Dear Mr. Crawford:

In reference to your letter of September 9, 1970, please be advised that Water License No. G26355/35-2465, appears to be in good standing. There are no indications of transfers, abandonment, or forfeiture of the right through non-use, in our file. The license was issued in the name of LoVina P. Stokes. The license was issued with a quantity of 1.66cfs, with a priority of May 18, 1956, for the irrigation of 83 acres of ground. The source of water supply is subteranean flow, the use is irrigation and domestic. A copy of this license is enclosed.

Water License G25795/35-2428, issued in the name of Calvin L. Hale, and Roy Johnson, assignee, for 76/153 inches; the quantity is 3.06cfs, priority is July 1, 1955, source of water is ground water, use is irrigation and stockwatering. The area irrigated is 153 acres. There is no indication that the right has been forfeited or abandoned, or any transfers have been proposed. You might refer to our letter of December 27, 1965, wherein Mr. Ralph Thomas, Deputy, State Reclamation Engineer, returned two assignments filed in connection with these permits, referencing the name of Claude D., and Phyllis Hylee. We are enclosing a copy of this license for your future reference.

If we can be of further assistance, please contact us.

3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Dear Mrs. Stokes:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26355. The proofs are to be made at 10:00 o'clock A.M., on the 22nd day of May, 1961, ~~at 10:00 a.m.~~ before Fred W. Kiefer, 592 W. Bridge St., Blackfoot, Notary Public.

As of this date we have mailed the Notice to the Blackfoot News with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Pingree, Idaho

Dear Mrs. Stokes:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-26355 are due not later than May 25, 1961.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.
