INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-34244
Permit No. G-26356
District No.

H. William Furchner,
Attorney
Blackfoot, Idaho

1. Name of Applicant: CUSHMAN and JOHNSON, a copartnership composed of Guy Cushman and Severin Johnson

Postoffice address: Blackfoot County: Bingham State: Idaho.

2. Quantity of water claimed:

(a) Rate of withdrawal in cubic feet per second. 6.4 c.f.s. or Idaho
Miners' inches or gallons per minute.

(b) Annual withdrawal in acre feet per annum

3. Source of water supply: subterranean water, to be pumped from two wells.

4. Location of point of diversion or well^{#1} is in the S $\frac{1}{2}$ $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 36
and well #2 in the S $\frac{1}{2}$ of SE $\frac{1}{4}$ of Section 36,
Twp. 1 So., Rge. 32 E., B.M., County of Bingham

5. Water is to be used for: Irrigation

6. If for municipal, industrial or recreational purposes, give:

(a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.

(b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.

7. Kind of works: Two wells, #1-18-inch inside diam., cased to lava rock, 385 feet deep; 235 feet to water, equip. with 100 h.p. elec. motor & pump. Well #2-18-inch inside diam., cased to lava rock; 360 feet deep, 232 feet to water, equipped with 100 h.p. elec. motor & pump.

8. Estimated cost of works: \$45,000.00

9. (a) Is reservoir to be used? no

(b) Capacity of reservoir:

10. The time required for the completion of such work and complete application of the water to the proposed use is Two years.

11. If applicant is a corporation, give:

I. (a) Date and place of incorporation:

(b) Amount of capital stock: \$ (c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the applicant are (a) Cash on hand: \$

(b) Treasury stock: (c) Bonds to be issued:

(d) Other resources:

12. The land to be irrigated is described in the following tabulation:

13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

(a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.

(b) 6.4 (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Applicant.

Agent.

Corrected application received:

The number of this permit is G-26356

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before July 25, 1956 and to continue diligently and **uninterruptedly** to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before May 25, 1957

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before May 25, 1958

Witness my hand this 25th day of May, 1956

Mr. H. William Furchner
Attorney At Law
Blackfoot, Idaho

Dear Mr. Furchner:

We enclose the following:

1. Application for Amendment to Permit No. G-26356 as approved by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 93 of Permits at Page 26356 amending the point of diversion of well #1 as described on record to read: "N $\frac{1}{2}$ SW $\frac{1}{4}$ Section 36, Township 1 South, Range 32 East, BM" This amendment should now be attached to the original permit to which it refers and of which it becomes a part.

2-3. Certificate of Completion of Works and the License and Certificate of Water Right issued under Permit No. G-26356 confirming the right with priority of May 21, 1956, to the use of 4 second feet of subterranean water, with points of diversion in the S $\frac{1}{2}$ SE $\frac{1}{4}$ and N $\frac{1}{2}$ SW $\frac{1}{4}$ Section 36, for irrigation of 320 acres in the S $\frac{1}{2}$ of Section 36, Township 1 South, Range 32 East, BM.

4. Departmental receipt #G-3659 for \$21.00, issued as receipt of the five dollar fee for the Certificate of Completion of Works and sixteen dollars license fee.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-26356
Guy Cushman & Severin Johnson

Mr. H. William Furchner
Attorney At Law
Blackfoot, Idaho

Dear Mr. Furchner:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-26356 shows that wells #1 and 2 are capable of conveying 200 miners inches (4. c.f.s.) of water for irrigation of 320 acres, and, that well #1 is located in the N $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 36, Township 1 South, Range 32 East, B.M., whereas, the permit lists it in the S $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 36. It is therefore necessary that the permit be amended to show correct location. We enclose an Application for Amendment to point of diversion for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totaling \$21.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (sixteen dollars--fee based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of May 21, 1956, to the use of 4 second feet of subterranean water, with points of diversion in the S $\frac{1}{2}$ SE $\frac{1}{4}$ and N $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 36, for irrigation of 320 acres in the S $\frac{1}{2}$ of Section 36, Township 1 South, Range 32 East, B.M.

Water is used for: Irrigation6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

S $\frac{1}{2}$ of Section 36, Township 1 South, Range 32 East, B. M. - 320 Acres *10/1/58**filed 5/21/56**done 5/25/58*

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? None

Remarks: The 9-24-56 inspection was accomplished with the aid of
labors on the farm and by interview of Mr Severin Johnson at his
home in Blackfoot. Both well #1 & #2 are drilled somewhat
deeper than ordinary since Messrs Cushman + Johnson are in the business
of well drilling.

This examination was made on the 24 day of Sept., 1958(Signed) Laurie M. Maw

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. G-26356
Cushman and Johnson

Mr. Severin Johnson
Blackfoot, Idaho

Dear Mr. Johnson:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Daily Bulletin, all submitted in Proof of Completion of Works and Application of Water to Beneficial Use on Permit No. G-26356.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Permit No. G-26356

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Cushman and Johnson, Blackfoot, Idaho. I am Severin Johnson, one of the partners in the firm of Cushman and Johnson. I reside at Blackfoot, Idaho, and I am a farmer and auctioneer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. - - - - -

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-26356 dated May 25, 1956, with priority date of May 21, 1956.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well No. 1 - South half of the Southwest quarter; Well No. 2 - South half of the Southeast quarter, all in Section 36, Twp. 1 South, of Rge. 32, E. B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well No. 1-18 inch inside diameter, cased to lavarock, 385 feet deep with water level at 235 feet, equipped with 100 h.p. electric motor and pump. Well No. 2-18 inch inside diameter cased to lavarock, 360 feet deep with water level 232 feet, equipped with 100 h.p. electric motor and pump. Both wells and pumps connected to sprinkler system with mainline running East and West through center of South half of said Sec. 36. 8 laterals of 1/4 mile each and 4 inch diameter, 26 nozzles with 3/16 inch aperture, operating pressure about 40 lbs per sq. inch.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is all used for irrigation of the entire area of the South half of Section 36, Twp. 1 South, Rge. 32, East Boise Meridian. All is cultivated except for a few rough spots which are sprinkled but not cultivated. Improvements include one caboose and two box-cars.

J 26356

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. - - - -

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One inch per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. - - - -

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The entire flow of both wells used together through the said sprinkler system and producing about 260 miners inches of water has been used in the irrigation of said lands for the year 1956 and 1957 and crops have been produced and harvested both years on said lands.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

Permit No. G-26356

Proof of Application of Water to Beneficial Use

Deposition of Witness ^{and} Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Melvin Jaeger, I am 44 years of age, a farmer, and residence and postoffice address are 433 Maple Street, Idaho Falls, Idaho.

Ques. 2. Are you acquainted with Severin Johnson, one of the partners ~~in the firm Cushman and Johnson~~, the holder of Permit No. G-26356? How long have you known him and where does he reside?

Ans. Yes. I have known Severin Johnson thirteen years. He resides at Blackfoot, Bingham County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26356, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well No. 1--S $\frac{1}{2}$ SW $\frac{1}{4}$; Well No. 2--S $\frac{1}{2}$ SE $\frac{1}{4}$, all in Sec. 36, Twp. 1 South, Rge. 32, East Boise Meridian. Well No. 1, 18" dia, 385 feet deep, equipped with 100hp elec. motor and pump. Well No. 2, 18" dia, 360 feet deep, equipped with 100 hp elec. motor and pump. Both wells and pumps connected to sprinkler system with mainline running East and West through center of S $\frac{1}{2}$ Sec. 36 with 8 laterals of 1/4 mile each in length.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 260 inches, my estimate from long experience with irrigation.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 260 inches, by my estimate.

B26356

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All water is used for irrigation of entire area of South half of Section 36, Twp. 1 South, Rge. 32, East Boise Meridian. All is cultivated except for a few rough spots which are sprinkled but not cultivated. Improvements include one caboose and two box-cars.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. - - - -

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is lavaash soil and requires an inch of water to the acre for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the water used on said lands and the crops raised thereon during the seasons of 1956 and 1957.

(Signed)

Myself, J. J. J.

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Blackfoot, County of Bingham, State of Idaho, on this 24th day of April, A. NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE.

NOTICE IS HEREBY GIVEN that 10 A.M., on the 24 day of April, 1958, at Blackfoot, County of Bingham, State of Idaho, before H. William Furchner, Notary Public, at Blackfoot, Idaho, proof will be submitted of the completion of works for the diversion of 6.4 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-26356 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person holding said permit are Cushman and Johnson, co-partnership composed of Guy Cushman and Severin Johnson, Blackfoot, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 6.4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 6.4 cubic feet per second.

4. The point of diversion of said water is: Well No. 1 is in S1/2SW1/4 Sec 36 and Well No. 2 is in S1/2SE1/4 Sec. 36, Twp. 1 South, Rge. 32, E.B.M.

5. The place where said water is used is S1/2 of Sec. 36, Twp. 1 South, Rge. 32, E.B.M.

6. The date of priority which said user is prepared to establish is May 21st, 1956.

RE: Permit No. G-26356

Date March 1, 1958

Cushman & Johnson
co-partnership
Blackfoot, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-26356 are due not later than May 25, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper with the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permits Nos. G-26350 - G-26356

Mr. H. William Furchner
Blackfoot
Idaho

Dear Mr. Furchner:

We enclose Permit No. G-26350 in the name of George A. Katscanas and Permit no. G-26356 in the names of Cushman and Johnson and direct their attention to the limitations and conditions as given on the fourth page under Approval of the State Reclamation Engineer.

We also enclose departmental receipt No. G-1884 for the \$6.00, in connection with Permit No. G-26350, which includes \$4.00 for the filing fee and \$2.00 for the extra copies; and also departmental receipt No. G-1883 for the \$6.50, in connection with Permit No. G-26356, which includes \$4.50 filing fee and \$2.00 for the extra copies.

We note that in Permit No. G-26350, George A. Katscanas is prepared to make proofs of Completion of Works and Beneficial Use.

Before these proofs are made, the statutes require publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the notary public before whom the proofs are to be made.

The proofs may be made at any place convenient for Mr. Katscanas and his two witnesses but the date must be set far enough ahead to allow for four weeks publication.

G26356

May 31, 1956

Both copies of Form 36 to be returned to this Department together with Form 11 which is Mr. Katsenanes authorization for us to have the notice published at his expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you or Mr. Katsenanes the forms of deposition to be executed by Mr. Katsenanes and two disinterested witnesses in making these proofs.

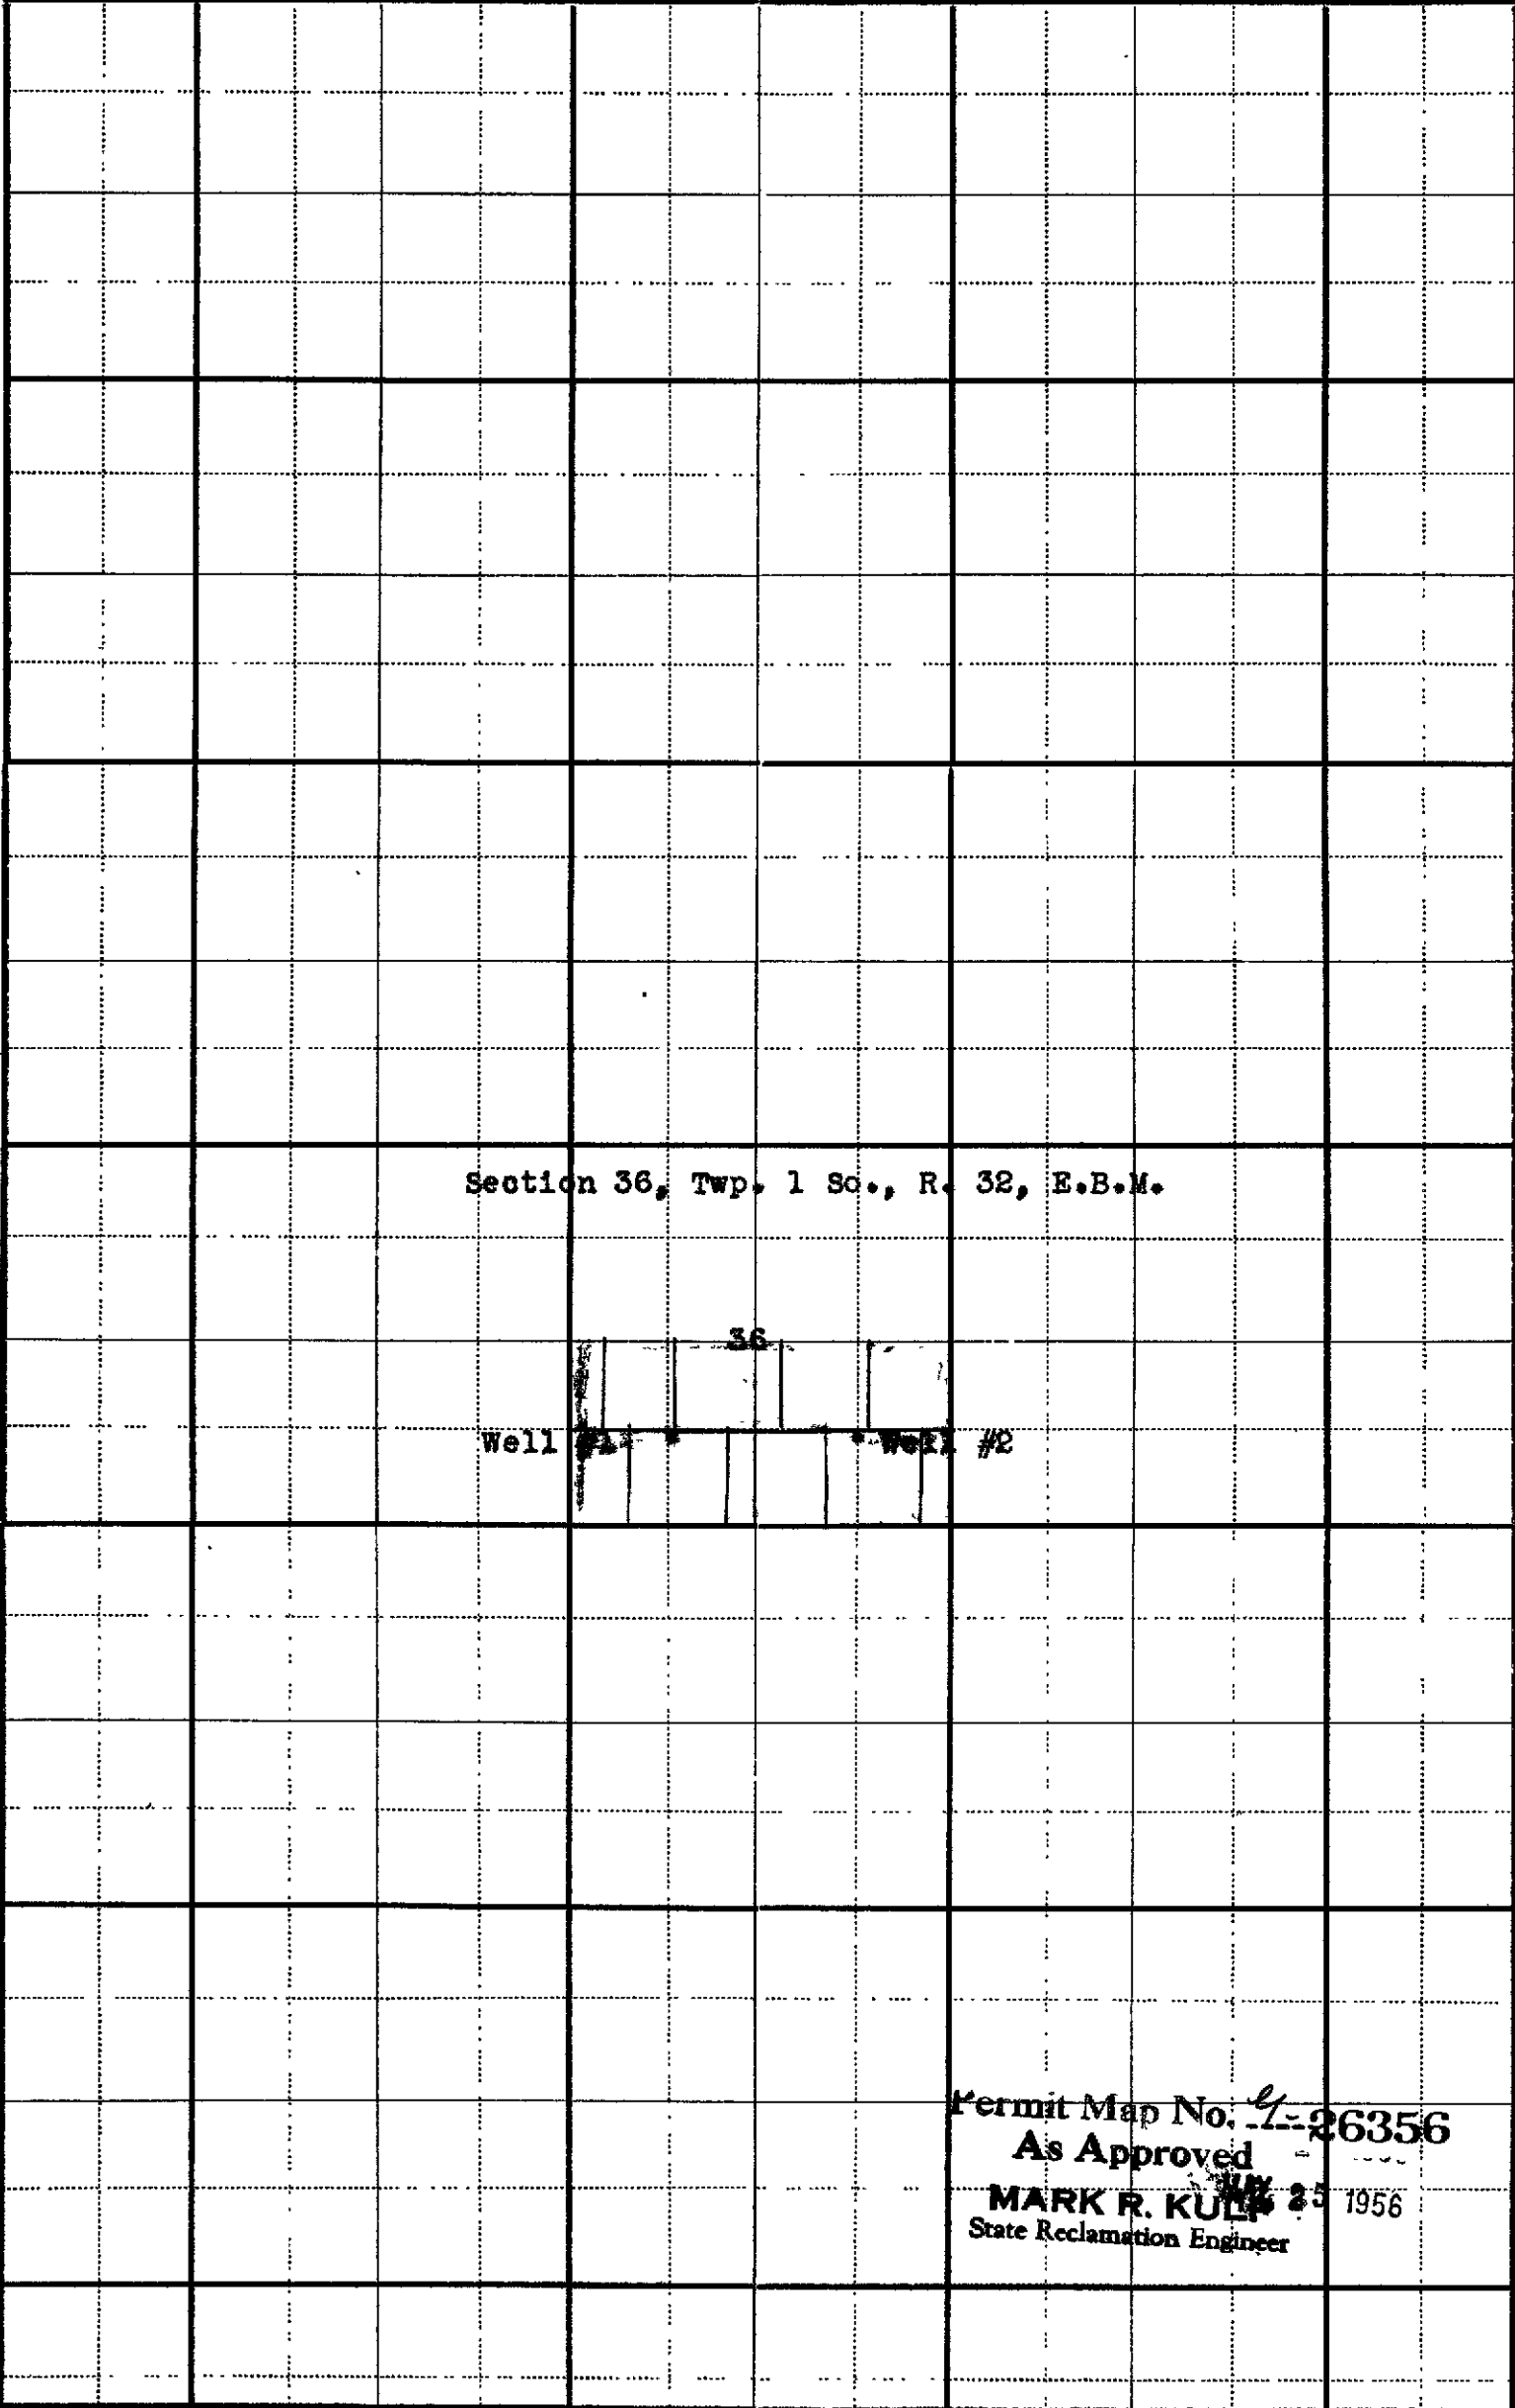

Very truly yours,

MARK R. KULP
