INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G 26669

RECEIVED
SEP 1 11957

Department of Reclamation

Comes now William Funk and represents to the State
Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G 26669.

That the point of diversion is described in said permit as being
located NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 24, Twp. 6, So., R. 30, EBM.

That he now requests that the point of diversion be changed to a
point located Lot 4 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$) of Sec. 24, Twp. 6, So., R. 30, EBM.

That his reasons for desiring to make such change are as follows:
Well driller got over the line into the Lot 4

That no one will be injured by such change, and that such change
will be made at Permit Holder's own risk.

Signed at American Falls, Idaho,, this 10 day of September 19 57.

William Funk

Date of receipt at Department of Reclamation September 11, 1957

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho,
hereby approve the above and foregoing application for amendment to Permit to
appropriate the Public Waters of the State of Idaho, No. G-26669. This
approval constitutes a new permit and is issued as an amendment to the original
permit, to which it refers and of which it becomes a part, and said application
is approved only insofar as the rights of others will not be adversely affected
thereby.

Re: Permit No. G-26669

Mr. William Funk
American Falls, Idaho

Dear Mr. Funk:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26669 shows the well is capable of conveying 156 miner's inches, or 3.12 c.f.s. of water for irrigation of 176 acres.

Upon receipt of the statutory fees, totaling \$13.00, we will issue the Certificate of Completion of Works (fee \$5.00) and the license and Certificate of Water Right (fee \$8.00 - based at the rate of \$2.00 for each 40-acre subdivision) confirming the right with priority of December 24, 1956, to the use of 3.12 second feet of subterranean water, with the point of diversion in the SE¹/₄SE¹/₄ (Lot 4) Sec. 24, T. 6 S., R. 30 E., B. M. for the irrigation of 168 acres in the SE¹/₄, Sec. 24, T. 6 S., R. 30 E., B. M.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. G-26669

Mr. William Funk
Route #1
American Falls, Idaho

Dear Mr. Funk:

We acknowledge receipt of the Deposition of the holder and two witnesses, also affidavit of publication in The Aberdeen Times, all submitted in proof of completion of works and beneficial use on Permit No. G-26669.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. H. CARTER

Permit No. G 26669

Proof of Application of Water to Beneficial Use

Deposition of Holder and Completion of Works

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. William Funk, Route 1, Am. Falls, Idaho, farmer, Route 1, American Falls, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G 26669, dated Jan. 9th, 1957; priority, Dec. 24, 1956

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. well in northwest corner of SE $\frac{1}{4}$ of SE $\frac{1}{4}$, Sec. 24, Twp. 6, So., R. 30, EBM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. well and sprinkler system

Amount

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. irrigation,

SW $\frac{1}{4}$ SE $\frac{1}{4}$ 47.55 acres

NW $\frac{1}{4}$ SE $\frac{1}{4}$ 40 acres

NE $\frac{1}{4}$ SE $\frac{1}{4}$ 40 acres

NE $\frac{1}{4}$ SE $\frac{1}{4}$, 47.45 acres; a total of 175 acres in SE $\frac{1}{4}$ 24, 6, So., R. 30, E. B. M.

Cultivated, planted to wheat in 1958.

26669

RW

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 3.5 second feet ✓

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water was diverted April 24th, 1958; and irrigation continued through July 5th, 1958; by well and sprinkler system, total ~~xxxx~~ amount 3.5 second feet

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none ✓

(Sign) William Fursk

Permit No. G 26669

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Joe F. Allen, 40, American Falls, Idaho, farmer, Route 1, American Falls, Idaho.

Ques. 2. Are you acquainted with William Funk, the holder of Permit No. G 26669? How long have you known him and where does he reside?

Ans. Known him about 15 years. He lives on Route 1, American Falls, Idaho

Ques. 3. Have you read or heard read said Permit No. G 26669, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well near northwest corner of SE $\frac{1}{4}$ Sec. 24, Twp. 6, So., R. 30, E. B. M., Bingham County, Idaho ✓

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. about 1550 gallon per minute or 3.5 second feet

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. about 1550, estimated amount by pressure and number of sprinklers

26669
3/7/58

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, 175 acres in SE $\frac{1}{4}$ Sec. 24, Twp. 6, So., R. 30, EEM

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. dry land, sandy loam, 3.5 second feet

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Saw it April 24th, 1958, and every week or thereabouts thereafter till about July 4th, 1958

(Signed) Joe F. Allen

American Falls, Idaho

Dear Mr. Loofbourrow:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use, under Permit No. G-26669, in the name of William Funk. Final proof is to be made before you as Notary, on the 11th day of August, 1958, at 2:00 P. M.

As of this date, we have mailed the Notice to the Aberdeen Times, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by the Permit Holder and his two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G 26669

RECEIVED
SEP 11 1957

Dept. of Reclamation

Comes now William Funk and represents to the State
Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G 26669.

That the point of diversion is described in said permit as being
located NE 1/4 of the SW 1/4 of Sec. 24, Twp. 6, So., R. 30, EMM.

That he now requests that the point of diversion be changed to a
point located Lot 4 (SW 1/4 of SW 1/4) of Sec. 24, Twp. 6, So., R. 30, EMM.

That his reasons for desiring to make such change are as follows:
Well driller got over the line into the Lot 4

That no one will be injured by such change, and that such change
will be made at Permit Holder's own risk.

Signed at American Falls, Idaho,, this 10 day of September 19 57.

William Funk

Date of receipt at Department of Reclamation September 11, 1957

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho,
hereby approve the above and foregoing application for amendment to Permit to
appropriate the Public Waters of the State of Idaho, No. G-26669. This
approval constitutes a new permit and is issued as an amendment to the original
permit, to which it refers and of which it becomes a part, and said application
is approved only insofar as the rights of others will not be adversely affected
thereby.

Dear Mr. Funk:

We enclose Permit No. G-26669 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

Departmental receipt No. G-2378 was issued covering payment of the \$5.75 filing fee in connection with the above captioned permit, which is enclosed.

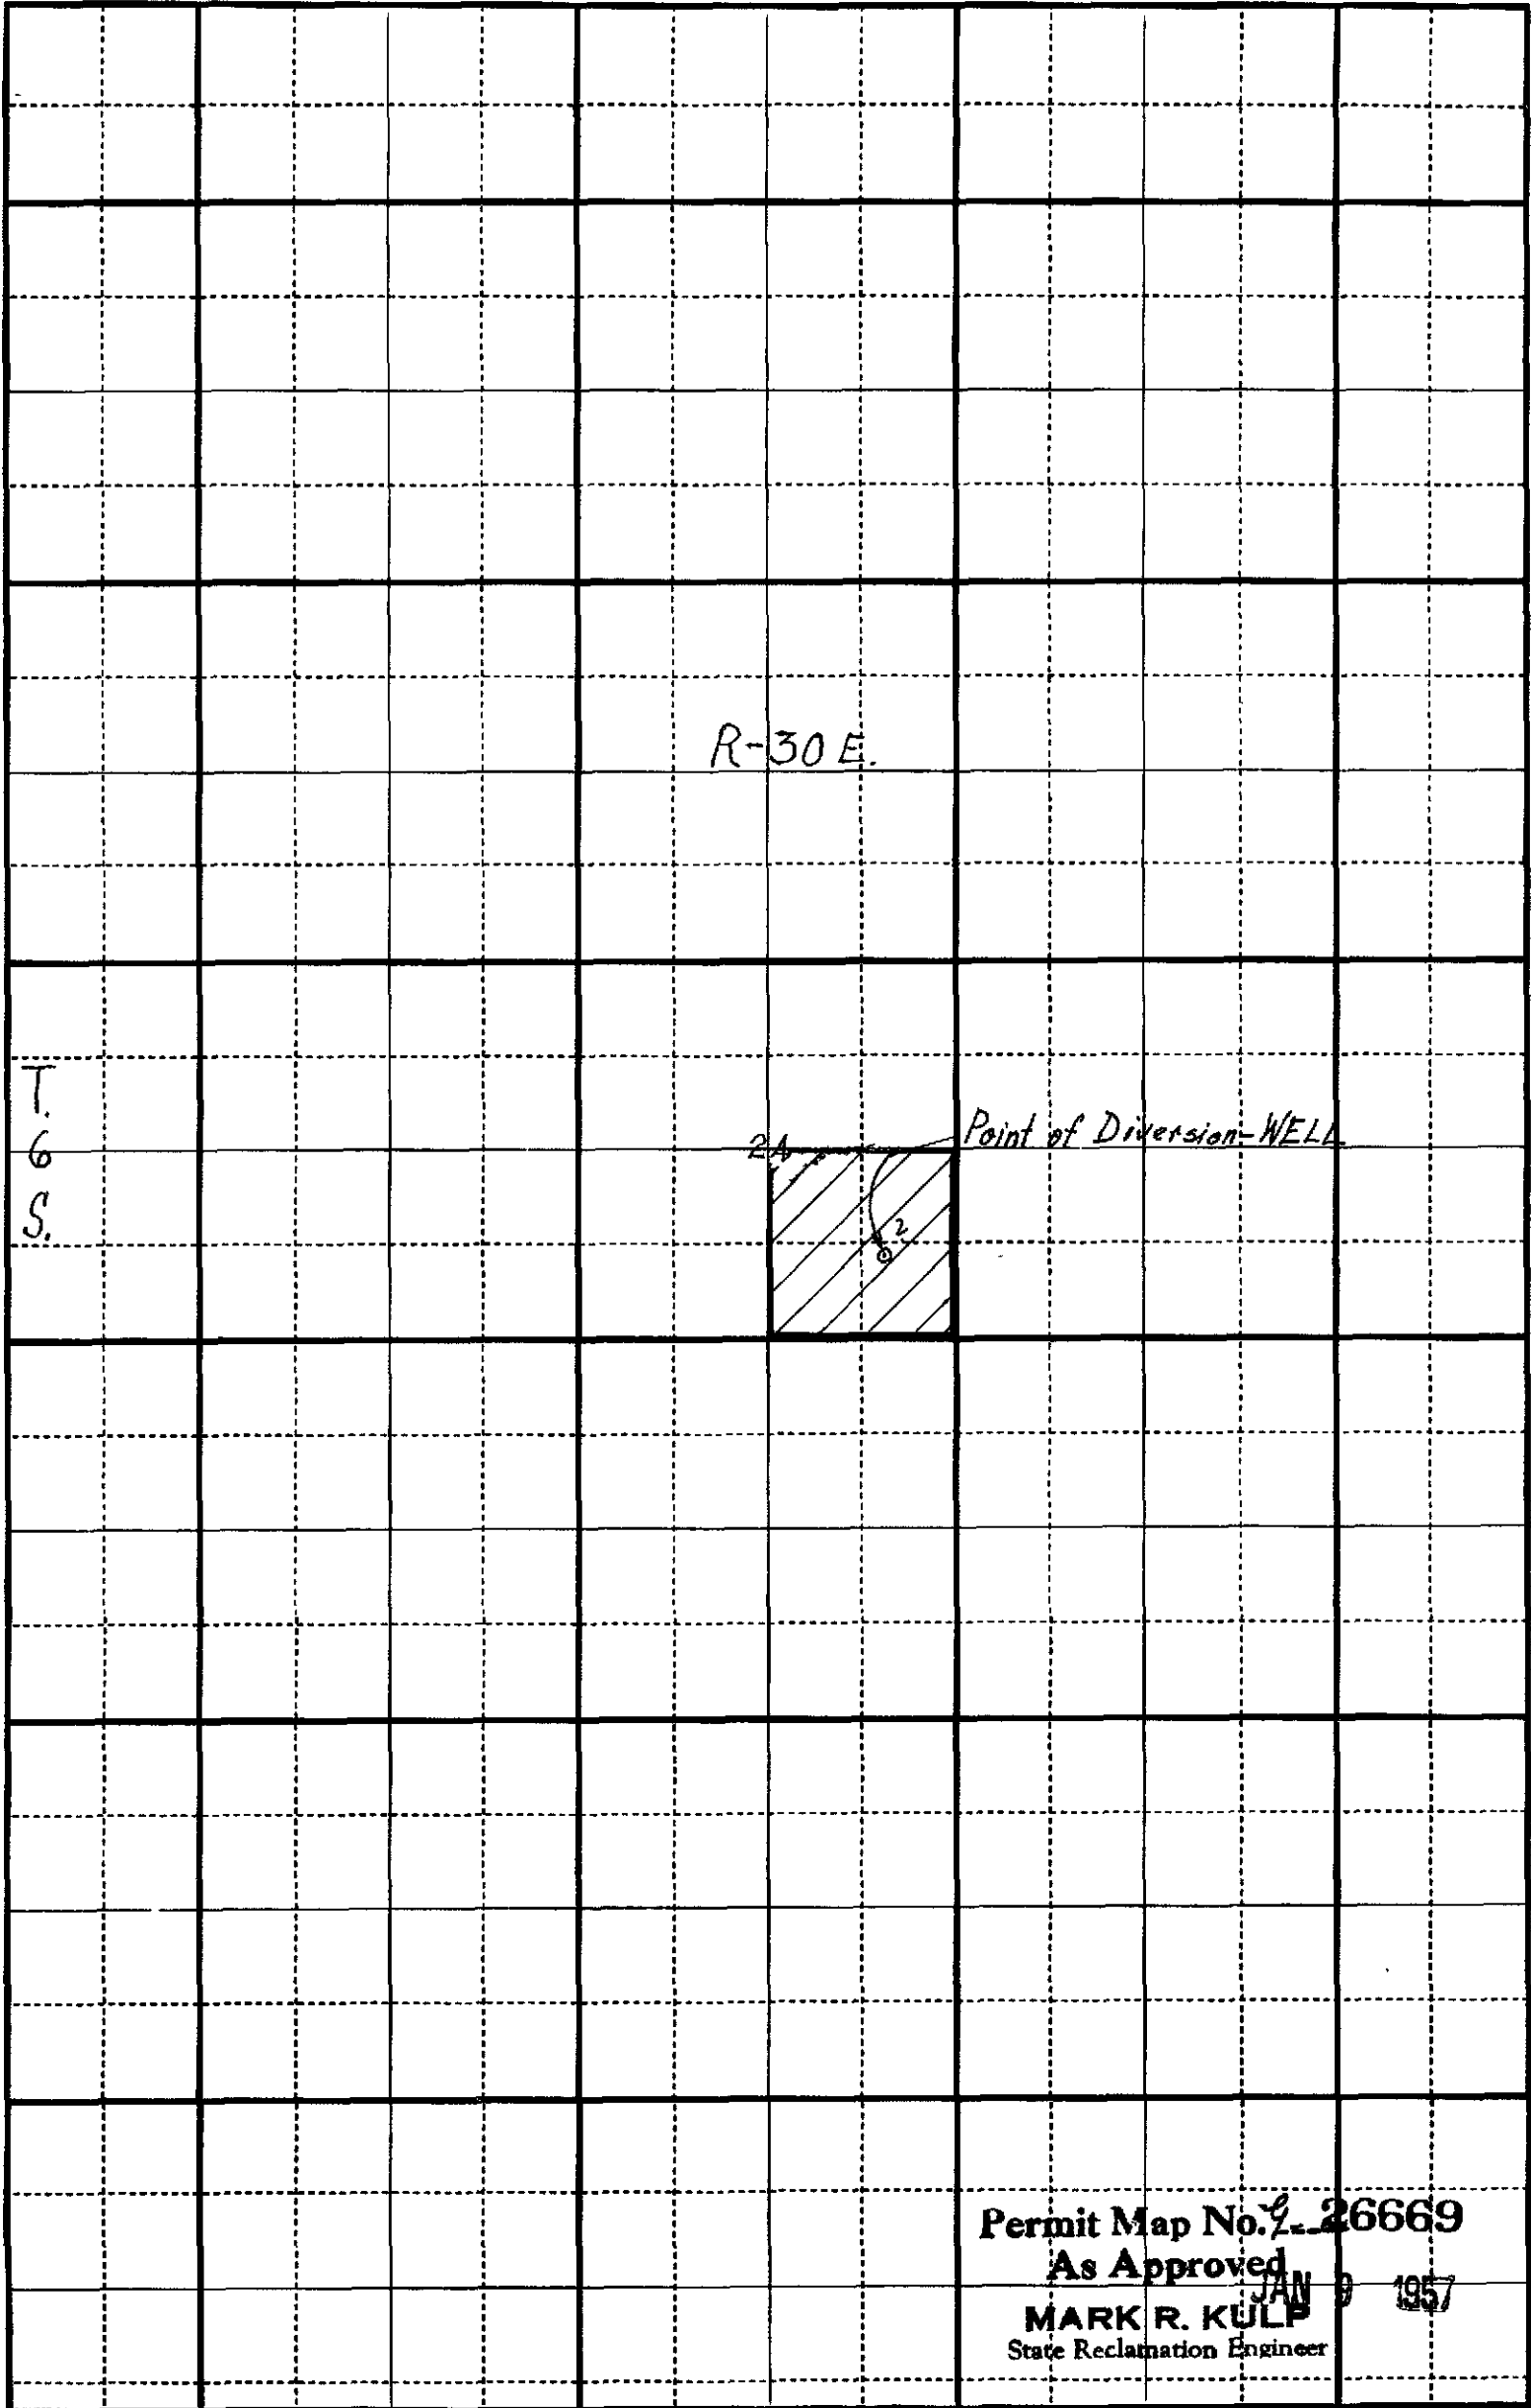

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Sir:-

We are filing a protest against the application for permit to appropriate the public waters of the State of Idaho in accordance with the provisions of Section 42-203, Idaho Code.

This Permit will allow the raising of the level of Priest Lake and thus destroy our property on the shore.

Yours truly,

MR. & MRS. C. DOWNEY

Dear Friend:

With reference to my letter to you of June 29th I am enclosing a copy of a letter from Mr. Fred H. Strong, Deputy Administrator of the Rural Electrification Administration in reply to my letter to Mr. Fredrick R. Hamlin of June 29.

When the desired information is received from the Rural Electrification Administration, it will be sent on to you at once.

With kind personal regards, I am

Sincerely yours,

Henry Dworshak
United States Senator

Project Number 2141
Northern Lights, Inc.
Letter from Governor of State of Idaho

Dear Sir:

Referring to our letter of October 26, we have gone up to Priest Lake and checked the levels being used by Washington Water Power Company with the established gage, and have checked the established gage with the reference B.M. for the old Outlet gage which is a standard U. S. G. S. reference plug on large boulder approximately half way between the old Outlet gage and the lake gage on the east side of the road on property belonging to Mr. Wait Hunziker.

We find the correct elevation of the zero of the Outlet gage, by the 1947 adjustment of the U.S.C. & G.S., to be 2434.54, which places it in exact agreement with the elevations formerly used on the 1923 datum and 1929 datums, allowing for adjustments made by the U.S.G.S. and U.S.C. & G.S. In other words the actual elevation of the zero of this gage is the same as that used in all of our studies for the City of Sandpoint on which License Number 885 was issued. However, we find that since those studies the Diamond Match Company has used a bulldozer to open the outlet of the lake so that the lake now goes considerably lower than in 1928 and 1929 when our former studies were made.

Also we find that this level agreed to by the Citizens Committee and fixed by your office appears to be at 3.0 on this gage or elevation 2437.54. Therefore, we are willing to amend our application and substitute that elevation for the 2439.74 shown on our Exhibit H and I, provided the logging interests do not require us to make the 1500 s.f. release required in License No. 885. If the logging interests have to be safeguarded, we will need an additional foot, or elevation 2438.54, for the purpose of driving logs, said release to be made during the log drive season, and the lake to be at elevation 2437.54 whenever the rear of the log drive has reached the mouth of Priest River. This will make the low elevation 2434.44 and give us 3.1 feet of storage for the storage release season and give 71,523 acre feet of useful storage during the storage release season. It is quite doubtful if we will be able to draw the water down to that elevation, and the lower limit will no doubt be set by economic considerations.

We would like to have you come up and go over the situation with us on the ground, and if you and the Citizens Committee agree, we will then amend our application with the Federal Power Commission and revise our Exhibit H and I to show elevations as agreed upon with you. On account of the complication of possible log driving, we believe that it will be necessary to include a proposed operational chart or operational schedule as an exhibit.

Yours truly,
NORTHERN LIGHTS, INC.

Applications for Permits

Dear Sir:

Enclosed herewith find two applications for permits conforming to their Application No. 2141 to the Federal Power Commission. We have before us your letter of May 7, 1951 and Mr. Beasley's reply of May 24, 1951.

We believe that the Governor of the State of Idaho will be willing to allow us to regulate the waters of the State of Idaho for the production of power in the State of Idaho for the use of the citizens of the State of Idaho, providing it accomplishes the purposes now being accomplished by regulation by the Washington Water Power Company. We note that on permit R-692 issued to Northern Idaho Rural Electrical Rehabilitation Association, which is the predecessor of Northern Lights, Inc. the Governor has apparently waived any objection to our proposed regulation. The present application proposes the same regulation.

We will be glad to go over these sites with you, as well as the proposed regulation of the lake, at some time in the near future.

Enclosed herewith find check for \$100.00 attached to application for storage permit for Site No. 3 and check for \$104.75 attached to the use permit for Site No. 4.

Yours truly,

NORTHERN LIGHTS, INC.
