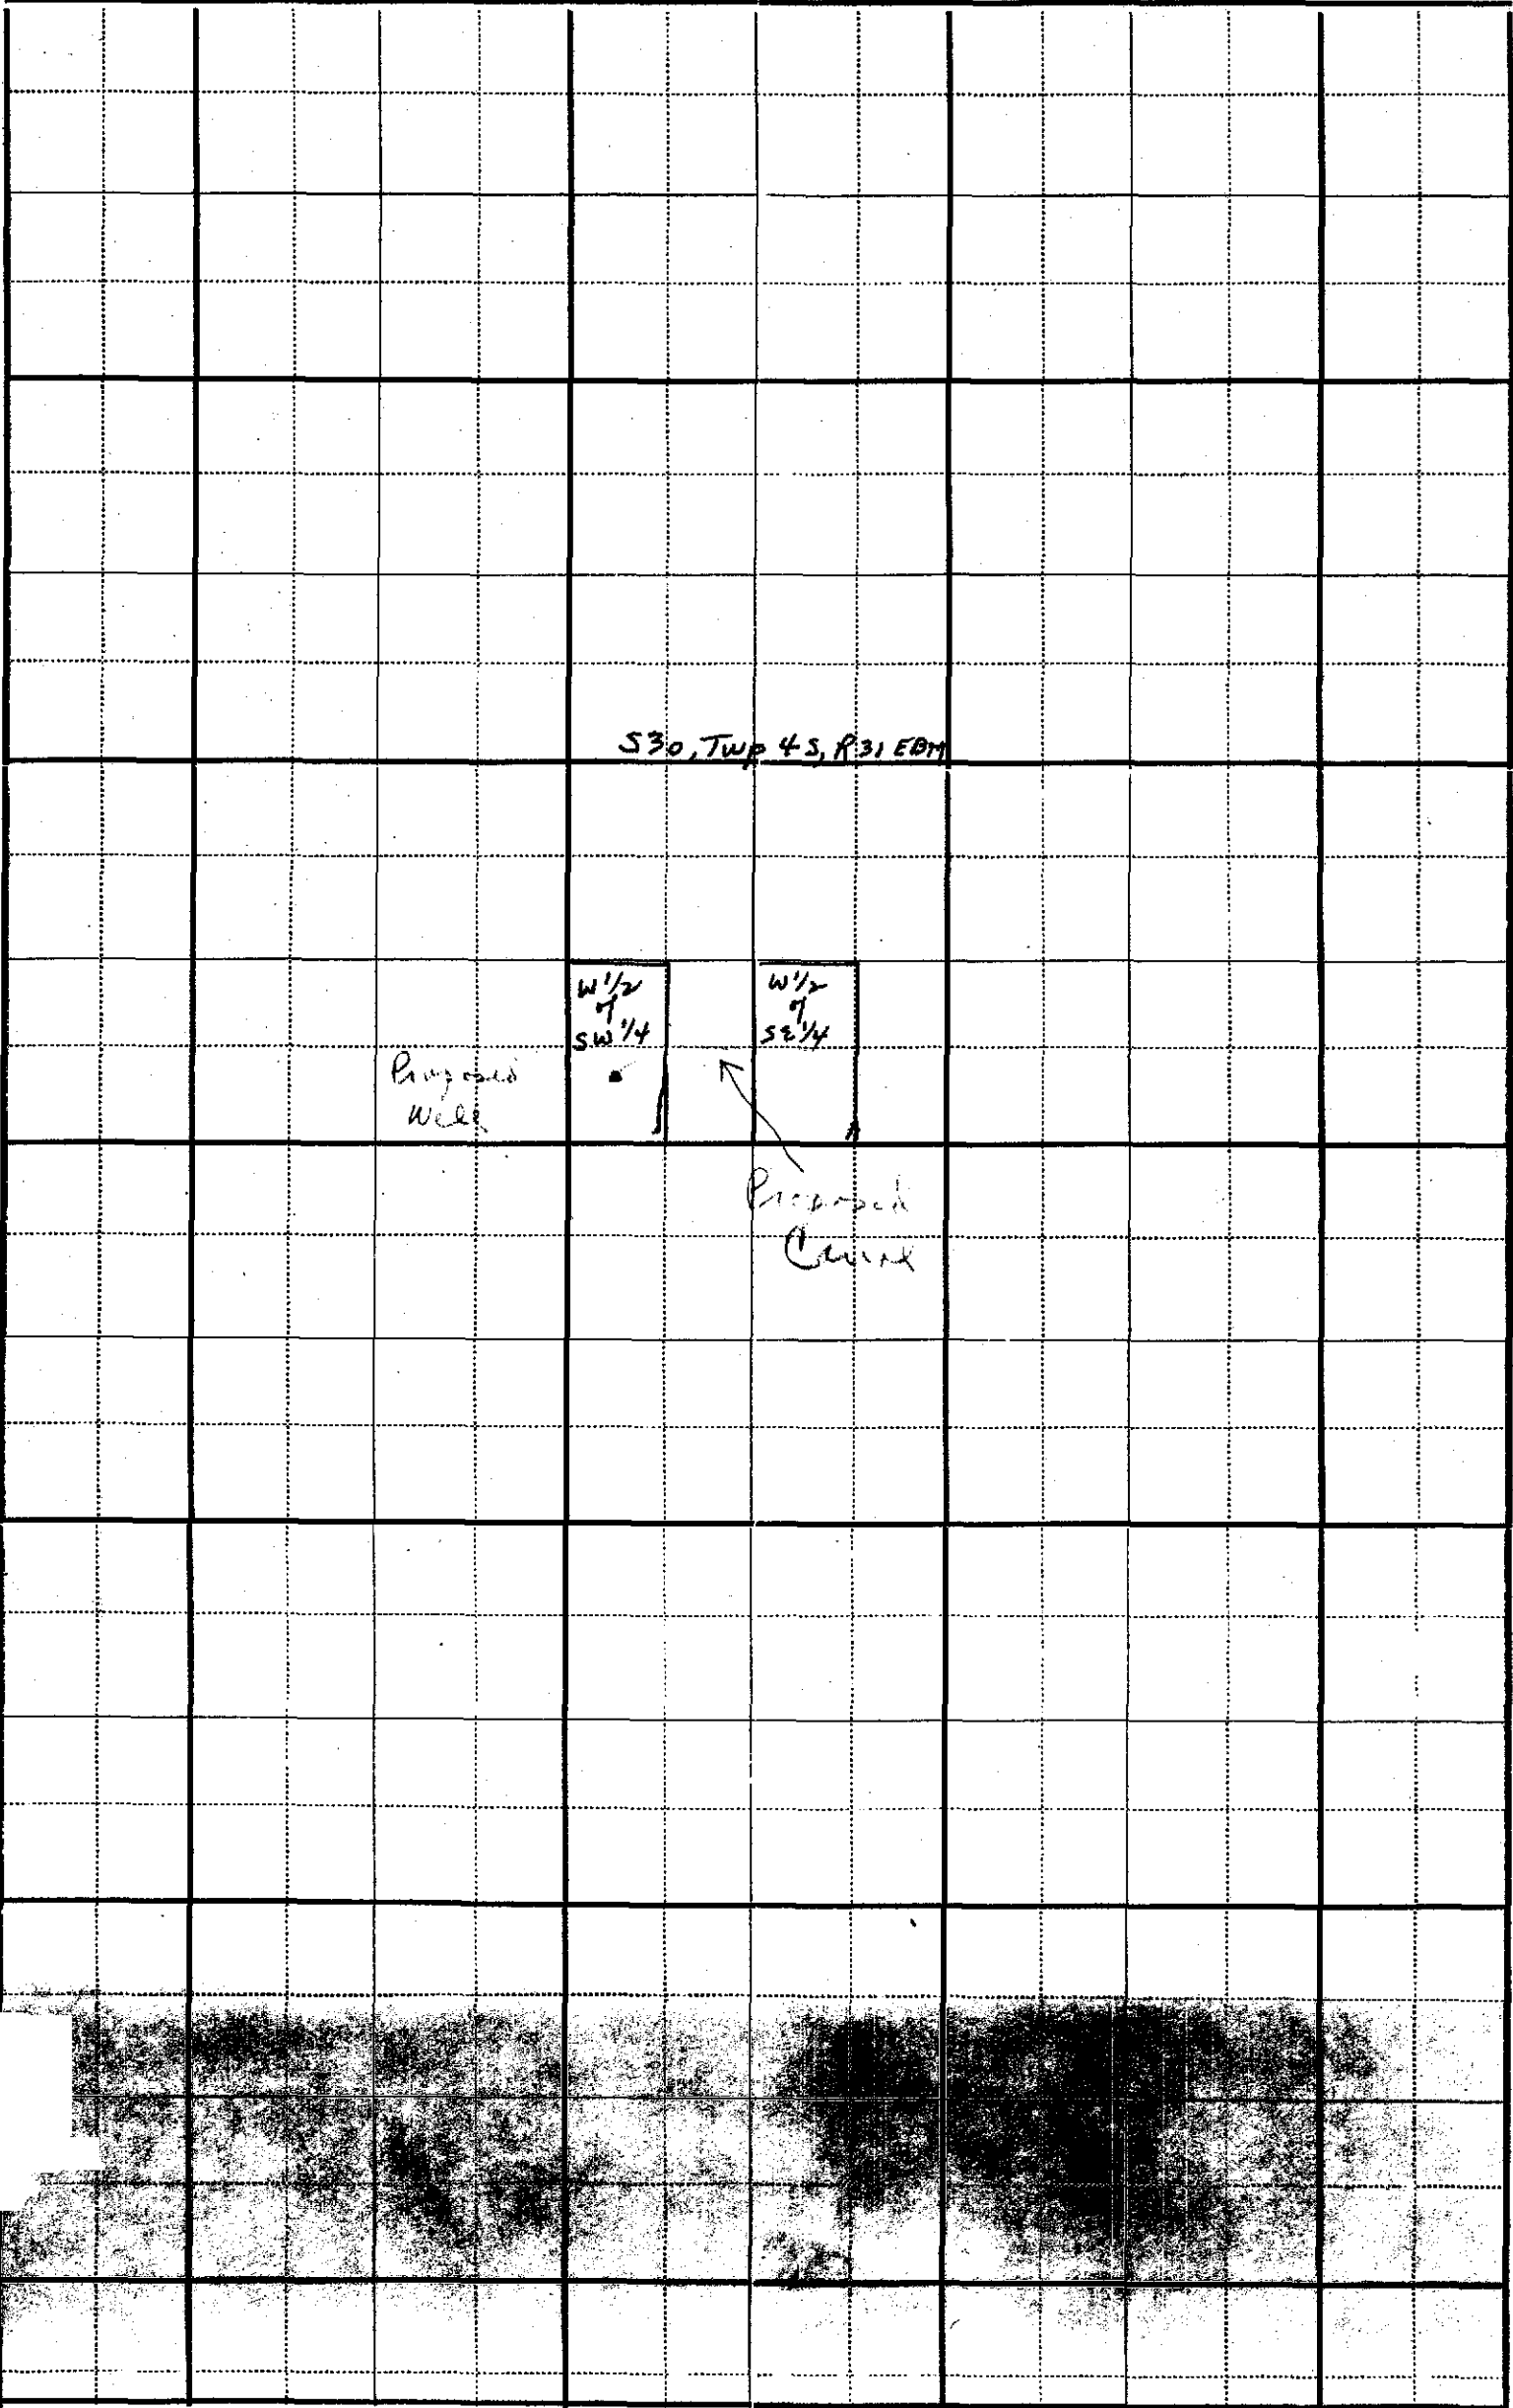

Very truly yours,

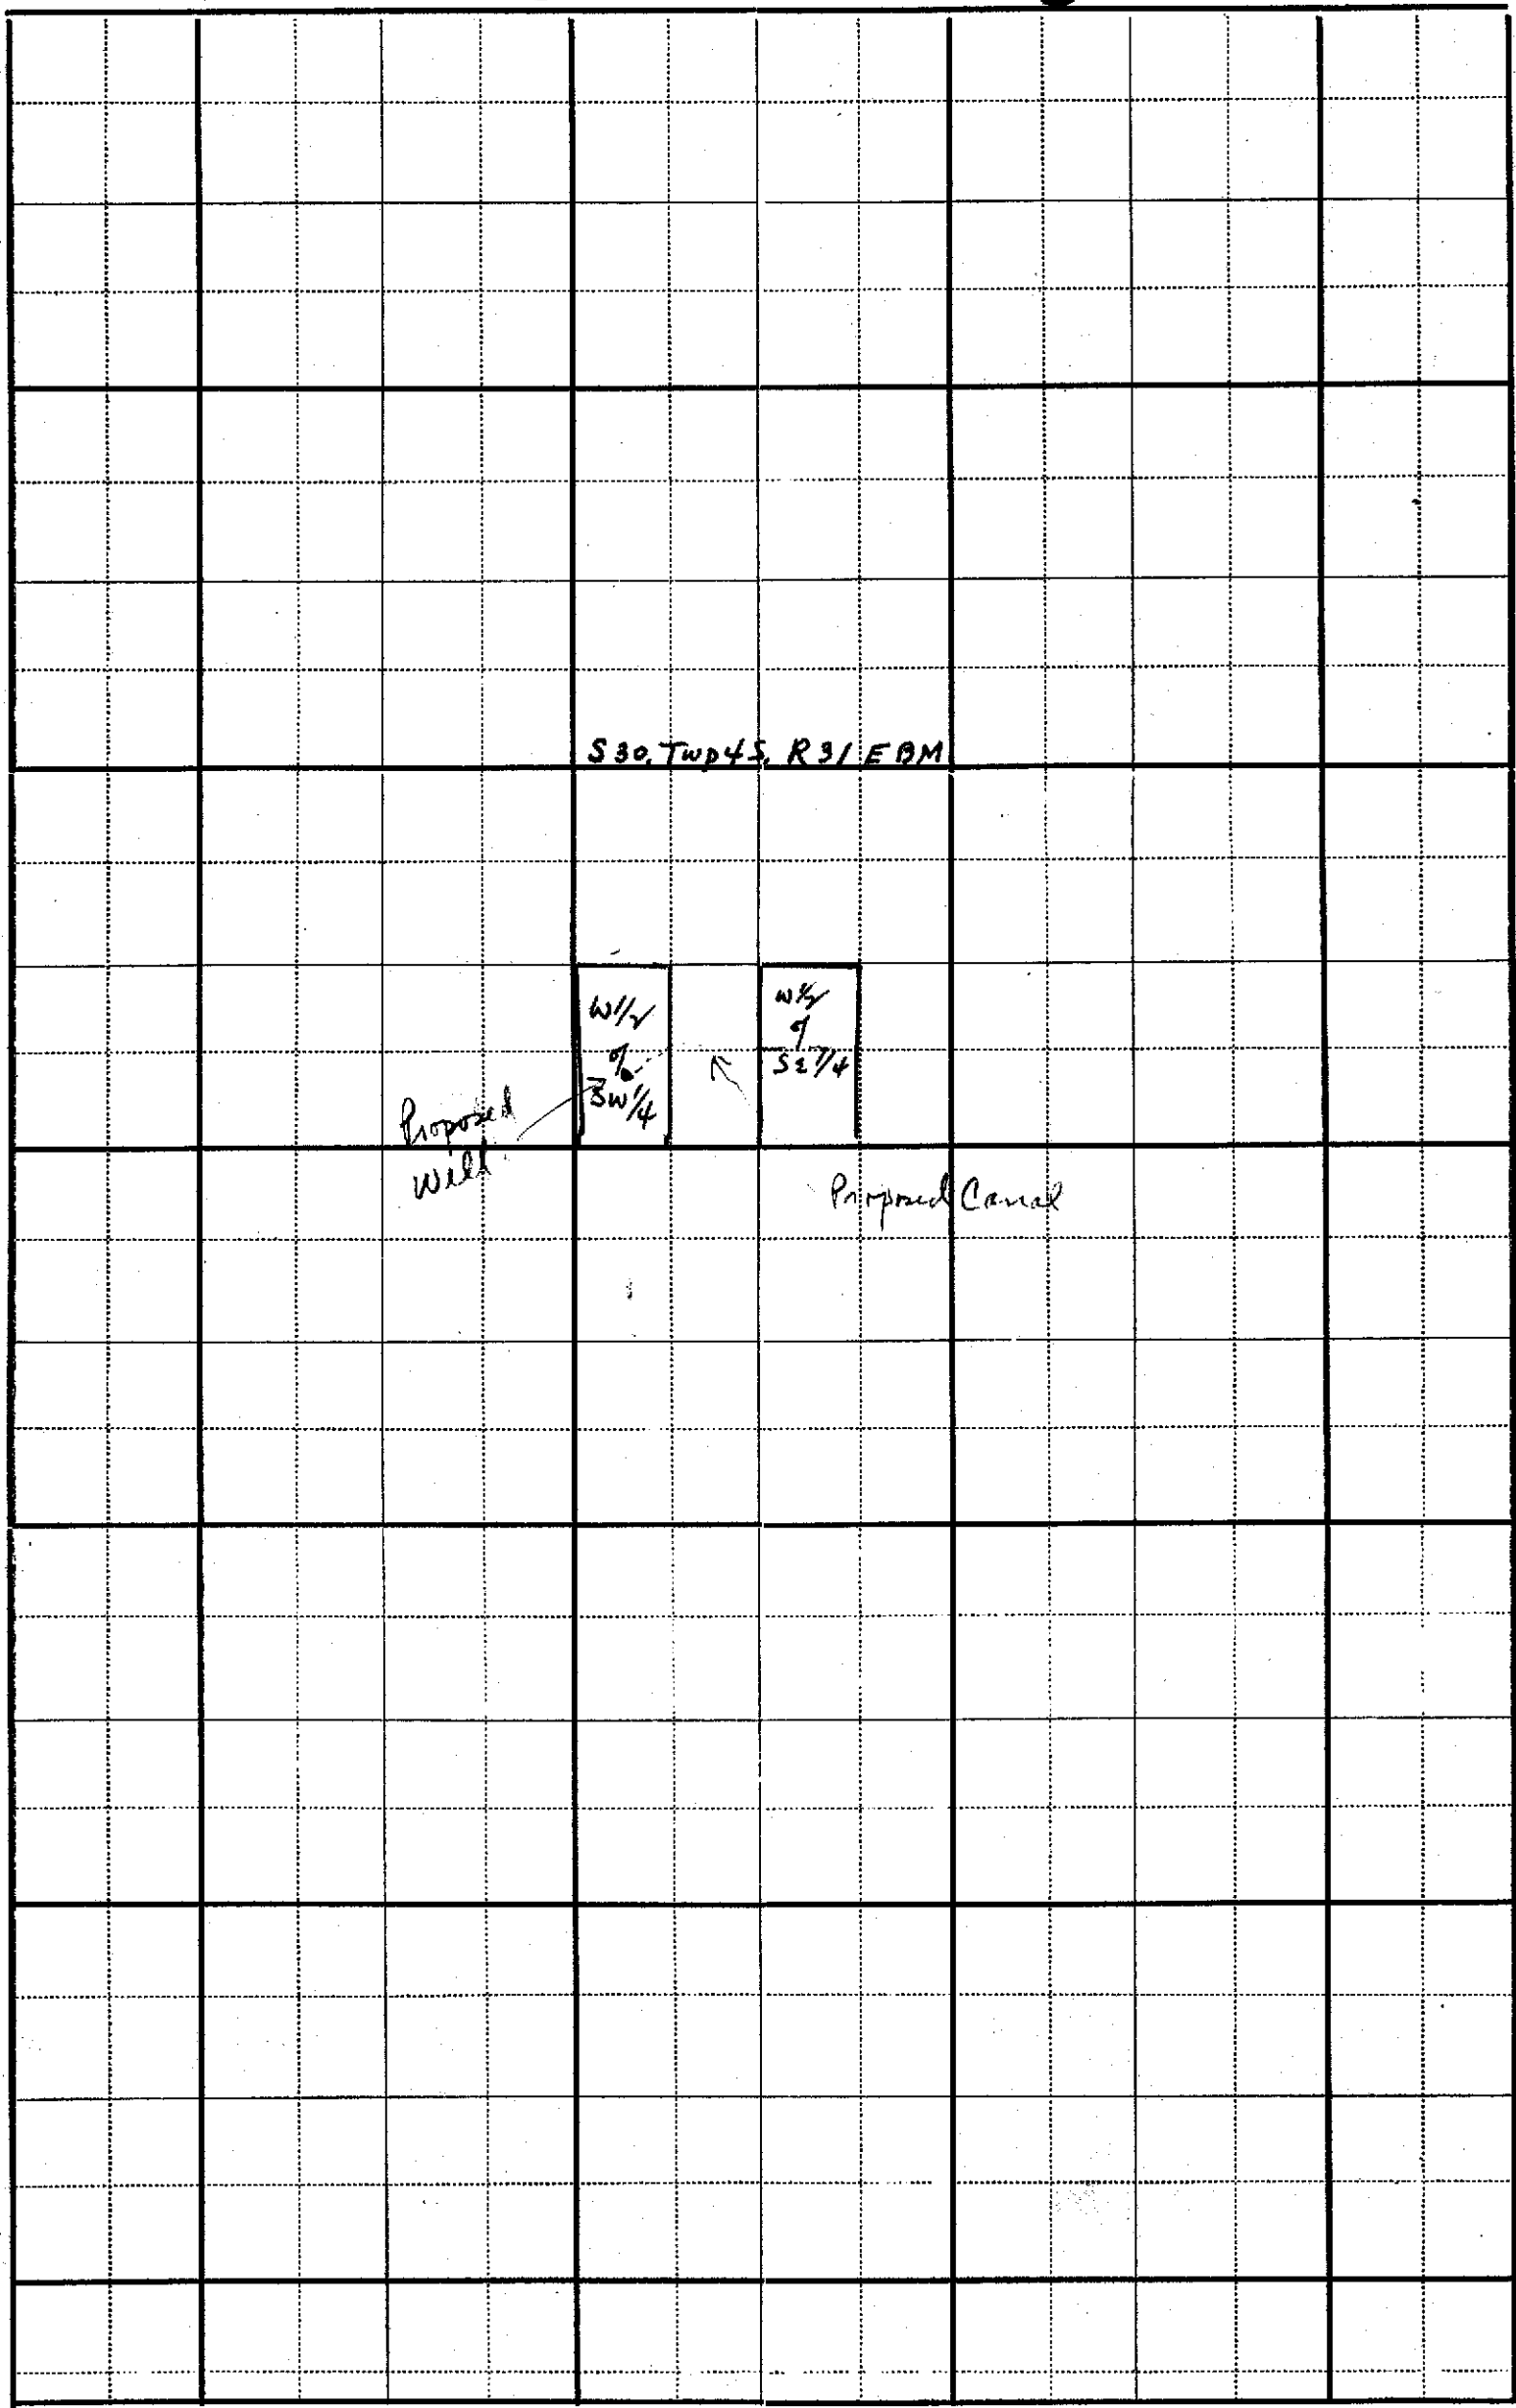

GEO. N. CARTER
