Dear Mrs. Watt:

One of the conditions of approval of your water Permit No. G-32839/35-2524 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 22, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Higginson:

Final proof of application of water to beneficial use is due to be submitted to your office on or before April 22, 1971, on the above-numbered permit.

The lands to be irrigated under the permit are held by Mrs. Watt under a Desert Land Entry from the BLM on which final proof is to be made April 13, 1971.

In addition, Mrs. Watt expects to put additional lands under irrigation during the summer of 1971 and will wish to have her final license issued for the full number of acres that can be irrigated and cultivated.

We therefore hereby request an extension of one year within which to make final proof on the above permit.

Dear Mr. Furchner:

In reviewing the two above referenced permits in the name of Margaret D. Watt, we find that the lands that you wish to have amended under Permit No. 35-2524 are already covered under Permit No. 35-2859. If you have two wells serving the lands described in Permit No. 35-2859, then all that will be necessary is an amendment to that permit, including one more point of diversion. This will not affect the total quantity required under the original permit, but will give the applicant the authority to irrigate all of the described lands from the two wells.

As you will note, we have enclosed a map showing the location of the lands and wells as described in the original permits. We are also enclosing an amendment form for your use in this matter.

If you should have any questions, please do not hesitate to contact this department.

Re: Permit No. G-32839/35-2524

Mrs. Margaret D. Watt
Pingree,
Idaho

Dear Mrs. Watt:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney

DEC 30 1966

Margaret D. Watt
Pingree, Idaho 83262

Dear Mrs. Watt:

On December 15, 1966 our Idaho Falls District Manager issued an "Initial Decision" classifying the land included in your amended desert land petition-application Idaho 017327 as favorable for entry. The decision does not become final until approximately January 20, 1967.

Last April a copy of State water appropriation permit No. G-32839 was filed in this office. The permit does not show that water will be made appurtenant to all of the lands of your application. While waiting for the "initial decision" to become final you should file an amendment to your permit with the State Department of Reclamation. The lands to be irrigated should be shown as the NE $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ E $\frac{1}{2}$, Sec. 34, T. 2 S., R. 32 E., Boise Mer., Idaho. You should also make arrangements with the State Reclamation Engineer to have a copy of the approved amendment filed with this office.

By filing the amendment immediately, action to allow entry to the land can be taken as soon as the decision becomes final.

Sincerely yours,

/s/ LUCENE E. BABIN
