ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, Karl J. Dreher, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 67-02390 with the following:

CONDITIONS OF APPROVAL

1. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 67.
2. Water is diverted under this right from an unnamed stream into a ditch in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 34, T14N, R5W, B.M., and then injected into another unnamed stream known locally as Summercamp Creek. The injected water, along with Summercamp Creek water, is then (re)diverted in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 3, T13N, R5W, B.M., into a ditch that fills Fairchild Reservoir No. 1. Storage water is released from Fairchild Reservoir No. 1 into another unnamed stream, which is tributary to Sage Creek. Water is then diverted from Sage Creek (under Rts. 67-07732 and 67-07899) into a ditch and stored again in Fairchild Reservoir No. 2, where water is rediverted by pumps to mainlines for sprinkler irrigation.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. The storage of water under this right is contingent upon continued certification by the Department of Water Resources under the dam safety provisions of the Idaho Code, authorizing storage.
5. Rights 67-07732, 67-07899, 67-00638, 67-00639, 67-00644, 67-00645, 67-00646, 67-00647, 67-00648, 67-00649, 67-00650, 67-00651, 67-00652, 67-00653, and 67-02390 when combined shall not exceed the irrigation of 827 acres.

Witness my hand this 28th day of June, 2006.
