APPROVAL OF STATE RECLAMATION ENGINEER

I, Geo. N. Carter, State Reclamation Engineer of the State of Idaho, HEREBY APPROVE the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-26875. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Gentlemen:

Following is a brief of all ground water filings in Jefferson County in the name of Charles E. Browning and J. Ed Browning and Son, Inc.

G-25349

Licensed on January 13, 1956 to Charles E. Browning - for 4.0 c.f.s. -
Priority January 10, 1955 - Appurtenant to NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 30, T. 4 N., R. 37 E.
Point of Diversion - SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 30, T. 4 N., R. 37 E.

G-25582

Licensed on July 10, 1957 to Charles E. Browning - for 4.0 c.f.s. -
Priority April 7, 1955 - Appurtenant to W $\frac{1}{2}$, Sec. 32, T. 4 N., R. 37 E.
Point of Diversion in center of W $\frac{1}{2}$, Sec. 32, T. 4 N., R. 37 E.

G-26875

Filed April 24, 1957 for 6.4 c.f.s. from a well to be drilled in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 33, T. 4 N., R. 37 E. and made appurtenant to the NE $\frac{1}{4}$, Sec. 33, T. 4 N., R. 37 E. Proofs were made on September 10, 1957 by Tamco Inc. and inspection, as required by law, was made on May 14, 1958 and report turned in.

A copy of the enclosed letter advising that the point of diversion be amended, and that on receipt of the amendment and statutory fees license would be issued, was sent to A. A. Merrill July 8, 1958.

There is nothing in the files that shows any action was taken following this letter.

Next of importance regarding this permit was your letter of June 11, 1959 in

26875

Page 2 - continued

which you requested it be amended to include additional lands and that it be assigned to J. Ed Browning and Son.

Later, on September 17, 1959, an assignment from Tamco, Inc. to J. Ed Browning and Son, Inc. was received in this office and recorded in Book 95 of Permits at Page 26875 on October 27, 1959. The assignment was then sent to Mr. A. B. Wheeler, Executive Vice President of the Bank of Idaho, Box 1009, Boise, Idaho

This permit manifestly cannot be licensed for additional lands requested nearly two years after the proofs were made.

The fees and amendment to the point of diversion should be submitted and this permit brought to license as is, and then transfer of the water to additional lands be made by use of Statutory Provision 42-222, Idaho Code. It can be brought to license in the name of J. Ed Browning and Son, Inc. The application for amendment to the point of diversion may be signed by St. Clair, St. Clair and Hansen as agent.

G-28008

Filed April 15, 1959 in the name of Tamco, Inc. for 6.4 c.f.s. - Appurtenant to the S $\frac{1}{2}$ Sec. 33, T. 4 N., R. 37 E., with point of diversion in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of said Sec. 33.

This was assigned from Tamco, Inc. September 17, 1959 to J. Ed Browning and Son, Inc. A copy of the assignment was sent to A. B. Wheeler, Executive Vice President of the Bank of Idaho, Boise. The permit was also sent to Mr. Wheeler.

Proofs are due July 9, 1964.

G-28009

Filed April 15, 1959, for 6.4 c.f.s. - Appurtenant to the N $\frac{1}{2}$ Sec. 34, T. 4 N., R. 37 E. with point of diversion in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 34, T. 4 N., R. 37 E.

Assigned from Tamco, Inc. September 17, 1959.

Proofs are due July 9, 1964.

There has been considerable correspondence regarding these permits. If this does not fully explain do not hesitate to write me regarding this.

Yours truly,

Assigned from Tamco, Inc. on Sept. 17, 1959.

Proofs were submitted on Sept. 10, 1957 and in due process, was examined

by ENH, on May 14, 1958. Letter asking for an amendment of P. D. and request for c/w & license fees was sent to Attorney A. A. Merrill, Twin Falls on July 8, 1958. Nothing further was heard from either agent or holder until Attorney Robert W. St. Clair wrote on June 11, 1959 regarding two additional application by Tamco.

Also mentioned was a request to amend land list of G-26875 to include additional new land. Ralph Thomas answered this letter on June 17, 1959 which is filed in G-26875 folder.

Nothing further developed until we received an assignment of G-26875 from Tamco, Inc. to J. Ed Browning & Son, Inc. which was duly transmitted to A. B. Wheeler, Exec. Vice-President of Bank of Idaho, Boise, on Oct. 28, 1959, after being recorded in this office.

This is the last item on record regarding G-26875 in our files. This permit is due on May 14, 1962.

G-28008 -

Filed April 15, 1959, for 6.4 c.f.s. appurtenant to the S $\frac{1}{2}$, Sec. 33, 4N-37E
P. D. in NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 33 - 4N-37E

Assigned from Tamco, Inc., Sept. 17, 1959, after considerable correspondence about errors in application.

This permit is due July 9, 1964

Dear Mr. St. Clair:

Enclosed are form for assignment of permit form for amending the land list, form for amending point of diversion, and your copy of Permit No. G-26875.

In the legal notice, depositions of holder and two witnesses and the report of the field engineer from this office the only land described is the NE₁, Sec. 33, Twp. 4 N., Rge. 37 E. The Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$16.00) would have been issued last summer if the fees had been paid. An amendment to the point of diversion from the NW₁NE₁, Section 33 to the SE₁NW₁ of Section 33 is required.

The additional land (SE₁, E₁SW₁, Sec. 28, T. 4 N., R. 37 E.) can be included in the certificates by withdrawing the proofs of completion of works and beneficial use of the water made September 3, 1957, filing amendment to the land list and then by going through regular procedure for proving completion of works and beneficial use of the water on the amended land list. Or, the land to be irrigated can be changed to include the additional land after the certificates have been issued, by procedure under Idaho Code, 12-226.222

There is no assignment of this permit in this office, from Tanco, Inc. The Bank assignment form should be completed and filed in this office. The fee for recording an assignment is \$0.50.

Permit No. G-26875

Attention: Geo. N. Carter, State Reclamation Engineer:

Dear Mr. Carter:

As requested in your letter of May 25, 1959, we are herewith enclosing the two Applications for permits, G-35830 and G-35831, now executed by Tamco, Inc., a corporation, by E. G. McCarty, its President, in accordance with your instructions. Sorry this has taken so long, but it was hard to get hold of Mr. McCarty to sign. He is, of course, authorized to sign them on behalf of the company.

We understand that there are assignments of these permits in your office, so that when you send them back you will show them to now be in the name of J. Ed. Browning & Son, Inc. We will appreciate receiving the completed permits back at your earliest convenience. Thanks very much.

Now, as to Permit No. G-26875. We are advised that the water from the well also waters the following described additional property, and J. Ed. Browning & Son, Inc. wants such property included by way of amendment in this Permit. The additional lands are:

The Southeast Quarter and the East Half of
the Southwest Quarter of Section 28, Township
4 North, Range 37, E.B.M.

This Permit is herewith enclosed for such purpose and also for the purpose of the assignment thereof to J. Ed. Browning & Son, Inc., which we understand you hold. If there is something additional for us to do relating to the assignment, kindly advise, but be sure and make the assignment effective at any rate.

Thanking you for your kind attention, we are

Very truly yours,

Re: Permit No. G-26875

Mr. A. A. Merrill
Attorney
Earl Building
Idaho Falls, Idaho

Dear Mr. Merrill:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-26875, Tanco, Inc., shows the deep well pump is capable of conveying 208 miners' inches of water for irrigation of 320 acres and that the point of diversion (well) is located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 33, Township 4 North, Range 37 East, B.M. The record of the permit describes the point of diversion as located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 33, therefore, it is necessary that the permit be amended. We enclose an application for amendment to point of diversion for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totalling \$21.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (sixteen dollars--fee based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of April 24, 1957, to the use of 4.16 second feet (208 miners' inches) of subterranean water, with the point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 33, for irrigation of 320 acres in the NE $\frac{1}{4}$ of Section 33, Township 4 North, Range 37 East, B.M.

Tamco, Inc.,
Idaho Falls, Idaho

Attention: E. G. McCarty
President

Dear Mr. McCarty:

We acknowledge receipt of the Deposition of Holder in the name of Tamco, Inc., and two witnesses, also affidavit of publication in the Rigby Star, all submitted in proof of Completion of Works and Application of water to Beneficial Use on Permit No. G-26875.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

RE: Permit No. G-26875
Tamco, Incorporated

A. A. Merrill
Counselor and Attorney at Law

Idaho Falls, Idaho

Dear Sir:

We have your letter of July 2nd, stating that the Tamco, Incorporated is prepared to make proofs of Completion of Works and Beneficial Use on their Permit No. G-26875.

Before these proofs are made, the statutes require publication of a Notice once a week for four weeks in a county newspaper. This Notice should be made in duplicate on Form 36, enclosed, setting the time and place and naming the Notary public before whom the proofs are to be made.

The proofs may be made at any place convenient for the Permit holder and his two witnesses but the date must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this Department together with Form 11 which is his authorization for us to have the Notice published at his expense in the designated county newspaper.

We shall then send a copy of the Notice to the newspaper with instructions in regard to publishing and shall send you the forms of depositions to be executed by the Tamco, Incorporated and their two disinterested witnesses in making these proofs.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
