Re: Permit No. G-27024

Dear Sirs:

I am enclosing Proof of Application of Water to Beneficial Use with Deposition of Holder and two Witnesses.

This hearing was set for the 19th of July, 1962, at ten o'clock, however, at that time I was involved with a District Court Case and was unable to hold the hearing. I did hold the hearing just as soon as I was able to get the witnesses and Mr. Brinkman together.

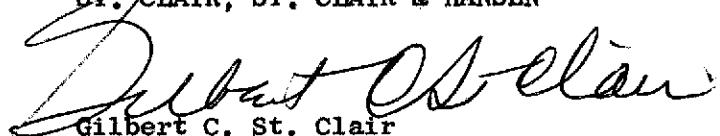

Apparently you forwarded the forms directly to Mr. Brinkman, as he brought them in and therefore, I did not have copies. If this is necessary, please forward me some forms and I will make copies and have the witnesses and holder sign.

I have not received the Affidavit of Publication. The Rigby Star informs me that they are sending this direct to you. Mr. Brinkman states he has paid the bill.

I will be out of town until around the 20th of August if the copies are necessary and to be executed.

Yours very truly,

Dear Mr. Brinkman

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 27024 are due not later than August 13, 1962

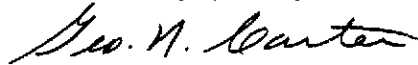

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,
