CONDITIONS OF APPROVAL AND REMARKS

1. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
2. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
3. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
4. Rights 35-02491, 35-07005, and 35-07648 are diverted through the points of diversion described above.
5. Rights 35-02491, 35-07005, and 35-07648 when combined shall not exceed a total diversion rate of 5.03 cfs from all points of diversion, a total annual maximum diversion volume of 1144.0 af, and the irrigation of 286 acres.
6. All water rights within Basin 35 are from connected sources of water in the Snake River Basin and shall be administered conjunctively.
7. These rights when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
8. The period of use for the irrigation described in this approval for Right 35-07005 may be extended to a beginning date of April 1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before May 1 is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than the date of this approval.

(Transfer 5575)

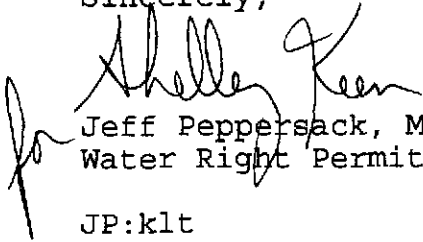

Dear Water Right Holder(s):

Enclosed is the copy of your approved Transfer of Water Rights for the above referenced water rights (Transfer 5575). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as an **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. **A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below.**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

CERTIFICATE OF SERVICE

All documents intended to be part of the Department record in connection with a preliminary order shall be served upon the representatives of each party of record. Every document filed with and intended to be part of the agency record must be attached to or accompanied by proof of service by the following or similar certificate.

I HEREBY CERTIFY (swear or affirm) that I have this day of _____, served the foregoing (name(s) of document(s)) upon all parties of record in this proceeding, (by delivering a copy thereof in person: (list names)) (by mailing a copy thereof, properly addressed with postage prepaid, to (list names))

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when (a) the petition for reconsideration is disposed of, or (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

RIGHT TO HEARING

Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department is otherwise provided by statute, any person aggrieved by any decision, determination, order, or action of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the Department, who is aggrieved by a denial or conditional approval ordered by the Department, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the Department to contest the denial or conditional approval upon filing with the Department, within fifteen (15) days after receipt of the denial or conditional approval, a written permission stating the grounds for contesting the action by the director and requesting a hearing.

APPEAL OF FINAL ORDER TO DISTRICT COURT

If a preliminary order becomes final, any party aggrieved by the final order or orders previously issued in the case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which (a) a hearing was held, or (b) the final agency action was taken, or (c) the party seeking review of the order resides, or (d) the real property or personal property that was the subject of the agency action is located. The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. See Sections 67-5270 through 67-5273, Idaho Code.

Notice is hereby given that John A Engleson, PO Box 1304, Pocatello ID 83204, has applied to the Department of Water Resources to change the place of use of a groundwater source. The rights sought to be changed are evidenced by SRBA Recommendations and recorded as follows:

SRBA Recommendation No.:	35-02491	Source: Groundwater
Amount:	2.52 cfs	Priority: 01/24/1957

SRBA Recommendation No.:	35-07005	Source: Groundwater
Amount:	0.88 cfs	Priority: 12/14/1967

SRBA Recommendation No.:	35-07648	Source: Groundwater
Amount:	1.63 cfs	Priority: 11/24/1976

Point(s) of Diversion: SESWSE SEC 20 T02S R32E, BINGHAM COUNTY
NWNWSW SEC 28 T02S R32E, BINGHAM COUNTY

The water is used for irrigation of 286 acres within SEC 20, 28 and 29 T02S R32E, B.M.

TO BE CHANGED AS FOLLOWS:

The applicant is drying up 6 BLM trespass acres in the NWNW Sec 28 T02S R32E and putting these acres on his own ground in Sec 20, 28 and 29 T02S R32E.

Any protests against approval of the proposed change must be filed with the Idaho Department of Water Resources, 900 N Skyline Dr., Idaho Falls, ID 83402, together with a protest fee of \$25 on or before November 22, 1999. The protestant must also send a copy of the protest to the applicant.

RE: Transfer Request from John Engelson - SRBA Claim #s 35-07648, 35-07005 & 35-02491

Dear Mr. Meyer:

By this letter I state that I have the authority to act on behalf of the United States, Department of Interior, Bureau of Land Management (U S D.I., BLM), with myself as its agent, to the matters discussed herein. I understand that John Engelson wishes to transfer water under the above water rights from federal public property to land which he owns as private property. The federal public property legal description is as follows:

T.2S, R. 32E, S.28 NWNW (6 acres)

I understand that the Idaho Department of Water Resources cannot complete such a transfer of water under a water right without the notarized consent of the land owner where the water right describes land not owned by the transfer applicant.

On behalf of the United States and the U S D.I., BLM, my notarized signature below provides the necessary consent to facilitate the transfer, which will result in the discontinuance of water being applied to federal public land. The United States' non-opposition to the application for transfer does not represent recognition by the United States of the claim elements nor their validity.

If there are questions regarding any statements above, please do not hesitate to contact Deena Teel at (208) 524-7533 or at the address provided above.

Dear Mrs. Faupell:

We have the report of the field examiner who re-checked the amount of water used beneficially under the above permit on 286 acres of land in the S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 20; SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 28; NE $\frac{1}{4}$, Sec. 29, T. 2 S., R. 32 E., B. 1.

The report shows that 2.52 cubic feet per second was being used through seven sprinkler lines compared to 2.32 cubic feet per second through five sprinkler lines in the former inspection. There is still a very large amount of water wasted in leaky pipe lines.

The Certificate of Completion of Works and License and Certificate of Water Right can be issued for the above amount of water to the land described upon payment of \$21.00 statutory fees.

We understand that Ellis Cox, Shelley, Idaho is buying this property. You can assign the permit to him by completion of the enclosed form. There is a fee of \$0.50 for recording an assignment of a permit.

Mrs. Faupell has made proofs and the works were checked by our
field engineer. The amount used beneficially on June 21, 1961 was 2.32 c.f.s.
however there was a heavy loss of water through leaks, etc. The works will

Dear Mr. Jones:

We received the check for \$21.00, statutory fees, with your letter of September 13th.

The field engineer reports that only five sprinkler lines were in place and that no more laterals were seen. The amount of water, 116 miners inches, was based on the average pressure on each lateral line and sprinkler manufacturer's table of capacity. There was considerable leakage in the pipe joints which was not considered, as the leakage water was not really being used beneficially, in fact, it flooded a considerable acreage.

The pumping system, and probably the well, does have a greater capacity, however it is the water used beneficially which can be licensed.

The Certificates of Water Right can be held, if desired, for another inspection next summer. The additional inspection would not do any good unless the system is operated properly and more laterals are used.

Kindly notify this office at your earliest convenience if another inspection is desired. No notice will be given of the date of the inspection next summer.

Dear Mr. Anderson:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26721, in the name of Jessie T. Faupell. Final Proof is to be made before you, as Notary on the 28th day of November, 1959, at 10:00 o'clock A.M., at Blackfoot, Idaho.

As of this date we have mailed the Notice to the Daily Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mr. Anderson:

The last amendment to the point of diversion shows it to be
SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 20, T. 2 S., R. 32 E., B. N.

There has not been an amendment to the land list. The
original application shows W $\frac{1}{2}$ N $\frac{1}{2}$, W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 28; NE $\frac{1}{4}$, Sec. 29, T. 2 S.,
R. 32 E., B. M.

From wording in the last amendment to the point of diversion
it is probable that the lands may have been changed to some extent. A
form for amending the land list is enclosed along with the Forms 36 and

Dear Mr. Anderson:

In reply to your letter of February 16, 1957, in connection with the application for permit by Jessie T. Faupell, we have not as yet mailed copies of the permit to the Bureau of Land Management because of an excessive amount of work in this office at this time. However, we assure you they will be mailed within a few days and also the permit will be mailed to you. I have contacted the Land Office in regard to this matter and they have advised me that a little more time would not make any difference to the Desert Filing of Mr. Faupell.

Re Application of Jessie T Faupell
for Permit to appropriate water
your receipt No. G-2410.

Dear Mr. Kulp:

On the 24th of January 1957, I filed above application personally in your office and paid for a certified copy and an extra uncertified of permit.

The front office promised me that the copies would be forwarded to the United States Land Office at Boise, for filing in connection with a Desert Land Application by Mrs. Faupell. I have not received any notice that the permit was issued, or that the copies were filed. I gave the address of the applicant for the permit to which the permit was to be forwarded as "Jessie T. Faupell, c/o J.H.Andersen, Blackfoot, Idaho.

I wonder if you would please try and expedite this application as I do not want the desert land entryman to lose out on her application as she purchased a relinquishment in order to file.

Yours very truly,
