Legal Notice

NOTICE OF PROOF OF COMPLETION OF WORKS

and

APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 9th day of May, 1958, at Aberdeen, County of Bingham, State of Idaho, before Elmer Isaak, Notary Public, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-26947 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person holding said permit are H. Kenneth Westfall and F. L. Westfall, Aberdeen, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.2 cubic feet per second.

3. The use to which water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The point of diversion of said water is $N\frac{1}{2}NE\frac{1}{4}$, Sec. 23, Twp. 6 South, Rge. 30 E.B.M.

5. The place where said water is used is $NE\frac{1}{4}$, Section 23, Township 6 South, Range 30 E., B.M.

6. The date of priority which said user is prepared to establish is June 12, 1957.

RE: Permit No. G-26947
H. Kenneth & F. L. Westfall

Mr. H. Kenneth Westfall
Aberdeen, Idaho

Dear Mr. Westfall:

We acknowledge receipt of the \$13.00 fees for the certificates of water right under Permit No. G-26947.

You mention in your letter that you understand that another certificate can be proved up on for additional water under this permit.

The only time a supplemental certificate can be given on a permit, after proofs have been made of completion of works and beneficial use of the water, is when the works show a capacity of more than the allowable amount of water for the land being irrigated.

You proved completion of works and beneficial use of the water through a sprinkler system. The engineer who examined your system determined that you were using 119 miner's inches of water through the system. If you had made your proofs and irrigated through ditches, the amount of water would have probably been a full miner's inch of water for each acre you were irrigating.

There was probably a misunderstanding over the circumstances during the telephone call you mentioned.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-26947
H. Kenneth Westfall & F. L. Westfall

Mr. H. Kenneth Westfall
Aberdeen
Idaho

Dear Mr. Westfall:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-26947 shows that the well is capable of conveying 119 inches (2.38 c.f.s.) of water for irrigation of 160 acres.

Upon receipt of the statutory fees, totaling \$13.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (eight dollars--fee is based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of June 12, 1957, to the use of 2.38 second feet of subterranean water, with point of diversion in the N $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 23, for irrigation of 160 acres in the NE $\frac{1}{4}$ of Section 23, Township 6 South, Range 30 East, B.M.

Very truly yours,

GEO. N. CARTER

REPORT OF ENGINEER

Permit No. G-26947

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant H. Kenneth Westfall & F. L. Westfall

2. Source of water supply: Subterranean flow from a well

3. Location of point of diversion: Is in the _____ N $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 23

T. 6 So., R. 30 E.B.M. County of Bingham

4. Describe works as they exist, giving dimensions and capacities of same: Well 16" x 163'

Old motor 75 Hp 440 V # 984338 Layne + Bowler Turbine

27645 48' of 16" casing

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NE $\frac{1}{4}$ Section 23, Township 6 South, Range 30 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Crops are potatoes & grain

accompanied by H. L. Westfall

This examination was made on the 20 day of August, 1958

(Signed) David B. Stevenson Examiner.

26947

26947

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Dear ~~Mr.~~ Gentlemen:

Statutes requires a field inspection in connection with the proofs on Permit # G-26947 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

Mr. Darrell S. Evensen,

~~Inspector~~ Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Thursday

August 21, 1958

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

BOISE, IDAHO

RECEIVED
MAY 12 1958
Department of Reclamation

Permit No. G-26947

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. H. Kenneth Westfall - farmer and F. L. Westfall - farmer
both residence and address is Aberdeen, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-26947 dated June 17, 1957, Priority date June 12, 1957

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of supply is subterranean from drilled well and place of diversion is the NE $\frac{1}{4}$, Sec. 23, T. 6 So. Range 30 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Water is diverted from drilled well. Well is 163 feet deep with 48 feet of 16" casing and depth to water is 131 feet. Irrigated with sprinkler system - 165 3/16 nozzles with 55 pounds operating pressure. The pump is capable of pumping almost 200 miners inches water - without pumping against the friction of the sprinkler system.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation - NE $\frac{1}{4}$ NE $\frac{1}{4}$ 40 acres, NW $\frac{1}{4}$ NE $\frac{1}{4}$ 40 acres SW $\frac{1}{4}$ NE $\frac{1}{4}$ 40 acres, SE $\frac{1}{4}$ NE $\frac{1}{4}$ 40 acres. Land was dry farmed before well was put in. in Sec. 23, 6S. - 30E.

26947

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power, gas, oil, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Water required is about 3 1/2 acre feet per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The entire amount of water was used to raise a crop the 1957 season.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. _____

(Sign)

Kenneth Westfall

RECEIVED
MAY 12 1958
Department of Reclamation

Permit No. G-26947

Proof of Application of Water to Beneficial Use
Deposition of Witness ^{and Completion of Works}

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Carl Richard, Age 49, occupation farmer, resident and
postoffice address is Aberdeen, Idaho

Ques. 2. Are you acquainted with H. Kenneth Westfall and F. L. Westfall, the holder of Permit No. G-26947? How long have you known him and where does he reside?

Ans. I am acquainted with them. They reside at Aberdeen, Idaho and
I have known them 17 years.

Ques. 3. Have you read or heard read said Permit No. G-26947, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source is drilled well add sprinkler system. Source of
diversion is in the N $\frac{1}{4}$ NE $\frac{1}{4}$, Section 23, Township 6 South, Range
30 E.B.M.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The system will pump at least 160 inches (3.2 second feet.)

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. This was estimated from the size of motor and number of
spinkler lines running.

26947

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation. There are 160 acres irrigated in the NE $\frac{1}{4}$ which is in row crop. This land was dry farm wheat before water was applied.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is good soil with a little rock. It will require about 3 acre feet for good cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I saw the water being used to irrigate by sprinkler all the land mentioned during the season of 1957.

(Signed)

Carl Richard

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Aberdeen, County of Bingham, State of Idaho, on this 9th day of May, A. D. 1958.

Edmund Daab

Notary Public.

My commission expires December 8, 1958.

BOISE, IDAHO

RECEIVED
MAY 12 1958
Department of Reclamation

Permit No. G-26947

Proof of Application of Water to Beneficial Use
Deposition of Witness ^{and Completion of Works}

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Bob W. Knudsen Age 40, Residence and postoffice address is
Aberdeen, Idaho - occupation-blacksmith

Ques. 2. Are you acquainted with H Kenneth Westall and F. L. Westfall, the holder of Permit No. G-26947? How long have you known him and where does he reside?

Ans. About 25 years- They reside at Aberdeen, Idaho

Ques. 3. Have you read or heard read said Permit No. G-26947, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of supply is from a drilled well and sprinkler system
Source of supply is the N $\frac{1}{2}$ NE $\frac{1}{4}$, of Section 23, Township 6 South,
Range 30 E.B.M.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The system will convey 160-200 miners inches of water

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I estimated the flow by the amount of sprinkler lines used.

26947

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation - Acres irrigated are:

NE $\frac{1}{4}$ NE $\frac{1}{4}$ - 40 acres, NW $\frac{1}{4}$ NE $\frac{1}{4}$ - 40 acres, SW $\frac{1}{4}$ NE $\frac{1}{4}$ - 40 acres,

SE $\frac{1}{4}$ NE $\frac{1}{4}$ - 40 acres. This land was dry farm wheat ground

before water was applied and is now irrigated potato ground

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is good cultivated land and will need about

3 or 3 $\frac{1}{2}$ acre feet per acre for good cultivation

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

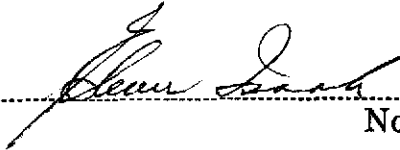

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I saw the entire amount of water irrigating the land

during the season of 1957

Re: Permit No. G-26947

Mr. H. Kenneth Westfall
Aberdeen
Idaho

Dear Mr. Westfall:

Enclosed is the Assignment of Permit No. G-26947 to you and F. L. Westfall by Earl Moser, permit holder (V. Earl Moser) and Eleanor T. Moser, wife of permit holder. This was acknowledged by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 95 of Permits at Page 26947 and should now be attached to the original permit to which it refers.

Enclosed also is departmental receipt #G-3221 for 50¢, issued as receipt of the fee for recording the assignment.

Very truly yours,

RE: Permit No. G-26947

Messrs H. Kenneth Westfall and F.L. Westfall
Aberdeen, Idaho

Gentlemen:

This acknowledges receipt of the Notice of proof of Completion of Works and application of water to Beneficial Use under Permit No. G-26947, to be made at Aberdeen, at 10:00 A.M. on the 9th day of May, before Mr. Elmer Isaak, Notary Public.

As of this date we have mailed the Notice to the Aberdeen Times with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder. The information especially required (using the data published in the Notice as your guide) is:

The time, the date, the place, and before the Notary named in the publication.

The signatures of the Holder and Witnesses and the Notary's seal are essential.

It is very necessary that each question be answered in detail.

In returning all the depositions (Holder's and two Witnesses) to this office, please be sure to enclose the Affidavit of Publication.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 9th
day of May, 1958, at Aberdeen, County
of Bingham, State of Idaho, before Elmer
Isaak, Notary Public, proof will be submitted of the completion
of works for the diversion of 3.2 cubic feet per second of underground
waters from a well, and of the application to beneficial use of said water, in
accordance with the terms and conditions of Permit No. G-26947 hereto-
fore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person ~~or corporation~~ holding
said permit are H. Kenneth Westfall and F. L. Westfall, Aberdeen, Idaho

2. Said works of diversion will be fully completed on the date set for
such completion, and the amount of water which said works are capable of
conveying to the place of use is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation
purposes, and the amount applied to beneficial use is
3.2 cubic feet per second.

4. The point of diversion of said water is N $\frac{1}{2}$ NE $\frac{1}{4}$, Sect. 4, 23,
Township 6 South, Range 30 E.B.M.

5. The place where said water is used is NE $\frac{1}{4}$, Section 23,
Township 6 South, Range 30 E., B.M.

6. The date of priority which said user is prepared to establish is
June 12, 1957.

Attention: Mr. Roy W. Thompson - Office Manager

Re: Loan #128939 - Moser

Dear Mr. Thompson:

We have your letter of June 18th in reply to our request of June 12th, regarding a water permit issued, or rather applied for, by Mr. Earl Moser of Aberdeen, Idaho.

We note from your letter that you are unable to locate this permit and your request for the number of same.

Mr. Moser did not keep a record of the number assigned to the application, which he submitted and, therefore, we cannot advise you as to this number. In talking to Mr. Moser it seems that he originally had applied for a permit covering the NE $\frac{1}{4}$ of Section 23, township 6 South, range, 30, E.B.M. The application was returned and he filed a new application which was likewise returned, but has since been sent back to your office with the corrections supposedly made. We assume that under the circumstances you would have assigned a number to this permit application. We understand that the permit has not actually been confirmed, and Mr. Moser asked that the permit when issued be sent to this office to expedite closing the real estate loan.

We realize that we are asking considerable of your office in bothering you to accommodate us in this manner. We very much appreciate your co-operation and wish to thank you in advance for the courtesy of looking this up for us.

Yours Truly,
J. N. Marshall

Dear Sirs:

Re: Loan #128939 - Moser
Earl

Mr. Moser was in our office today and told us that he had returned his State of Idaho Water Permit to your Department for amendment.

We are making a loan to Mr. Earl Moser of Aberdeen, Idaho, and one of the requirements of the commitment is that Mr. Moser furnish our office with a State of Idaho covering well located in the NE $\frac{1}{4}$ of Section 23, township 6 south, range 30, E.B.M.

Mr. Moser requested us to write you and request that you forward this permit direct to our office in order to facilitate the closing of this loan.

Thanking you, I am

Yours truly,

J. N. Marshall
J. N. MARSHALL
Assist. Loan Agent.

JNM:mmj

26947

June 6, 1957

Mr. V. Earl Moser
Aberdeen
Idaho

Dear Mr. Moser:

We return your Application for Permit to Appropriate the Subterranean Water of the State of Idaho for the following additional information.

Please answer questions 7 and 8. Generally speaking, said works consist of a well, pump and ditches. In answering question 8, give the approximate estimated cost of the works.

We are not quite sure of the land of which is to be irrigated. We assume it is the NE $\frac{1}{4}$ of Section 23, Township 6 South, Range 30 East, B.M. If this is correct, please indicate it on the tabulation on the second page (question 12). In the column of the NE $\frac{1}{4}$ show the acres you propose to irrigate in each quarter section of the NE $\frac{1}{4}$.

Also, answer question 13.

If this filing is made in connection with a Desert Land Entry, please so state under "Remarks".

You failed to send the filing fee for the said application which is \$5.75. Please remit at the time you return the application.

Providing this application is being made in connection with a Desert Land Entry, the Bureau of Land Management requires two copies of the approved application for permit, one of which is certified. The fee for these copies is \$2.00. This will make a total fee of \$7.75.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Legal Notice
NOTICE OF PERMIT OF
COMPLETION OF WORKS
and

APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 9th day of May, 1958, at Aberdeen, County of Bingham, State of Idaho, before Elmer Isaak, Notary Public, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-26947 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person holding said permit are H. Kenneth Westfall and F. L. Westfall, Aberdeen, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.2 cubic feet per second.

3. The use to which water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The point of diversion of said water is N $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 23, Twp. 6 South, Rge. 30 E.B.M.

5. The place where said water is used is NE $\frac{1}{4}$, Section 23, Township 6 South, Range 30 E., B.M.

6. The date of priority which said user is prepared to establish is June 12, 1957.
