Dear Mr. Frandsen:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-27265 shows the well is (amended) capable of conveying 207 miner's inches, or 4.14 c.f.s. of water for the irrigation of 318 acres.

Upon receipt of the statutory fees, totaling \$ 21.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 16.00 , based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of February 28, 1958 to the use of 4.14 second feet of subterranean water with the point of diversion in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 24 for irrigation of 318 acres in the SE $\frac{1}{4}$, Sec. 13, NE $\frac{1}{4}$, Sec. 24, T. 1 S., R. 34 E., B.M.

Since our engineer found the point of diversion to be in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 24 rather than in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 13, as recorded in the permit record, it will be necessary to amend the point of diversion.

Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and your Certificate and License will be issued.
