APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 34510

Permit No. G- 26607

District No.

1. Name of Applicant: DELVIN V. ELLIS
Postoffice address: Rt. #2, Blackfoot County: Bingham State: Idaho
2. Quantity of water claimed: 3.2 cubic feet per second
 - (a) Rate of withdrawal in cubic feet per second. 3.2 or Idaho
Miners' inches 160 or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean from a well
4. Location of point of diversion or well is in the SE 1/4 of the NW 1/4 of Section 22
Twp. 6 S, Rge. 30 E, B.M., County of Bingham
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the 1/4 of the 1/4 of Section, Twp.
Rge., B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section, Twp., Rge., B.M.
7. Kind of works: Install Pump, Pipe & Portable Sprinkling Equipment
8. Estimated cost of works: \$ 16,000.00
9. (a) Is reservoir to be used?
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 3 years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) 3.2 (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

NOV 19 1959
Department of Reclamation

Permit No. G-26607

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Clarence Waldemar Poulson, Aberdeen, Idaho; Farmer, Aberdeen, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not applicable.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-26607; November 8, 1956; November 13, 1956.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Underground. Point of Diversion-NW corner of SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 22, Township 6 South, Range 30, East of the Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Deep well 260 feet, 210 feet to water, 100 horse power Winthroath pump; 18 inch diameter well with approximately 10 feet of 18 inches casing. Pump discharges approximately 160 miners inches or 3.2 cubic feet per second. All sprinkler irrigated with 8 and 6 inch main lines and 4 inch laterals. There are 6 lines 33 lengths to each line. Nozzles are 5/32 and operating pressure is 35 to 40 lbs.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation: The entire 40 acres of each of the following legal subdivisions are irrigated: SE $\frac{1}{4}$ NW $\frac{1}{4}$ --- 38 acres of Potatoes in 1959; NW $\frac{1}{4}$ NW $\frac{1}{4}$ --- 38 acres in Wheat 1959; SW $\frac{1}{4}$ NW $\frac{1}{4}$ --- 33 acres of Potatoes and Wheat in 1959; SE $\frac{1}{4}$ NW $\frac{1}{4}$ --- 37 acres of Potatoes in 1959: The improvements as a direct result of said use are roads, irrigation system, potatoe cellar, box car grannary and storage shelter.

NE, NW. 2

G26607

RT

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Minimum water requirement is 1 miner's inch per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Not applicable.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. 1957, Well was drilled. 1958, irrigated full 160 acres; raised 130 acres of potatoes and 22 acres of mixed grain. 1959, irrigated 102 acres potatoes and 44 acres of wheat.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

(Sign)

Clarence Paulson

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Blackfoot, County of Bingham, State of Idaho, on this 17th day of November, A. D. 1959.

BOISE, IDAHO

RECEIVED
NOV 19 1959
Department of Reclamation

Permit No. G-26607

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Duane Lamar Poulson; 28 years of age; Aberdeen, Idaho; Farmer,
Aberdeen, Idaho.

Ques. 2. Are you acquainted with Clarence Poulson, the
holder of Permit No. G-26607? How long have you known him and where does
he reside?

Ans. Yes. I have known him all of my life. He resides in Aberdeen,
Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26607, and are you
familiar with its provisions and conditions?

Ans. Yes; Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Underground. Place of diversion is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 22,
Township 6 South, Range 30, East of the Boise Meridian. Water is
pumped with a 100 horse power pump and conveyed to place of use through
a sprinkling system.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. Approximately 3.2 cubic feet per second can be conveyed through
this system and I have seen that amount so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. Approximately 3.2 cubic feet per second. Through experience in
observing other wells in the same locality and by knowing the horse
power on the pump and the depth to water and the operating pressure
it is possible to estimate amount of flow.

26607

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use. 2. NE, NW

Ans. Irrigation: Used on the NW $\frac{1}{4}$ of Section 22, Township 6 South, Range 30, East of the Boise Meridian; In SE $\frac{1}{4}$ NW $\frac{1}{4}$ these are approximately 38 acres being cultivated but all 40 acres is irrigated. The same is true of NW $\frac{1}{4}$ NW $\frac{1}{4}$: In the SW $\frac{1}{4}$ NW $\frac{1}{4}$ 33 acres are being cultivated but all 40 is irrigated and in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ 37 acres are being cultivated but all (see below)

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Lava Ash or Portneif Silt Loam and requires approximately 1 miner's inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the land or works.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. In 1958 and 1959 I have witnessed the irrigation of crops (potatoes and wheat) on approximately 146 acres of the land above described.

(Signed)

Quane Lamar Paulson

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Blackfoot, County of Bingham, State of Idaho, on this 17th day of November, A. D. 1959.

Proof of Application of Water to Beneficial Use
Deposition of Witness ^{and Completion of Works}

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Douglas Delano Driscoll, I am 32 years old; I am a Farmer with my residence at Springfield, Idaho. My mailing address is also Springfield.

Ques. 2. Are you acquainted with Clarence Poulson, the holder of Permit No. G-26607? How long have you known him and where does he reside?

Ans. Yes, I have known Clarence Poulson at least 25 years.

Ques. 3. Have you read or heard read said Permit No. G-26607, and are you familiar with its provisions and conditions?

Ans. Yes I have read or heard of said Permit and I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of water supply is underground. Place of diversion is in the SE 1/4 NW 1/4 of Section 22, Township 6 South, Range 30, E.B.M. Water is pumped with a 100 horse power pump and conveyed to place of use through a sprinkling system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen the amount of approximately 3.2 cubic feet per second conveyed through this system.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Approximately 3.2 cubic feet per second. It is possible to estimate the amount of flow through my experience in observing other wells in the same locality and by knowing the horse power on the pump and the depth to water and the operating pressure.

G26607

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. NW $\frac{1}{4}$ of Section 22, Township 6 South, Range 30, E.B.M.

2 NE-NW In SE $\frac{1}{4}$ NW $\frac{1}{4}$ there are approximately 38 acres being cultivated, but all 40 acres is irrigated. The same is true of NW $\frac{1}{4}$ NW $\frac{1}{4}$: In the SW $\frac{1}{4}$ NW $\frac{1}{4}$ 33 acres are being cultivated but all 40 is irrigated and in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ 37 acres are being cultivated by all 40 irrigated. The improvements are (see below)

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

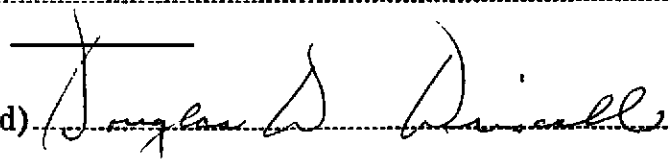

Ans. Portneif Silt Loam or Lava Ash. It requires approximately 1 miner's inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the works or the land.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have witnessed the irrigation of crops (potatoes and wheat) on approximately 146 acres of land in 1958 and 1959. The land is described above.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A.M., on the 17th day of November, 1959, at Blackfoot, Bingham County, State of Idaho, before Dean Williams, Notary Public, at 150 West Bridge Street, Blackfoot, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of underground water from a well and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G 26907 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Lawrence Foulson, Blackfoot, Idaho.
2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 12 cubic feet per second.
3. The use of which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.
4. The point of diversion of said water is SE 1/4, NW 1/4, Section 22, Township 8 South, Range 36 East of the Boise Meridian.
5. The place where said water is used is NW 1/4, Section 22, Township 8 South, Range 36 East of the Boise Meridian.
6. The date of priority which said user is prepared to establish is November 8, 1958.

Mr. Dean Williams,
Attorney at Law,
156 West Bridge
Blackfoot, Idaho.

Dear Mr. Williams:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26607, in the name of Clarence Poulsen. Final Proof is to be made before you, as Notary on the 17th day of November, 1959, at 10:00 o'clock A.M., at 156 W. Bridge St., Idaho.
Blackfoot,

As of this date we have mailed the Notice to the Daily Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Dear Sirs:

You recall I wrote to you recently and informed you that the above numbered permit is ready for final proof. The owner, Mr. Clarence Poulson, has mis-placed the permit which of course contains information needed to fill in the necessary forms.

Will you please send to me a copy of Mr. Poulson's water permit number G26607. If a copy of the entire permit is not available please send me the following information. The location of the well; the description of the land wherein the water will be put to beneficial use, the number of minor's inches or cubic feet which are included in the permit, and the date the permit was allowed.

Your prompt attention to this matter will be greatly appreciated.

Thank you,

Re: Permit No. G- 26607

Date: Sept. 1, 1959

Delwin V. Ellis
Route #2
Blackfoot, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26607 are due not later than November 13, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A.M., on the 17th day of November, 1959, at Blackfoot, County of Bingham, State of Idaho before Dean Williams, Notary Public, at 158 West Bridge Street, Blackfoot, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G 28607, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Clarence Poulson, Blackfoot, Idaho

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 12 cubic feet per second

3. The use of which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second

4. The point of diversion of said water is SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 22, Township 6 South, Range 30, East of the Boise Meridian.

5. The place where said water is used is NW $\frac{1}{4}$, Section 22, Township 6 South, Range 30, East of the Boise Meridian.

6. The date of priority which said user is prepared to establish is November 8, 1956
