Dear Mr. Hunsaker:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in The Daily Bulletin, all submitted in proof of completion of works and beneficial use on Permit No. G-26753.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Sir:

Thank you for your letter of May 17th. The lands affected by this permit are located in Township Two South, of Range Thirty-three, East, and the entry of Township Three South in the depositions is a typographical mistake.

Will you please make the corrections in the depositions so as to make them conform with the permit and other records.

Gentlemen:

We find that due to some oversight in our office we neglected to forward the proof of publication of notice and the depositions of the holder of the above permit and his witnesses following the taking of proofs on April 6, 1960, and we therefore enclose the proofs herewith.

The proofs were taken on the day specified in the notice and the failure to forward the same is entirely the fault of this office.

When the proofs have been examined and if they are approved, subject to the field examination, will you please notify us.

Thank you.

Attention: H. William Furchner

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26753, in the name of LeRoy Furchner. Final Proof is to be made before you, as Notary on the 6th day of April, 1960, ~~1959~~, at 10:00 o'clock A.M., at Blackfoot, Idaho.

As of this date we have mailed the Notice to the Daily Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Dear Mr. Carter:

We enclose the notices for final proof
on the above permit.

Mr. Hunsaker has long since completed the
irrigation works and applied the water to beneficial
use. He also left the proof forms with us over a
month ago, and due to my oversight they were not
sent in until now.

If the notice can be sent on immediately for
publication, it can be published the first time on
Friday, March 11th.

Dear Mr. Hunsaker:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26753 are due not later than February 8, 1960.

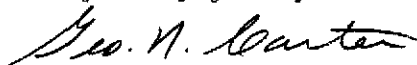

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.
