Dear Mr. Driscoll:

In reply to your letter received October 31, accompanied by application for permit to file on the underground waters of the State of Idaho.

We observe that you have placed your application on a reservoir storage form which is the wrong form to use in filing on subterranean water. We are enclosing a form 3 which is the correct form for filing on subterranean water and will request that you place your application on said form and return to this department.

It will be necessary to fill out the form completely as possibly and also to furnish a sketch map in duplicate showing the location of the well, the lands to be irrigated by cross-hatching or coloring within each 40 acre subdivision, section, township and range.

We are also returning your check which you may resubmit with your corrected application.
