Idaho Falls, Idaho 83401

Dear Mr. Johnson:

Pursuant to my recent telephone call I am enclosing herewith the application for transfer of water right, together with our check in the amount of \$30.00. The application has been signed by Jess Croft in order that a water right presently applicable to the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 32, Township 3 North, Range 36, EBM, can be transferred to the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 5, Township 2 North, Range 36, EBM.

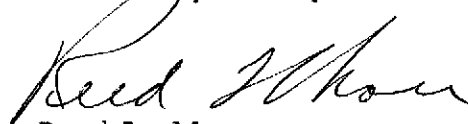

It is my understanding that you will process this here at this office and then forward it to the state and if approved, they will furnish to Mr. David Croft (whose address is: Route #4, Idaho Falls, Idaho, 83401), the certification of the approval of the transfer.

I have also confirmed from documents in my file that a corporation known as Croft & Reed, Inc., holds a water right covering the forty acres from which this right is being transferred (SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, Township 3 North, Range 36, EBM) with a priority date of about 1961. Therefore, everything should be in proper order between the two parties involved.

Thank you for your help.

Very truly yours,

ATTENTION: Stanley E. Gagor

Dear Mr. Gagor:

Pursuant to your letter of February 16, 1971, we wish to advise you of the status of the above referenced permits. Water right number G-29667/35-2661 has been licensed; therefore, we could not accept an assignment of this water right. We are of the opinion that once a water right has been licensed, it is no longer personal property, but is appurtenant to the lands described in the license and whoever holds title to the land would have the water right.

Water rights number G-26876/35-2502 and G-32588/352799 are still in the permit stage and could be assigned; however, the licensed right will have to be deleted from the assignment. We are, therefore, returning the original assignment and a new assignment for your use in this matter.

If you should have any further questions, please advise.

Before these proofs can be made, the statutory requirement is that a Notice of his intention of proof be published once a week for four consecutive weeks in the County newspaper. Dear Mr. Merrill:

Recently we mailed to you an Application for Amendment to the land list of Permit No. G-26876 (Jess Croft). In checking further, we find that the amendment did not correct the original error that was made in the Application for Permit.

It is impossible for Section 32 to lie adjacent and directly north of Section 5 and both be in Township 2 North. Therefore, we have enclosed one of the copies of the original sketch maps which you submitted with the original Application for Permit and ask that you indicate, directly to the right of each section, the township in which each section lies. Also, enclosed is another Application for Amendment to the land list which needs only a change in the Township of either Section 32 or Section 5.

Please give this matter your prompt attention and return the enclosures to this department as soon as they are completed.

RE: Permit No. G-26876

Mr. Jess Croft
Idaho Falls, Idaho

Dear Mr. Croft:

In Permit No. G-26876 which we returned to you recently it appears that you made an error in making the land list. You showed the land to be in Sections 5 and 32, Township 3 North and Range 36 East B. M.

If this is correct, the land in Section 5 lays 6 miles North of the land in Section 32. Therefore it seems possible that the land in Section 5 would be in Township 2 North Range 36 East B. M. rather than Township 3 North, Range 36 East B. M.

If our assumption is correct, an amendment to the land list is necessary and we enclose a form for that purpose.

Please fill out the Application for Amendment and return to this department for approval of the State Reclamation Engineer.

Very truly yours,

MARK R. JULE
