Att: Arnold T. Beebe

Dear Mr. Beebe:

In reply to your request of October 3rd, 1957, we herewith inclose two (2) sets of Form 36 and 11. In case Mr. Lankford is prepared to make final proof on both Permits.

Proofs on Permit No. G-23266 are due November 29, 1957, and on Permit No. G-26420 proofs are not due until July 13, 1961. However proofs on Permit No. G-26420 may be made at any time, providing all works are completed and water applied to beneficial use.

The amendments mailed in, have been approved and will be forwarded to you in the next few days.

Very truly yours,

Permit No. G-26420

Attention: Mr. Arnold Beebe

Dear Mr. Beebe:

In reply to your letter of September 23, 1957, in regard to the above captioned permits, we wish to state that the assignment of Permit No. G-23266 which misspelled Mr. Lankford's name has been corrected on the original record in this department. Therefore we do not think that any affidavit will be necessary as per your suggestion.

In studying over the land description described under Permits No.s G-23266 and Permit No. G-26420, we might suggest the following; that Permit No. G-23266 may be amended to include the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 13, together with the SE $\frac{1}{4}$ and the E $\frac{1}{2}$ of the SW $\frac{1}{4}$ of Section 14, since the W $\frac{1}{2}$ of the SW $\frac{1}{4}$ of 14 is not in crop at this time and ready to be proved up upon, we might suggest that Permit No. G-26420 be amended to include the W $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14, and exclude the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of 13. Providing that Mr. Lankford proposes to operate all his lands included in both permits, it might be well that he amend permit No. G-23266 to include all of the lands except the W $\frac{1}{2}$ of the SW $\frac{1}{4}$ of 14 which cannot be proved up on at this time, then amend Permit No. G-26420 to include all of the lands under both permits. This would give the holder of the Permit the right to distribute his water from either well in any manner he chooses, or where he chooses.

We are enclosing herewith some amendment forms for your use in case you wish to use them, also we will await hearing from you before we publish said notice for completion of works and beneficial use on Permit No. G-23266 until we hear from you whether you wish to amend same or not.

Very truly yours,

Dear Mr. Lankford:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Daily Bulletin, all submitted in Proof of Completion of Works and Application of Water to Beneficial Use, on Permit No. G-26420.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Beebe:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26420, in the name of Olen Lankford. Final proof is to be made before you, as Notary, on the 24th day of January, 1959, at 10:00 A. M., at 167 W. Bridge St., Blackfoot, Idaho.

As of this date we have mailed the notice to the Daily Bulletin, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date, and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear Mr. Beebe:

Our letter of June 18, 1958, was erroneous in regard to issuance of the Certificate of Completion of Works and the License and Certificate of Water Right under Permit No. G-26420 pending receipt of the fees. The Engineer's report had been completed under this permit at the same time he inspected for Permit G-23266, however, proofs of completion of works and beneficial use have never been made.

Enclosed are forms for the necessary advertising preliminary to making depositions of proof. If Mr. Lankford makes the proofs at this time we will retain the fees he remitted and issue the certificates as soon as the proofs are made but if he wishes to delay proofs until they are due which is July 13, 1961, we will refund his fees.

Dear Mr. Beebe:

Enclosed is the Application for Amendment to Permit No. G-26240 as approved by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 93 of Permits at Page 26240, amending the point of diversion as described on record to read as follows: "SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 14, Township 4 South, Range 31 East, B.M." This amendment should now be attached to the original permit to which it refers and of which it becomes a part.

As mentioned in our June 18, 1958 letter, upon receipt of the fees, the Certificate of Completion of Works and License and Certificate of Water Right will be issued under Permit No. G-26240.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-26420

RECEIVED
JUL 22 1958
Department of Reclamation

Comes now OLIN LANKFORD and represents to the State
Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-26420.

That the point of diversion is described in said permit as being located
SE 1/4 Section 14, Township 4 South, Range 31 East, B.M.

That he now requests that the point of diversion be changed to a point
located SW 1/4 Section 14, Township 4 South, Range 31 East, B.M.

That his reasons for desiring to make such change are as follows:

Change conforms to actual location of point of diversion.

That no one will be injured by such change, and that such change will be
made at Permit Holder's own risk.

Dear Mr. Beebe:

Our field engineer's report on inspection of completion of works and application of water to beneficial use under the terms of Permit No. G-26420 shows the well located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14, Township 4 South, Range 31 East, and that it is capable of conveying 147 miners' inches (2.94 c.f.s.) of water for irrigation of 265 acres. The location of the well is described on record of permit as being in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14, therefore, it is necessary that the permit be amended. We enclose an application for amendment form for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees totaling \$19.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (fee fourteen dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of May 16, 1956, to the use of 2.94 second feet of subterranean water, with the point of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14, for irrigation of 265 acres in the SW $\frac{1}{4}$ of Section 14; N $\frac{1}{2}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 23, Township 4 South, Range 31 East, B.M.

Enclosed is the Application ofr Amendment to Permit No. G 26420 as approved by the Acting State Reclamation Engineer and recorded in the Department of Reclamation in Book 93 of Permits at Page 26420 amending the list of land to read as follows: "W $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14, the N $\frac{1}{2}$ NW $\frac{1}{4}$ and 27 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 23, and the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14, all in Township 4 South, Range 31 East, B.M., Bingham County, Idaho " This amendment should now be attached to the original permit to which it refers and of which it becomes a part.

Attention: Arnold T. Beebe

Dear Mr. Beebe:

In reply to your letter of May 28, 1958, in connection with the above captioned permits.

As per your request, we wish to advise that the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 can be included in the license under Permit No. G-23266, however, Mr. Humphrey states that the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 is now being irrigated from a well located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14 and is the same point of diversion as given as the location of the well under Permit No. G-26420.

In talking with Mr. Humphrey, he states that it would be to the advantage of Mr. Lankford, since he has measured the flow of both wells, that Permit No. G-26420 be amended to include the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14, however, it is up to Mr. Lankford and yourself as to whether the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 is included in Permit No. G-23266 or Permit G-26420.

Re: Permits Nos. G23266 and G-26420
Olen Lankford

Dear Mr. Thompson:

We appreciate hearing from you by your letter of May 26th. If we understand your letter correctly, Mr. Humphrey has made an engineer's report of the lands and water systems under the two above permits and final proof under both permits is just a matter of Mr. Lankford making his proof under the last Permit, No. G-26420.

We assume that whether the $E\frac{1}{2}SW\frac{1}{4}$ of Section 14 should be included under Permit No. G-23266 or under No. G-26420 depends upon whether or not completion of water works and application of water to beneficial use as to the $E\frac{1}{2}SW\frac{1}{4}$ of Section 14 have been accomplished under No. G-23266. If it can be included under the older permit, that is, G-23266, then from a priority standpoint we think it should be included.

There is a possibility that Mr. Lankford, if he can qualify the $E\frac{1}{2}SW\frac{1}{4}$ of Section 14 under either of the permits would rather have it under a particular permit from the standpoint of some day facilitating the transfer of lands and appurtenant water rights.

We are writing Mr. Lankford in this regard and sending him a copy of your letter of May 26th, asking him to contact us and discuss the matter with us. In the meantime we would appreciate your advising us whether Mr. Humphreys concludes that the $E\frac{1}{2}SW\frac{1}{4}$ of Section 14 could be included under the proof submitted under No. G-23266.

Attention: Mr. Arnold T. Beebe

Dear Mr. Beebe:

This is in answer to your letter of May 21, 1958, in which you state that the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14, Township 4 South, Range 31 East should be included in the land description as shown in our office letter of May 14, 1958.

There seems to be a mix-up regarding these permits in the name of Olin Lankford. It is true that according to the amendments in this department in connection with Permit No. G-23266, the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 should have been included in the land description and connected with said permit. However, when Mr. Humphrey, Deputy State Reclamation Engineer, made the engineer's report of the examination, Mr. Olin Lankford accompanied him on said inspection and it was Mr. Lankford's wish that the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 be included in Permit No. G-26420 at that time, as proofs of Completion of Works and Application of Water to Beneficial Use had not been made, although inspection has been made on both permits by Mr. Humphrey.

Mr. Humphrey states that we should write you in this regard and make sure under which permit the E $\frac{1}{2}$ SW $\frac{1}{4}$ should be included. Provided it is Mr. Lankford's wish to have the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 included under Permit No. G-26420, it will be necessary to amend both permits to make the correction.

We are enclosing forms for that purpose in case you wish to use them. However, we will await your reply before further action is taken in the matter.

Gentlemen:

We wish to acknowledge receipt of your letter of July 18, 1957 in which you name Mr. Mack W. Crouch, of Burley, Idaho as the Notary before whom you wish to make proofs on the above captioned permit.

We wish to state that we do not see how you could swear to a deposition in Portland and your witnesses in Burley. We therefore think the best thing for you to do is to appoint someone in Burley, your ranch foreman, or lessor, or someone to act under the power of attorney to sign for you at burley.

We are enclosing herewith a form of proof which is to be filled out by the holder of said permit. It may be that you could fill out all the answers and then send it to the designated agent in Burley for signature and notarization. We will send a set of blank proofs to your Notary so that he will have them on the date set in the publication notice of September 23, 1957.

We hope satisfactory arrangements can be made by you to negotiate said proofs.

Attention: Mr. Arnold Beebe

Dear Mr. Beebe:

In reply to your letter of September 23, 1957, in regard to the above captioned permits, we wish to state that the assignment of Permit No. G-23266 which misspelled Mr. Lankford's name has been corrected on the original record in this department. Therefore we do not think that any affidavit will be necessary as per your suggestion.

In studying over the land description described under Permits No.s G-23266 and Permit No. G-26420, we might suggest the following; that Permit No. G-23266 may be amended to include the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 13, together with the SE $\frac{1}{4}$ and the E $\frac{1}{2}$ of the SW $\frac{1}{4}$ of Section 14, since the W $\frac{1}{2}$ of the SW $\frac{1}{4}$ of 14 is not in crop at this time and ready to be proved up upon, we might suggest that Permit No. G-26420 be amended to include the W $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14, and exclude the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of 13. Providing that Mr. Lankford proposes to operate all his lands included in both permits, it might be well that he amend permit No. G-23266 to include all of the lands except the W $\frac{1}{2}$ of the SW $\frac{1}{4}$ of 14 which cannot be proved up on at this time, then amend Permit No. G-26420 to include all of the lands under both permits. This would give the holder of the Permit the right to distribute his water from either well in any manner he chooses, or where he chooses.

We are enclosing herewith some amendment forms for your use in case you wish to use them, also we will await hearing from you before we publish said notice for completion of works and beneficial use on Permit No. G-23266 until we hear from you whether you wish to amend same or not.

Dear Mr. Beebe:

This is a reply to your letter of February 12, 1957, relative to the permits captioned above in the name of Olen Lankford.

The status of the permits is as follows: Permit G-23266 was filed and approved in this department on November 29, 1952. Completion of Works and Beneficial Use Proofs are due at the same time and are not due until November 29, 1957. Permit No. G-26420 was filed May 16, 1956, proofs of completion of works and beneficial use are not due until July 15, 1961.

Proofs on Permit No. G-23266 will have to be completed by November 29, 1957. No extension of time can be granted on this permit since the five-year maximum time allowance will expire on the said date. The sixty-day clause and the 1/5 completion clause of the permit are statutory requirements, however, this department does not police same but is concerned only with the completion of works and water put to beneficial use date as stated under the terms of the permit.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-26420 Department of Reclamation

Comes now Mr. Olan Lindford and represents to the State Reclamation Engineer of the State of Idaho;

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G 26420.

That the point of diversion is described in said permit as being located in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 15 Twp. 4 South Rge. 31 E.B.M.

That he now requests that the point of diversion be changed to a point located in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 14 Twp. 4 South Rge. 31 E.B.M. *
SW $\frac{1}{4}$

That his reasons for desiring to make such change are as follows:

Clerical error made while filling out the permit.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Sterling, Idaho, this 11th day of August 1956

X Olan Lindford

Gentlemen:-

We acknowledge receipt today of your Permit No. G-26420 returned to us for the purpose of checking the Point of Diversion.

We find the Point of Diversion as given in the Permit to be as follows; SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 15, Twp. 4 S., Rge. 31 E. B. M., but the map accompanying said Permit shows the Point of Diversion to be in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 14, Twp. 4 S. Rge. 31 E. B. M. If the Point of Diversion is in Sec. 14, Twp. 4 S. Rge. 31 E. then an Amendment will be necessary.

The land list as given on Page 2 of the Permit shows the land to be used as follows; NE $\frac{1}{4}$ and the SE $\frac{1}{4}$ of Sec. 23 and the NW $\frac{1}{4}$ of Sec. 13 all in Twp. 4 S., 31 E. B. M.

The accompanying map shows the land to be in the NE $\frac{1}{4}$ and 27 acres in the SW $\frac{1}{4}$ of Sec. 23 and the NW $\frac{1}{4}$ of Sec. 13, all in Twp. 4 S., Rge. 31 E. B. M.

If the land description is other than that given on Page 2 of the Permit then an amendment for the land to be used becomes necessary.

We enclose an amendment to the Point of Diversion, also an amendment to the land list. If either or both of these are needed please fill out, have Mr. Olin Langford sign and return same to this office for recording.

We thank you for the trouble you went to in returning this Permit and we enclose your Permit at this time.

Very truly yours,

MARK R. KULP

Dear Mr. Langford:

We are in receipt of a letter from Mark R. Kulp, State Reclamation Engineer, Boise, Idaho requesting that we return to the office Permit No. G-26420. This is the water permit that was mailed to you on the 26th.

There seems to be some question on the point of diversion and they would like to have it returned so that they may re-check their records.

At your earliest convenience please forward directly to Mark R. Kulp, State Reclamation Engineer, Boise, Idaho the above mentioned permit.

Very truly yours,

Gentlemen:

We wish to acknowledge receipt of Application for Permit to appropriate the subterranean waters of the State of Idaho in the name of Olin Lankford as Applicant.

In checking the Application we find that you have filed only on 2.59 cubic feet per second, while you would be entitled to increase that amount to 2.94 cubic feet per second with no additional filing costs based on 1 minor's inches per acre.

With your permission we will change the Application to read 2.94 in place of 2.59.

We also received your check for the amount of \$6.75 as your filing fee and an additional 50¢ for Assignment of Permit No. Q-23266.

We are returning your check and will ask that you substitute same for a check to the amount of \$6.00 in place of the \$6.75, as your filing fee is \$5.30 based on \$5.00 for the first second foot and 25¢ for each additional second foot or fraction thereof, plus the amount of the Assignment which is 50¢.

Very truly yours,
