Re: Permit No. G-27253

Grace Barclay
Sterling, Idaho

Dear Madam:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-27253 shows the well is (~~300~~) capable of conveying 118 miner's inches, or 2.36 c.f.s. of water for the irrigation of 118 acres.

Upon receipt of the statutory fees, totaling \$ 11.00, which consists of a Completion of Works fee of \$ ---- and License and Certificate of Water Right fee of \$ ---- based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right confirming the right, with priority of February 12, 1958 to the use of 2.36 second feet of subterranean water with the point of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 26 for irrigation of 118 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 26, T. 4 S., R. 31 E., B.M.

Your permit shows irrigation of the NE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 26 and an amendment to the land list is necessary. Kindly complete the enclosed form and return it to this office with the fees shown above. There is no fee in connection with the amendment as the error in the land list should have been noticed at the time your application was approved in this office.

Mrs. Grace Barclay
Sterling, Idaho

Dear Mrs. Barclay:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27253 are due not later than Feb. 13, 1963

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Dear Mrs. Barolay:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Aberdeen Times, all submitted in proof of completion of works and beneficial use on Permit No. 0-27253.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit No. G-27253

Mrs. Grace Barclay,
Sterling, Idaho.

Dear Mrs. Barclay:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27253. The proofs are to be made at 2:00 o'clock P.M., on the 14th day of January, 1963, before Elmer Isaak, Canal Co. Office, Aberdeen, Idaho, Notary Public.

As of this date we have mailed the Notice to the Aberdeen Times Aberdeen, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G-27253

Mrs. Grace Barclay
Sterling, Idaho

Dear Mrs. Barclay:

State Statutes provide that one fifth of the works under a permit shall be completed in one half of the time allowed for completion of the works of diversion, total time to not exceed 5 years.

This office does not check on progress of the work under permits except as to completion of the works when due according to terms of the permit. The owner of a well with a later date of priority than shown on your permit would have good cause to protest your proofs of completion of works and beneficial use of the water.

We are enclosing a blank form if you wish to make a new application for permit. The priority would be the date the acceptable application is received in this office.

Very truly yours,

Dear Sir:

I am preparing to dig my well, I got my permit, number 627253, from my safety deposit box, and was advised by my banker that one-fifth of the work should have been completed by August 13, 1960. I had never noticed that clause before, and because at first I couldn't get a well driller to come, and then didn't have the money, I just left the permit in my safety deposit box, secure in the knowledge that it was good for five years.

Now that I have the well driller hired and the money on

27253

hand, I find that I have not complied with the terms of the permit by having one-fifth of the work completed.

I am sure you are well aware of the water shortage and the need for digging wells in Idaho this year. We are very short on water, and were counting heavily on water from our own well. Could I possibly either have another permit, or have the date of completion of one-fifth of the work extended on my present permit?

I am ready to begin work immediately, and would appreciate hearing from you as soon as possible.

Sincerely,
Mrs. Grace Barclay.

Re: Application for Permit

Mrs. Grace Barclay
Sterling,

Dear Mrs. Barclay:

This will acknowledge receipt of your application for permit for filing on the subterranean waters of the State of Idaho.

However, your filing was for 3 cubic feet per second, or 150 miners inches. It is necessary that we reduce the amount of water filed on to 2.4 cubic feet per second or 120 miners inches, for the reason that we are not allowed to accept a filing in the State of Idaho for over one miners inch for acreage irrigated.

You inadvertently overlooked sending in your check to cover the filing fee, which amounts to \$5.50. Upon the receipt of your check, your permit will be processed through this department.

RE: Application for Permit

Mr. Harold A. Pratt
Stone, Idaho

Dear Mr. Pratt:

In reply to your letter, we enclose an Application for Permit to appropriate the subterranean waters of the State of Idaho, together with a pamphlet, which gives regulations and instructions, and, sketch maps in duplicate, which are required to accompany the application. The map is to be drawn by "cross hatch" or color, showing the lands to be irrigated by 40-acre sub-divisions, section numbers, township, range, and, clearly show the location of the point of diversion (well).

After this application is approved and signed by the Governor and Secretary of State, it will be returned to you as a "Use Permit".

To complete the water right, two proofs are required:- Completion of works and Application to Beneficial Use, which are made at the same time. Under Question 10- the maximum time allowed for this is five (5) years.

When returning the application to this office, be sure to include the sketch maps in duplicate, and the filing fee, also make sure you have your complete address on the application.
